(i) With parents.
(ii) Under the care of duly recognized guardians, who must be accepted by the heads of the institutions as persons of sufficient age and responsibility to be entrusted with such guardianship. In the case of students whose fathers are alive, such guardians shall be nominated in writing by the fathers of the pupils. In the case of a student residing in a private family as tutor, the head of the family shall be considered to be the guardian under this class.
(iii) In a hostel of public or private character.
(iv) In a students' mess or other approved mess.

Students not living under one of these conditions will be liable to expulsion from the college or school attended, and the cause of such expulsion will be notified in the transfer certificate given to the student.

3. In the case of students living in classes (iii) and (iv) of rule 2, they will be considered to be under the direct control and supervision of the heads of the institutions of classes (*a*), (*b*), (*c*) and (*d*), not only during college or school hours, but also at all other times during the college or school terms.

4. All hostels or messes coming under paragraph 2 (iv) above must be duly licensed or approved in writing by the Principal of a college or by the Head Master of a high English or middle school as a fit place for the residence of students. At the time of application for a license, the head of the institution to which the largest number of students asking for the license belong will be considered to be the officer to inspect and license the mess. In the event of equal numbers in a mess coming from different institutions, the head of the senior institution as recognized by, or affiliated to, the Calcutta University will be considered to be the officer to license the mess. If, as the result of change in the residents in a mess, it is found the majority of the residents belong to an institution other than that of the officer who licensed the mess, it will be open to him to transfer the mess to the head of the other institution. The Principal or Head Master, who has approved of the building or rooms used as a hostel or mess, will be responsible for the hostel or mess so approved and for the students who live in it. Such hostels or messes will be regularly and frequently inspected by the Principals of Colleges or Head Masters of Schools, or by officers deputed by them for such duties. Particular attention shall be directed at such inspections to all conditions in relation to the morality of the students and also to the discipline maintained in such hostel or mess. Instructions shall be given, if necessary, that a proper standard in such matters shall be maintained. The sanitary arrangements shall also be enquired into and inspected. In the case of a hostel under public management, if any defects are found, steps must be taken through the proper authorities to have any defects noticed remedied as speedily as possible. In the case of private hostels or the messes referred to, it will be in the power of the officer who is inspecting to declare that such buildings cannot be recognized for the purposes of a hostel or mess, and such declaration, when approved by the Principal of the college or the head of the school, shall be sufficient to cause the building to be struck off from the list of places where students are permitted to live.

5. Messes coming under paragraph 2 (iv) above and public and private hostels for students will be also open to inspection by any Inspector or Assistant Inspector of Schools, or any other person specially deputed for the purpose by Government or by the Education Department. Gentlemen of influence living in the neighbourhood of such messes or hostels may also be appointed to act as visiting members for such places under the authority of the Director of Public Instruction.

6. In every hostel where there is no paid Superintendent and in every mess the Principal of the college or the Head Master of the school shall appoint one of the most senior and responsible of the residents of such hostel or mess to act as Honorary Superintendent, and such Superintendent will be responsible for the maintenance of good order in the institution in which he resides. It will be the duty of the person so appointed to help the Principal of the college or the Head Master of the school in every matter connected with the morality and discipline of the persons living in the hostel or mess, and also to report any serious breaches in such matters to the authorities of the college or school. Ordinarily the Superintendent will be a teacher or a senior student of a college, but it will be permissible for outsiders to be appointed as Superintendents of messes. The remaining members of a mess must be *bonâ fide* students of colleges or schools unless special exceptions to this rule are made by the head of the institution who has licensed the mess.

7. Cases of infectious disease or of sickness should be at once reported by the Superintendents of hostels and messes to the authorities of the college or school at which such students attend.

8. A Conduct Register will be kept by the Superintendent of the hostel or mess, who shall have no power to cancel or alter an entry once made and signed. Boarders are liable to have their names placed in the Conduct Register for—

(1) Disobedience of orders or infringement of any rules made for the well-being of the hostel or mess.
(2) Absence without sufficient cause.

(3) Continued neglect of study.
(4) Insubordination or disrespect to the authorities.
(5) Assaulting or abusing a servant of the hostel or mess.
(6) Want of cleanliness or tidiness in their rooms and on the premises.
(7) Misconduct not provided for by the rules.

9. The names of all the students residing in the hostel or the mess should be entered in an Attendance Register to be supplied for the purpose, and the rolls must be called twice a day at stated hours. Boarders found absent without satisfactory cause should be reported to the Principal or the Head Master of the institution to which they may belong, and for the third offence of the kind during the same term they may be expelled from the hostel or the mess.

10. A student may be removed from the hostel or students' mess for habitual or gross misconduct, or for frequent entry in the Conduct Register by the head of the institution who has licensed such hostel or mess. Every such removal shall be reported to the authorities of the institution to which the student belongs and also to his guardian

11. All inspection remarks are to be recorded in the Visitors' Book.

12. Detailed rules for the conduct of the hostels or messes should be made by the Superintendent in consultation with the heads of the institutions concerned

13. A report of the working of the hostel or the mess should be separately furnished to the Department at the close of the official year with special reference to the conduct of the residents and to their health and progress, as also to the sanitary arrangements of the premises and their surroundings.

14. Students should be made to bear in mind that hostels and messes are meant solely for their welfare. They should, therefore, look to the interest of such institutions with zealous care. A loyal observance of the rules will go a great way towards insuring the students' own comfort. The Superintendent will listen to any complaints or suggestions that may be brought to his notice by a boarder in a proper manner. Hostels and messes can prosper only through the mutual co-operation of their members

15. The head of each institution licensing messes or under whom a hostel is working shall, at the end of each official year, submit to the officer of the Educational Department, through whom he ordinarily corresponds with Government, a report on their working, with special reference to the conduct of the residents and to their health and progress, as also to the sanitary arrangements of the premises and surroundings. These reports are to be forwarded to the Director of Public Instruction by the receiving officer with such remarks as may be necessary.

COPY of the following forwarded to the Government of Bengal for information, in continuation of the telegram from this Department, No. 2078, dated the 30th June 1899.

THERAPIA;
July 14th, 1900.

To

HIS EXCELLENCY LORD CURZON, OF KEDLESTON, G.M.S.I.,
&c., &c., &c.

MY LORD,

Certain Shiite pilgrims from India having lately encountered difficulties at Basra, and Mr. Acting Consul Shipley having advised me that more are expected to arrive shortly, I have the honour to inform Your Excellency that the prohibition of the entry of Shiite pilgrims and corpses into Mesopotamia, dated January 26th, 1897, and reported by my predecessor to Her Majesty's Principal Secretary of State for Foreign Affairs in his No. 8 Commercial, of the 1st of February 1897, is still in force.

The prohibition was relaxed in June 1899 in favour of pilgrims from Persian ports, with the exception of the littoral of the Persian Gulf as far as Mohammera, included, but the Board of Health maintains its decisions in so far as pilgrims from India and elsewhere are concerned, as reported by Dr. Clemow, British delegate on the Board of Health, in his Despatch No. 16, of the 13th instant, of which a copy is enclosed herewith.

I have, &c.,
N. R. O'CONOR.

No. 16.

CONSTANTINOPLE;
July 13th, 1900.

To

HIS EXCELLENCY THE RIGHT HONOURABLE
SIR N. R. O'CONOR, G.C.B.,
&c., &c., &c.

SIR,

With reference to Mr. Shipley's telegram of July 10th and to my Despatch of the 7th (No. 12), I have the honour to report that I endeavoured yesterday to obtain permission for the landing of the fresh batch of Shiite pilgrims expected at Basra. The Vice-President of the Board of Health and Dr. Cozzonis, Inspector-General, assured me that such permission can only be granted by a fresh decision of the Board. The next meeting of the Board will take place on Tuesday, the 17th instant.

The principal decisions bearing on the question of the admission of Shiite pilgrims from India to Mesopotamia appear to be the following:—

The first was that of January 26th, 1897, which definitely prohibited such pilgrimages. The second was that of February 8th, 1898, confirming and continuing the first. Copies of these decisions I had the honour to transmit to Your Excellency yesterday.

On June 20th, 1899, the Board came to the following decision in regard to Shiite pilgrims from Persia:—

"L'accès de la Mésopotamia aux visiteurs Chiites et aux cadavres provenant de Perse sera interdit jusqúà nouvel ordre."

A week later, June 27th, 1899, the following additional resolution was passed:—

"La mesure d'interdiction de l'entrée en Mésopotamia des visiteurs Chiites et des cadavres n'est applicable qu'aux provenances du littoral persan du Golfe Persique jusqúà Mohammera inclusivement."

I pointed out that this limitation must be held to imply that pilgrimages from places other than the Persian shores of the Persian Gulf were not forbidden. But in reply it was urged that the limitation referred solely to the previous decision in regard to pilgrimages from Persia, and did not in any way touch the question of pilgrimages from India or elsewhere.

I have, &c.,

F. G. CLEMOW.

Extrait du Procès verbal de la Séance du Conseil Supérieur de Santé du 27-8 Février 1898.

"Après une courte délibération subséquente le Conseil adoptant la proposition de Mr. le Dr. Dickson décide de faire répondre à l'office de Basra *que la prohibition pourles visiteurs Chiites indiens de se rendre à Mesopotamie est toujours maintenue*, mais que si, nonobstant, ces visiteurs arrivent clandestinement ou par voie détournée à Basra, ils y seront retenus en quarantaine au lazaret de la ville jusqúà l'arrivée du premier navire anglais à destination de l'Inde qui devra les embarquer pour les ramener dans leurs foyers. Le Consul Anglais de Basra en sera, selon l'engagement pris par Mr. le Délégué d'Angleterre, informé par l'Ambassade de S. M. Britannique pour le nécessaire en conséquence."

F. G. CLEMOW.

Extrait du Procès verbal de la Séance du Conseil Supérieur de Santé du 14-26 Janvier 1897.

Le Conseil Supérieur de Santé, considérant les dangers apportés par le pélerinage indien en Mesopotamie, décide que l'accès de cette région sera interdit cette année aux visiteurs Chiites et aux cadavres de provenance indienne.

The examinations will begin as stated above, and each private student will pay a fee of Rs. 2 to the head of the institution at which he appears for examination. The balance after payment of expenses (stationery, etc.) will go as remuneration to the examiners.

3. Applications for permission to appear must be sent so as to reach *this office* not later than the 1st December with the following information, etc. :—

From Private Candidates proper.

(*a*) The name of the school in which the candidate last studied

(*b*) The transfer certificate (in original) granted to the candidate from the same ; or

(*c*) In the case of a candidate who previously appeared at the Entrance Examination, the Registrar's receipt (in original) for the fee paid.

(*d*) Age of the candidate.

From School-masters.

(*e*) A certificate from the Secretary or Proprietor of the school in which the candidate is serving to the effect that he has been a *bonâ fide* paid teacher of the school in which he teaches, and has been so ever since the 1st June 1900. In case of a school-master who has served *in more than one school,* he must produce certificates from the several schools in proof of his having been a *bonâ fide paid* teacher all along since the 1st June 1900.

Failing to produce the above certificate or certificates, a school-master will be subject to the rules applicable to *bonâ fide* private candidates, as given above.

4. If this office is satisfied that all is in order, the Inspector will countersign and return the application, and this then will be the candidate's passport for admission *to the test-examination.*

5. The Head Master of an institution (one of those named above) should direct private students to appear before him not later than the 12th January with their applications for admission to the Entrance Examination, and in the case of those candidates who have satisfied the test, he will cause them to sign their application forms in his presence, and will grant the necessary certificates, and then forward the applications to this office for countersignature, after which they will be sent by the Inspector *direct* to the candidates.

6. Expedition is necessary in carrying out all these instructions, and candidates should be *most careful* to give their names and addresses written legibly and distinctly, so that no mistake may be likely to occur.

7. *Under no circumstances should the entrance fee be sent to this office.*

8. Private students will understand that the test-examination of any schools other than those named above will not be accepted by this office.

9. Addresses of private students should be supplied to this office.

TEST-EXAMINATION OF PRIVATE STUDENTS.

1. A student who does not appear from any school, or who has been transferred since the 1st September next preceding the examination, without the consent of the Inspector, to the school from which he appears, will be treated as a private student.

2. All private students are required to appear at the test-examination of a zilla school. No private student will be admitted to the test-examination, unless accompanied for the purpose of identification, by some person known to the Head Master.

3. The first day of the test-examination in all zilla schools in the Bhagalpur and Chota Nagpur Circle will be the 18th December 1900.

4. Each private student will have to pay a fee of Rs. 2 for permission to appear at the test-examination to the head of the institution at which he appears. The balance of fees, after payment of expenses (stationery, &c.), will go as remuneration to the examiners.

5. Candidates for the test-examination should apply to this office not later than the 10th November 1900. They should forward the certificates granted to them under the transfer rules, by the Head Master of the school in which they last read. In the case of a candidate who had failed at a previous Entrance Examination and did not join a school afterwards, the Registrar's receipt, in original, will be accepted in lieu of the transfer certificate.

6. A student, who had failed to pass the annual examination for promotion to the first class at the end of session 1899-1900 and then left the school, cannot under any circumstances be allowed to appear at the Entrance Examination that will be held on the 4th, 6th, 7th, 8th and 9th March 1901.

7. Each candidate should submit with his application a statement showing:—

(1) Age.
(2) Residence.
(3) Father's name.
(4) Second language, besides English.
(5) Whether he appeared in any previous Entrance Examination.

8. *Bonâ fide* teachers employed in any of the recognised schools in the Bhagalpur and Chota Nagpur Circle may be admitted to the test-examination on payment of the prescribed fee, provided they can produce certificates of service and character from the employers, or from the Deputy Inspector of the district concerned.

9. The forms of application for permission to appear at the Entrance Examination will be signed by the Head Master of the zilla school at which the candidates have undergone the test, and will be forwarded by him to the Inspector for countersignature.

10. Applications and fees for admission to the Entrance Examination must be forwarded to the Registrar of the Calcutta University by the private candidates themselves, so as to reach his office on or before the 22nd January 1901.

F.A. AND B.A. EXAMINATION, 1901.

1. Deputy Inspector of schools, Sub-Inspector of schools, and *bonâ fide* teachers of recognised English schools, in the Bhagalpur and Chota Nagpur Circle of two years standing, *i.e.*, who have served as such for full two academical sessions, or for six months in the case of those who were admitted to a former examination of the same class, will be admitted to the above examinations. These latter must have served for six months prior to the submission of their applications to the Inspector for countersignature. School-masters should produce certificates of character and length of service (with dates) from the Managers of the schools in which they are employed. Their applications must reach this office not later than the 3rd January 1900.

2. Candidates for the B.A. Examination must forward with the applications their F.A. certificates, and those for the F.A. Examination their Entrance certificates.

3. Candidates should read carefully the certificate which this office will have to sign, and must be careful to supply all information and documents required without which the Inspector must decline to sign it.

4. The F.A. and B.A. Examinations in 1901 will be held on the 18th March 1901 and following days.

5. Applications and fees for admission to the above examination must be forwarded to the Registrar, Calcutta University, by the candidates themselves so as to reach his office on or before the 4th February 1901.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Moghalsarai-Gaya Railway, in the district of Shahabad, will be put up to sale at 11 o'clock on Monday, the 26th November 1900, corresponding with the 20th Agrahan Fasli 1308, at Sasaram, pargana Sasaram.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Notice under Rule 19, Section II.

NOTICE is hereby given that the lease of the land specified in the Schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Nagendra Nath Bose, and will be sold at 12 o'clock noon on the 4th January 1901, Friday, the 20th Paus 1307 B.S., at the Sundarbans Commissioner's office at Alipore, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 12th November 1879 :—

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath, not less than 25 feet in width, on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

BAY OF BENGAL—BURMA COAST.

Rangoon river—(1) Spit Tongue—(2) Liffey Reach—(3) DeSilva shoal.

THE Port Officer, Rangoon, has given notice of the following changes:—

(1) Spit Tongue—Extension of—.

Dated 3rd September.

The three-fathom line of the Spit Tongue has extended about 2¼ cables S. by E., and the extreme east point of the Tongue is now 200 yards due east of the Spit Tongue buoy.

(2) Liffey Reach—A fourteen-feet lump discovered.

Dated 4th September.

A fourteen-feet lump has been discovered in the Liffey Reach and fairly in the centre of the channel. It lies W. by N. (true) of the mouth of the Tanwet Choung creek in the following bearings (true):—

Shwe Dagon	N. 40° W.
Syriam pâgoda	N. 76° E.

and is marked by a second class black Conical buoy laid in 22 feet of water reduced 30 yards to the eastward of the patch.

Vessels should keep to the eastward of the buoy, as the water to the westward is doubtful, another lump of 14 feet having been found there.

(3) DeSilva Shoal—A Can buoy placed.

Dated 5th September.

A first class can buoy painted black has been laid at the elbow of DeSilva shoal in 18 feet of water reduced on the following bearings (true) from the buoy:—

AUSTRALIA—TORRES STRAIT—INNER ROUTE.

Discoloured water between Percy and High Peak islands.

THE Port Master, Brisbane, has given notice (No. 14 of 1900) that on the 11th August discoloured water was observed between the South-east Islet, Percy Group, and High Peak Island, extending in a West North-west and East South-east direction for about a mile and in a North North-east and South South-west direction for about half-a-mile.

A line drawn from the North-east extreme of the South-east Islet to High Peak Island passes over the discoloured water, from which

High Peak bears South 60° East;
South-east Islet, Northern extremity, bears North 60° West;
Steep Island bears South 4° West.

The locality will be examined at an early date.

[Third Publication.]

AUSTRALIA, EAST COAST—COOKS PASSAGE.

Shoal in approach reported.

THE British Admiralty has given notice (No. 511 of 1900) that the Master of the schooner *Griffin* reports that his vessel when about 4 miles north-eastward of Cooks passage passed within 50 yards of a shoal patch about 70 yards long and 30 yards broad. The shoal did not appear to have more than a depth of 4 to 5 fathoms over it, but there was no sign of any break.

The bearings taken place this shoal in lat. 14° 28′ 20″ S., long. 145° 36′ 0″ E.

NOTE.—As no soundings were obtained, it seems not impossible that this shoal appearance might have been caused by marine animalculæ. (*Notice No. 511 of 1900.*)

AUSTRALIA—SOUTH CHANNEL, PORT CURTIS.

Exhibition lights, and changed position of Gatcombe head light.

WITH reference to Notice to Mariners No. 200, dated the 11th August 1900, issued by this Office, the Port Master, Brisbane, has given further notice (No. 13 of 1900) that, on and after the 8th August, the South Channel into Port Curtis will be lighted for navigation by night, and the light from Gatcombe Head will be exhibited from the new tower erected 450 feet N. by E. from the old structure.

A description of the new lights has already been given in Notice No. 11, and the directions for their use are as follow:—

SOUTH CHANNEL.

By Day.—Vessels bound into the Port of Gladstone, and using the South Channel by day, will bring the leading light beacons, near the Boyne River, in line S. 75° W. before the Jenny Lind bank buoy is reached; continue with them in line until South Trees Point comes in line with Scrubby Mountain N.W. by W. ¾ W., then haul up for these marks, keeping them in line, and passing two red buoys on the starboard hand, until abreast of the floating lightboat (at the main entrance of the North Channel), then steer N. 55° W. until abreast of the Black Beacon (marking the limit of the shoal water E.S.E. from South Trees Point), then change course to N. 79° W., passing South Trees Point at a distance of about three cables, and two red buoys on the starboard hand; after the second red buoy is passed (marking the Rich Rock) haul down for the Jetty.

By Night.—Vessels entering the South Channel at night will get on the line of leading lights near the Boyne River before Bustard Head Light bears E.S.E. With the leading lights in line bearing S. 75° W. stand in until the leading lights on Gatcombe Head come into line bearing N. 55° W., when follow these leads until East Point Light is obscured, or until the main light on Gatcombe Head opens out. Then steer N. 69° W. to pass about two cables to the westward of the lightboat marking the inner entrance of North Channel; after passing the lightboat proceed as in directions given for North Channel at night.

NORTH CHANNEL.

By Day.—Same as at present.

By Night.—Bring Gatcombe Head Light to bear S.W. by W. ½ W., and steer in on this course until East Point Light opens out, then haul down S. by W. until Oyster Rock Light comes in sight, then steer to pass about 1¼ cables from it, taking care to avoid the shoal bank lying off the land between Settlement Point and Gatcombe Head. After passing the Oyster Rock Light, bring it and Gatcombe Head Light slightly open to the westward and steer to pass the floating white light close on the starboard hand.

A vessel when passing the floating white light will be in the main channel, and a N.W. by W. ¼ W. course should be steered up the harbour until the small light at the pilot's cottage at Gatcombe Head opens out on an E. by S. ¾ S. bearing when a vessel may be kept away, being clear of the elbow of the bank and of South Trees Point while the light is in sight.

Before rounding South Trees Point the light at the foot of Auckland Point will be seen. Keep the light open and steer to pass it at a cable's length, and after it changes to red continue until the two red beacon lights are in line, when haul up to enter the creek.

Since the tides run with a velocity of from 1½ to 2½ knots an hour, due caution will have to be observed and a proper allowance made for tidal influence when navigating this channel.

A fixed white light at Ras Serani.

THE Port Officer, Mombassa, has given notice, dated 23rd August 1900, that a fixed white light visible at a distance of about 12 miles will be exhibited shortly at Ras Serani. The light will be hoisted on a steel mast 60 feet high placed at the back of the inner pillar, visible from about N. 60° E. through E. to S. 20° W.

Further particulars will be published as soon as the light has been erected and put into working order.

INDIA, SOUTH—CEYLON COAST—POINT DE GALLE HARBOUR.

Neptune bastion—Lloyd's signal station established.

THE British Admiralty has given notice (No. 519 of 1900) that the Committee of Lloyd's have given Notice, dated 1st July 1900, that a signal station has been established at Neptune bastion, Point de Galle harbour, to which, any vessel requiring to be reported at night, should make the night signal of her line.

Vessels passing Point de Galle harbour at night, and wishing to indicate that they are calling at Colombo, should show a red light aft in addition to the night signal.

Arrangements have also been made at this station for immediate delivery to vessels at night, weather permitting, of orders for them; the charge for doing this being 20 rupees.

During the day orders will be signalled to vessels on the usual conditions.

The charges for reports from this station are, Day, 10*d.* each, Night, 1*s.* 3*d.*, in addition to the cost of the telegram. (*Notice No. 519 of 1900.*)

PACIFIC OCEAN—MARIANA OR LADRONE ISLANDS.

Position of Urracas islands.

THE British Admiralty has given notice (No. 520 of 1900) that the Urracas islands are shown too far to the northward on the Admiralty Charts. The question of the position of those islands has recently been discussed with the following results:—

No observations appear to have been taken actually on the islands themselves, but La Perouse, in 1786, placed Assumption island, off which he anchored, in lat. 19° 45′ N.

From a running survey executed by Captian Beechy, H. M. S. *Blossom*, in 1827, it would appear that the Urracas islands are situated 17 miles N. 25° W. (true) from Assumption island; this would place them in lat. 20° 0′ N., long. 145° 21′ E. As this agrees with the latest reports received by the United States Government, these islands have been placed in this position on the Admiralty Charts. (*Notice No. 520 of 1900.*)

Moto island—Shoal off—Decreased depth extending.

THE British Admiralty has given notice (No. 523 of 1900) that Captain Lans, H.I.M.S. *Iltis*, reports that, owing to the decreased depths of water, his vessel, drawing 12 feet, was unable to proceed further up the river than Moto island, a depth of 6 feet having been obtained with Moto fort bearing N. 23° E., distant 7 cables, and south extreme of Moto island, East.

From this it would appear that the bank between Moto mun and Moto island is extending to the southward. (*Notice No. 523 of 1900.*)

RESOLUTION ON THE REPORT OF THE DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL, FOR THE YEAR 1899-1900.

REVENUE DEPARTMENT—AGRICULTURE.

Dated Darjeeling, the 27th September 1900.

RESOLUTION—No. 1884T.R.

READ—

The Report of the Department of Land Records and Agriculture, Bengal, for the year 1899-1900.

Letter No. 973A., dated 15th August 1900, from the Board of Revenue, submitting the Report with their remarks.

Read again—

Resolution on the same Report for 1898-99.

MR P. C. LYON was in charge of the Department throughout the year, except for a period of two months and twelve days, when he was on privilege leave, and Mr. S. L. Maddox acted for him. Messrs. Nogendra Nath Banerjee and Dejen Lala Roy were his Assistants during the year. The report was submitted on the fixed date.

2. *Land Records Establishment—Registration of mutations under the Land Records Maintenance Act, III (B.C.) of 1895.*—The number of mutation offices under the Act was the same as in the previous year, viz., one at Bettiah

in Champaran and two at Hajipur and Mahnar in Muzaffarpur. No new offices have been opened, nor has the Act been extended to other areas. The statistics furnished show that mutation work in these offices has considerably fallen off, and the unanimous conclusion at which the officers have arrived is that the Act has failed in its object. The reports of the Board about the maintenance of the records prepared in the recent survey-settlement operations in the three great circles of North Bihar, Chittagong, and Orissa have now been completed and received.

3. In the three mutation offices mentioned above, out of the total number of notices for registration filed during the year, only 1,286 were voluntary presentations by the parties under section 6 of the Act. The figures for the immediately preceding years were 2,061, 4,063, and 4,287, respectively, and this continued falling off is a sure indication of the unwillingness of the tenants to utilise the procedure afforded by the Act.

4. The number of holdings in which changes liable to registration annually occur has been estimated at from 8 to 10 per cent., but the number of such changes which have been actually registered on the initiative of the Registrar and of the parties combined has been in the last four years in Bettiah thana 2·22, 2·09, ·56, and ·47, and in Hajipur, including Mahnar, 1·76, 3·37, 3·25, and 1·35, respectively. Thus the number of registrations besides, being far below the recognised standard, are continuously diminishing, especially under the head of "Succession," where they depend on the initiative of the parties. In fact the penalties imposed by the Act are inadequate to overcome the inertia of the tenants, and the advantages given by registration are clearly an insufficient inducement.

As a matter of course, decrease in work was followed by a decrease in income from fees. The receipts from the three offices amounted to Rs. 1,514 as against an expenditure of Rs. 3,247, and the deficit of Rs. 1,733 had to be made good by Government.

5. *Mutation work in Government and Wards' Estates.*—To improve the present state of things and to secure better results in mutation work in these estates, District Officers were directed in paragraph 6 of the last year's Resolution to give greater attention to the examination of tenants' rent-rolls, themselves or by their Deputies, during their cold-weather tours, and to summarise the results of such examination as regards the number of transfers which had not been noted in the records or reported by the tahsildars. Less was done than the Lieutenant Governor hoped, but a start was made, and he trusts that the Collectors in these districts will give real help in this important matter.

As regards the registration of mutations, the best results in Government estates were obtained in Backergunge, Jalpaiguri, and Darjeeling, and the worst in Noakhali and Gaya. In Wards' estates good work appears to have been done in Tikari, and there has been a marked improvement in Dakhin Shahbazpur, but in Madhupur matters are particularly bad. It is not easy to frame satisfactory rules, and it is tedious to make the minute inspections necessary for their enforcement. Moreover, the raiyats themselves are as a rule apathetic, and generally averse to taking the initiative. But efficient management is so closely and obviously bound up with a correct *jamabandi* that the Lieutenant-Governor has no alternative but to press again this duty on the Collectors who represent the Government or the owners, who are under the Court of Wards, in the management of these properties. In future reports the results of the enquiries made by the Collectors and their subordinates in accordance with the orders in the Resolution on the last year's report should be given in the form of a tabular statement as an appendix, every district in which inspections were necessary being included, whether such were made or not.

6. *Maintenance of Boundary Marks.*—In December last the Director of Land Records submitted through the Board of Revenue a scheme for the maintenance of boundary marks erected in the course of traverse surveys made in the course of proceedings under Chapter X of the Bengal Tenancy Act, and towards the close of the year orders have been passed directing that—

(1) only trijunction marks should be maintained, save where a disputed boundary has been laid down, in which case these marks should also be maintained;

(2) that the duty of inspecting and reporting the marks should be done by village chaukidars; and

(3) that trijunction marks should be serially numbered for each thana and a list kept in each thana.

Considerable attention appears to have been given in many districts to the inspection of boundary marks in Government and Wards' estates, and, judging from the *resumé* of the reports received by the Director, the need of a regular system which will be ensured by the contemplated rules is plainly manifest. In future years the state of the boundary marks should be given in the form of a tabular statement appended to the report, every district in which there are boundary marks being mentioned, and special care being taken to show what was done during the year with reference to what had to be done.

The damage yearly done in Angul to boundary marks is phenomenal. No reason for this is given, and the Director will be good enough to submit a separate report on this matter showing the reasons for such a state of affairs and the remedies he can suggest for effecting an improvement.

7. *Utilisation of Land Records.*—The report of the Director has summarised the various directions in which the use of the cadastral surveys and the settlement records is being extended, and he rightly emphasises their value to local officers in substituting exact information for the vague general estimates which alone are attainable without them, especially in that most important part of a District Officer's duty, the settlement of land disputes, and the prevention of riots. For census purposes they promise to be specially useful. The Director does not one whit exaggerate their value.

8. *Scientific and National Enquiry under Imperial control.*—It is satisfactory to note that there has been no recrudescence of the betelnut plague in East Bengal during the year, and that thorough enquiries are being made into the prevalence of disease in sugarcane. It is still too early to pronounce any definite opinion on the effect of the passing of Act XIV of 1899, imposing a countervailing duty upon bounty-fed sugars imported from abroad, upon the sugar-refining industry of this Province. Little progress has been made in the investigation into the methods of reclaiming the *usar* wastes in Bihar.

9. *Working of the Civil Veterinary Department.*—A separate Resolution has already been recorded on the subject.

10. *Experimental Farms.*—The three farms maintained by the Department are those at Sibpur, Burdwan, and Dumraon: the one at Sibpur is a comparatively small one, and since the establishment of the agricultural classes at the Sibpur Engineering College, it is mainly utilised for the practical training of the agricultural students. Financially, the farm was worked at a loss of Rs. 2,707 as against Rs. 1,293 of the previous year. The great fall in the receipts from Rs. 1,205 in 1898-99 to Rs. 745 during the year under review is ascribed to the failure of many of the crops grown in the farm. The results of the enquiry now being made by the Director into the causes of this failure should be reported. At the Burdwan and Dumraon farms the operations carried on differed little from those of previous years, the most practically successful being the ratooning of *khari* sugarcane, the use of green manuring for certain crops, and the introduction of such crops as jute and potatoes in tracts where they have not been hitherto sown. Some attempts in the selection of seed were made, and the continued use each year of only the best seed ought to produce interesting results. Financially, these two farms were worked at less cost than in the previous year without loss of efficiency. There was no appreciable fall in receipts as regards the Burdwan farm; but in Dumraon they decreased from Rs. 941 to Rs. 736, due to the great damage done to all the *rabi* crops by the hail of January last.

11. With a view to a better understanding of the value of the experiments that are yearly made in experimental farms, His Honour would be glad if the Director, would, in future, when narrating what has been done, discuss, for such of the experiments as will admit of the treatment, their financial results, in order that it may be seen whether there is any probability of their being adopted by the ordinary raiyat.

12. *Agricultural Experiments in Government, Wards' and Private Estates.*—The function of these experiments has been well expressed in the following extract from the Director's report:—

Mr. Wheeler, Collector of Darbhanga, makes some pertinent remarks as to the scope of such experiments, and points out that they cannot be supervised with sufficient care to render any comparison of the effects of different manures or of different systems of cultivation of much value. He suggests that all that should be aimed at is the demonstration of the value of certain new crops or new varieties of old crops, which have already been successfully grown in our farms or elsewhere. Mr. Wheeler has rightly interpreted the aims of the Department in his remarks. It is impossible for the Managers of Government or Wards' estates to carry out exact and difficult experiments, and we are only anxious that they should assist in the introduction of suitable new crops, and of suitable new varieties of old crops, such as paddy, jute, wheat, and the like. While they are almost bound to fail in obtaining any information of real value from original experiments, they can utilise such information as can be made available to them through this Department in selecting and cultivating new crops and demonstrating their value to the raiyats of their estates.

When it has been demonstrated that a particular crop is suited for the soil of the locality, its cultivation should be persisted in, until the neighbouring cultivators have satisfied themselves of its profitable character. The gradual adoption of the crop as one of the staple products of the local agriculture is the ultimate reward of these efforts. It is reported that in the Government estates in Angul, Midnapore, and Jaipur, and in the Wards' estates of Rangpur some success has been obtained, and in Chittagong, Backergunge, Purnea and the Tikari Raj laudable efforts are being made.

Last year the Lieutenant Governor observed with satisfaction the private efforts in this direction that were being made, and he has in the present report read with pleasure the appreciative remarks of the Director on the experiments made by Babu Charu Krishna Mazumdar, Zamindar of Islampur in Murshidabad, and Babu Ishwar Chandra Guha, of Jamalpur in Mymensingh.

13. *Sericulture.*—The work of the Silk Committee, whose duties are confined to the districts of Malda, Birbhum, and Murshidabad, has continued to meet with the most gratifying success. The work of teaching progressed rapidly under the Superintendent, Babu A. K. Ghose, and the number of rearers taught and turned out rose from 31 in 1898-99 to 47 in Malda, from 18 to 25 in Birbhum, and from 8 to 34 in Murshidabad. Many rearers learnt the use of the microscope thoroughly. The use of selected seed and of the various remedies advocated by the Committee increased rapidly; and the results in a larger outturn of a superior quality of silk were notable. Financially, also, there is strong evidence of the practical value of the work which is being done by the Committee. In the previous year there was a deficit of Rs. 772; this year there has been a credit balance of Rs. 1,049 at the close of the year, the receipts amounting to Rs. 9,718 and the expenditure to Rs. 8,669.

The Rajshahi Diamond Jubilee Industrial School also made satisfactory progress in sericultural work during the year under review. There was a steady rise in the number of pupils taught—from 38 in the previous year to 54, of whom nearly a third are Muhammadans. The students were sent out from time to time to help the villagers in the scientific selection of seed and in stopping outbreaks of disease. The grant of Rs. 2,000 made by the Government of India for some suitable work of agricultural improvement has been utilised in the erection of a masonry building to be used as a special seed-house. The Director of Land Records has written very highly of the continued excellent work of the Honorary Secretary, Babu A. K. Maitra, B.L., to which reference was made in last year's Resolution.

The Lieutenant-Governor has read the Director's remarks on sericulture with great pleasure; for he finds in them a record of practical work which has already achieved considerable success, and which promises a wide and valuable development of a purely indigenous industry.

14. *Sibpur Agricultural Classes.*—These classes were first opened in June 1898, and after a year's theoretical training the pupils were drafted off to various Government and Wards' estates for practical zamindari training. Then they were examined, and on the results of that examination appointments are being made in the Provincial, Executive and Subordinate Civil

Services. It is hoped that such pupils as have been unsuccessful in obtaining Government appointments will find employment on private estates. The Lieutenant-Governor will watch the career of these pupils with interest, to see to what extent they keep up and apply the agricultural knowledge they have acquired; for in establishing these classes he has no intention of merely affording another and easier avenue to the ordinary public service. The proposal to extend the theoretical course from one to two years is approved.

15. *Fairs and Exhibitions.*—Altogether 14 agricultural fairs and shows were held at the places noted in the margin during the year, the two new ones being the Vishnupur Industrial and Agricultural Exhibition in the district of Bankura and the Calcutta Industrial Exhibition, the former of which received a Government grant of Rs. 100 and the latter Rs. 150. The total sum spent in these grants amounted to Rs. 1,900 as against Rs. 1,675 in the preceding year. The Alipur and Falakata fairs are, properly speaking, not agricultural shows, but are kept up for political reasons, having for their object the encouragement of trade between Bhutan and the plains. They were not successful this year, although they received the usual subsidy of Rs. 500 from Government. The remaining fairs are more or less cattle and horse shows, with the exception of those at Madhupur and Cuttack, where flowers, vegetables, and garden fruits have been exhibited. The Kalimpong and Suri fairs were very successful and afford much benefit to the people concerned.

16. *Cost of Agricultural Experiments.*—The cost to Government for agriculture experiments and miscellaneous enquiries conducted under the direct supervision of the Department has been Rs. 6,577 as against Rs. 6,156 in the preceding year.

17. *Merits of Officers.*—The Lieutenant-Governor cordially thanks Mr. P. C. Lyon for the diligent and interested care he has given to the several branches of the Department. The commendations bestowed by him on his Assistant Director, Mr. N. N. Banerjee, and on his Personal Assistant, Mr. Rowland Nagendra Lal Chandra, have been noted. The Lieutenant-Governor was much struck with the careful and accurate work of Mr. Banerjee on the Burdwan farm, and has since selected him for the charge of the Hutwa farm—a well-deserved promotion.

ORDER.—Ordered that the Resolution be published in the *Calcutta Gazette*, and that a copy of it, together with a copy of the Report and of the forwarding letter from the Board of Revenue, be submitted to the Government of India in the Revenue and Agricultural Department.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACKE,

Secretary to the Govt. of Bengal.

FINAL REPORT ON THE JUTE CROP FOR SEASON 1900.

THE following is published for general information.

REVENUE DEPT.,
The 27th September 1900.

F. A. SLACKE,
Secy. to the Govt. of Bengal.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final Report on the Jute Crop for season 1900.

Explanatory.—The first forecast of the jute crop for the season 1900, which was published on the 27th of June last, gave a preliminary review of the condition of the crop up to the middle of that month. The present report contains approximate estimates of the area and outturn of the crop up to the middle of September. Almost the whole of the jute crop of Bengal is grown in the 26 districts from which returns are received by this Department.

2. *Character of the season.*—A sketch of the general character of the rainfall in the earlier months of the year was given in the preliminary forecast. There was some deficiency of rain in March and April, which prejudicially affected sowings in a few places. In May and the first fortnight of June, the rainfall was also light, but good rain later on in the latter month greatly improved the prospects of the crop. In July there was heavy rain in most of the jute-growing districts, in some of them, the fall being excessive, but this was succeeded by a partial drought in August, which, combined with a want of flood-water from the rivers, hampered steeping operations in North and East Bengal, and in a few cases diminished the outturn. Fair rain has fallen during the first half of September, but it has come almost too late to have much effect on the outturn of the crop.

3. *Area cultivated.*—It was shown in the preliminary forecast, that, although the area under jute was rapidly recovering from the low figure to which it fell in 1898, it had not yet reached the normal figure, and was still smaller than the areas cultivated in the years from 1893

to 1897. Further enquiries made since the issue of the first forecast have disclosed some additions to the area then reported, but it would appear that the impetus given to extension by the high prices of 1899 has been checked by the rise in the price of rice. The total area now under jute is 2,043,400 acres, as compared with a normal area of 2,164,400 acres and areas of 1,624,400 acres in 1898 and 1,961,800 acres in 1899.

4. *Character of the crop.*—Up to the date of the issue of the preliminary forecast, the prospects of the crop were very fair, and in spite of the deficient rainfall of April last, a normal outturn was looked for from the area sown. The weather in July tended to improve these prospects, and at one time it looked as if something like a bumper harvest might be expected from that area. The break in the rains in August, however, and the want of flood water in that month, had a prejudicial effect, and the returns from the districts shew that this variable weather has affected the outturn in different ways in different districts, the rainfall having been most unevenly distributed. Thus while ten districts anticipate a slightly better outturn than they looked for in June, twelve districts expect a smaller outturn, and in four districts only is the estimate unchanged. While prospects have improved in the important districts of Mymensingh and Tippera, they have deteriorated in Rangpur, Dacca, and Faridpur. The reduction made in the estimate for Faridpur appears to me, however, to be excessive, and I also have doubts as to the small outturn reported from Jessore and Pabna. The average estimate of the outturn compiled from the returns as now received amounts to about 93 per cent. The imports of jute into Calcutta during the past two months have been fairly heavy, and there does not seem to be any ground for supposing that they will fall off so rapidly in October and November as they did last year. I am accordingly inclined to think that the effect of the recent break in the rains has been slightly over-estimated, and anticipate a 97 per cent. crop in the slightly contracted area sown this year. This area being less than the normal area, my estimate of the gross outturn given below is, of course, lower than my estimate of the probable outturn in the area actually sown.

5. *Gross outturn.*—It is estimated that, in a normal year, the average outturn of jute amounts to three bales per acre. On the normal area as now shewn, this would amount to about 65 lacs of bales, as the outturn of a 16-anna or normal crop. It may be anticipated that the present crop will give an outturn of about 60 lacs of bales, as compared with an estimate of 61 lacs of bales in the first forecast. This

represents about 92 per cent. of a normal outturn or what would ordinarily be termed a fifteen-anna crop.

6. *General.*—The information upon which this forecast is based has been compiled with special care by District Officers in the present year, but the area from which figures have to be obtained is a very large one, and it is difficult to secure accuracy in them. The above estimate is only a rough one, and the returns received from all the districts are appended in order that those who are interested in the jute trade may examine them for themselves.

P. C. LYON,

Director of Land Records and Agriculture, Bengal.

PRELIMINARY FORECAST OF THE BHADOI CROPS OF BENGAL FOR THE YEAR 1900.

THE following is published for general information.

F. A. SLACKE,
Secy. to the Govt. of Bengal.

The 29th October 1900.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Preliminary Forecast of the Bhadoi Crops of Bengal for the year 1900.

Explanatory.—This report includes all kinds of *bhadoi* crops, both food crops, such as *aus* paddy, maize and cereals, and non-food crops, such as jute, indigo and cotton, for which separate notes are issued by this Department.

The character of the season.—The character of the season has not been altogether favourable to the *bhadoi* crops of the Province. The first half of April was comparatively dry, while showers, more or less general, fell during the remainder of the month. The total fall was deficient in the Eastern and Northern districts, and was considerably in excess in South-West Bengal and in the Chota Nagpur Division. In May the rainfall was more general than usual in the Central and Western districts, but as the falls were rarely heavy, the total fall for the month was everywhere below the normal, the defect in East Bengal being as much as 3·85 inches. The fall in June was fairly general and continuous in the east of the Province, but in the Central and Western districts it was much interrupted, although not deficient on the whole. In other parts of the Province, it was somewhat in defect. The fall in July was more evenly distributed and was fairly continuous over the greater part of the Province. In North and East Bengal, it was considerably above the normal, but it was more or less in defect in other parts of the Province, Chota Nagpur being the worst with a deficiency of 5·34 inches. In August again the rainfall was not evenly distributed and was more or less in defect everywhere, except in Orissa and the adjacent districts, which received 8·85 inches above the normal. In the present month, however, rain has been more copious and general all over the Province, and has enabled the later

bhadoi crops to recover somewhat from the previous drought. On the whole, the rainfall has been insufficient and badly distributed, but has not failed so badly as to seriously jeopardise the prospects of any of these crops.

Area sown.—Since the submission of the last year's Final Report on these crops, the District Officers of Darjeeling, Tippera, Darbhanga, Angul, and Singhbhum have revised the estimates of normal cultivated areas (column 3 of the Appendix) of their districts, in consequence of which the provincial total of cultivated area now stands at 57,374,700 acres as against 57,466,500 acres shown in the Final Forecast of 1899. The normal areas under the *bhadoi* crops (column 5 of the Appendix) have also been revised by the District Officers of Midnapore, Rajshahi, Jalpaiguri, Dacca, Tippera, and Ranchi, with the result that the total normal area of the Province under these crops now stands at 16,395,700 acres against 16,495,000 acres reported last year. It is obvious, however, that the areas returned under this head are still too high in many cases and frequently represent a maximum rather than the normal area. The figures of areas under actual cultivation in *bhadoi* crops last year (column 6 of the Appendix) have also been revised by some District Officers, and this has raised the estimated total area under *bhadoi* crops in 1899 from 15,584,000 acres to 15,596,800 acres. According to the district estimates, the total area under the different kinds of *bhadoi* crops this year is 15,786,200 acres as against the revised estimate of 15,596,800 acres of last year. The increase of 189,400 acres is partly accounted for by the fact that a much greater area has been put under Indian-corn this year, last year's season having been especially unfavourable for this crop. The decrease of 96,500 acres in the area under *bhadoi* paddy is due to some paddy lands having been planted with jute this year, owing to the high prices prevailing in the jute market during the past twelve months.

The outturn.—Taking all the *bhadoi* crops together, it will be seen from the Appendix appended to this note, that out of the 45 districts in the Province, only 4 (Saran, Hazaribagh, Manbhum and 24-Parganas) anticipate an outturn above the normal, while 4 others (Dinajpur, Malda, Angul and Ranchi) expect a normal outturn. In eleven districts the outturn is expected to be 90 per cent. or between 90 and 100 per cent., while in 12 others it is expected to be between 80 and 90 per cent. Ten districts have returned an estimated outturn of between 70 and 80 per cent. and the rest forecast an outturn varying between 60 and 70 per cent. of a normal crop.

The District Officers' estimates show an outturn of 88 per cent. of a normal crop as compared with a 67 per cent. as finally estimated last year.

The outturn of these crops has been clearly under-estimated in several districts, and I anticipate that an out-turn of 92 per cent. for all the *bhadoi* crops taken together will in all probability be harvested.

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE ADMINISTRATION OF THE SALT DEPARTMENT FOR THE YEAR 1899-1900.

FINANCIAL DEPARTMENT—SEPARATE REVENUE.

Darjeeling, the 1st October 1900.

RESOLUTION—No. 1511T.—F.

READ—

The Report of the Board of Revenue on the administration of the Salt Department for the year 1899-1900.

During the year the sanction of the Secretary of State was obtained to the scheme as finally revised for the better administration of the Salt Department in Bengal and the formation of an administrative and preventive staff for the suppression of the illicit manufacture of salt in the maritime districts. It was received too late for the administration of the Orissa Salt Department to be made over during the year to the District Officers. That Department has therefore been administered by the Assistant Commissioner of Salt Revenue throughout the year. He also remained in charge of salt operations in the saliferous districts of the 24-Parganas and Midnapore in subordination to the District Officers and subject to the control of the Excise Commissioner. The Indian Salt Act, XII of 1882, continues to be the law in force in Orissa, while outside that province in the districts of the 24-Parganas (except Calcutta), Midnapore, Khulna, Backergunge, and Chittagong that Act and Bengal Act VII of 1864 are concurrently in force. With a view to improving the working of preventive operations under the existing law, sanction was accorded to the employment during the working season of a few special head-constables in important thanas in the saliferous tract for conducting salt searches, and special arrangements were made to enable the Salt Officers to cope with cases of organised resistance to searches in the Sundarbans, the frequency of which had attracted the attention of Government during the previous year. Since the close of the year orders have been received from the Government of India for the transfer of the saltpetre refineries in Calcutta and the suburbs from the control of the Northern India Salt Department to that of the Salt Department in Bengal. The Department, as reorganised, has now finally been put into working order, and its future operations will be watched with interest.

* Revised figures as given in the Accountant-General's final accounts.
† Includes the charges incurred for the salt operations in the 24-Parganas and Midnapore under Act XII of 1882.
NOTE.—The figures for 1899-1900 are subject to revision, as the Accountant-General's final figures for the year are not yet available.

The receipts show a steady rise from year to year with the single exception of 1897-98. The income of the year under review shows an increase of Rs. 6,70,203 over that of the preceding year, the improvement occurring chiefly under import duty. There was a slight falling off in the revenue from excise salt, the merchants who used to resort to the Orissa factories for their supplies having shown a preference for Madras salt, which is of better quality. The increase in the proceeds from the rent of warehouses is attributed to larger stocks of salt in bond during the year. There was a decrease of Rs. 83,109 in charges under the head "Refunds of customs duty on salt" against an increase of Rs. 35,467 in charges of the Orissa Salt Department, which include charges incurred for the salt operations in the 24-Parganas and Midnapore. The increase was chiefly due to the amount paid towards the cost of the steam-launches for use in the Sundarbans.

The salt trade.

The stock of salt in the golahs, which at the commencement of the year stood at over 32¾ lakhs of maunds, fell at the close of the year to a little over 31½ lakhs of maunds. The quantity of salt lying afloat in the port of Calcutta, ready to be sold direct to purchasers, which at the end of the preceding year amounted to 2,23,534 maunds, dropped during the year 1899-1900 to 1,29,284 maunds.

Imports.

4. The combined imports of salt into Calcutta and Chittagong show a net increase of 4,30,028 maunds compared with those of the previous year, the increase occurring wholly in Calcutta. The following statement shows the different countries and ports from which shipments of salt were made during the last three years:—

As in the two previous years there was no importation of salt from Egyptian and other non-European ports beyond the Suez Canal (Group III) during the year under review. With the exception of Hamburg, Aden, and Linga, all foreign countries, as well as Madras and Bombay, sent smaller quantities of salt to Bengal, and there was no importation at all from Madagascar and the States on the east coast of Africa. The importations of Hamburg salt, which last year showed a considerable falling off, have during the year under review increased very largely, and show the highest figure of recent years. The clearances in Calcutta show a marked increase in the demand for Aden and Red Sea salts, the quality of which is said to have improved of late.

Clearances of salt.

5. Excluding 21,048 maunds of Madras and Bombay salt cleared free of duty in Calcutta, duty was paid on 40,81,554 maunds cleared from shipboard against 41,95,875 maunds in the previous year, while the clearances from bond rose from 56,22,188 maunds to 60,37,641 maunds. On the whole the total clearances of all kinds, including those of Bombay and Madras salts and of excise salt, rose from 1,04,24,307 maunds to 1,07,72,858 maunds.

Consumption of salt.

6. Deducting from the above clearances the excess of exports from Bengal by land and river over the imports by the same routes, amounting to 5,94,785 maunds, and adding 16,265 maunds of saltpetre brought into use, the balance of salt left for

consumption rose from 98,33,328 maunds in 1898-99 to 1,01,94,338 maunds in 1899-1900. The rate of consumption per head was 5 seers and 2 chitaks against 4 seers and 15 chitaks in 1898-99. In the saliferous tracts, excluding Orissa, the consumption of licit salt has increased from 4 seers 14 chitaks per head in 1898-99 to 5 seers 5 chitaks in 1899-1900. The highest rate prevailed in Howrah and the 24-Parganas (5 seers 9 chitaks), followed by Chittagong (5 seers 8 chitaks), Backergunge (5 seers 7 chitaks), Khulna (5 seers 4 chitaks), Noakhali (5 seers 3 chitaks), and Midnapore (4 seers 12 chitaks). The universal increase in consumption in these saliferous tracts, with the exception of Noakhali, where a small decrease (476 maunds) occurred as compared with the previous year, is ascribed to the improved condition of the people owing to good harvests, and in the 24-Parganas, where the rate of consumption advanced from 4 seers 10 chitaks in 1898-99 to 5 seers 9 chitaks during the year, to the activity of the special establishment employed to check illicit manufacture of salt. Of the total increase of 38,506 maunds in consumption in the 24-Parganas, 33,830 maunds, or 87·8 per cent., was contributed by the 14 thanas in which preventive operations were carried on by the Salt Department. The large increase of 1 seer 7 chitaks per head of population in Chittagong is particularly noticeable, and indicates that the measures adopted to prevent illicit manufacture have been attended with success. In Orissa the consumption per head rose from 5 seers 7 chitaks to 5 seers 8 chitaks, this rate being the highest on record in the last ten years. The Lieutenant-Governor has read these figures with the greatest interest. They leave no doubt that the attack which was organized last year in the illicit manufacture in the Sunderbuns has already met with signal success. It will be persevered in and will be helped by the fall in the price of licit salt, which has set in as a consequence of the opening of the East Coast Railway.

Prices of salt.

7. The price of salt was generally lower than in the previous year. The average wholesale price (exclusive of duty) of 100 maunds of Liverpool salt purchased from the ship's side in the port of Calcutta fell from Rs. 66-11-4 to Rs. 62-4-11, while the selling price (exclusive of duty), which in 1897-98 had varied from Rs. 97-12 to Rs. 63-1-1, and in 1898-99 from Rs. 73-0-8 to Rs. 61, ranged during the past year between Rs. 67-11-8 and Rs. 56-2. It is evident that the recent and rapid growth in the competition of Indian-made salt with the imported article is, as was anticipated by Government last year, exercising an influence in cheapening the latter, which may prove to be of considerable importance to the consumer. The average wholesale price, inclusive of duty, at the 12 chief marts of Bengal was Rs. 3-9-4 per maund against Rs. 3-10-9 in 1898-99. The corresponding average based on the wholesale prices of all the districts in Bengal also fell from Rs. 3-13-1 to Rs. 3-11 per maund. The wholesale price of excise salt in Orissa continued throughout the year to be one anna a maund for the salt of 1894 and two annas a maund for that of subsequent years.

Inter-provincial trade.

8. The total imports of duty-paid salt from Madras, the Upper Provinces and Assam rose from 6,34,008 maunds to 7,09,599 maunds during the year, the increase being due mainly to larger importations from Madras owing to the facilities of carriage afforded by the East Coast Railway and to the importations of karkatch crushed salt. The exports from Bengal to the North-Western Provinces and Oudh, Rajputana and Central India, and Nepal, Sikkim, Tibet, Bhutan and Madras rose by 1,00,540 maunds against a decrease of 39,915 maunds in the exports to Assam, the Panjab, and the Central Provinces. The net result was an excess of exports over imports of 5,94,785 maunds against an excess of 6,09,671 maunds in 1898-99.

Working of the salt laws and rules.

9. The number of cases in which contraband salt was attached, including cases that occurred in the Orissa districts, rose from 1,096 to 1,272 during the past year, and the quantity of salt confiscated rose from 510 maunds to 688 maunds, showing an increase of 34·9 per cent. in the quantity confiscated. On an average 17 seers of salt were attached and 20⅓ seers confiscated in each case as against 24 seers and 20¾ seers, respectively, in the previous year. The quantity confiscated was largest in the 24-Parganas (472 maunds), followed by

Puri (115 maunds). In Orissa the number of cases in which salt was confiscated rose from 231 to 343, and the quantity of salt confiscated from 73 to 155 maunds. The total number of cases instituted in the Courts throughout Bengal was 851 against 966 in 1898-99. The number of cases instituted in the 24-Parganas fell from 409 in 1898-99 to 342 during the year. The majority of these cases, viz. 305 were sent up by the Salt Preventive officers for trial for illicit manufacture of salt under the Indian Salt Act, XII of 1882, and convictions were obtained in the case of 346 persons out of 362 actually tried. The result is satisfactory. In Midnapore the number of cases instituted rose from 32 to 66, the increase being practically confined to offences for illicit manufacture. Altogether 66 persons were sent up for trial for all offences, of whom 47 were convicted. Compared with the previous year, there was an increase of 50 in the number of cases instituted in Orissa.

Altogether there were 1,299 seizures and 54 unsuccessful searches in the salt-bearing tracts in Bengal during the year against 1,149 and 39, respectively, in the previous year. In the 24-Parganas the proportion of unsuccessful house searches to seizures is satisfactory, being 18 to 630. Rewards were disbursed to the amount of Rs. 6,682.

10. A separate chapter in the report is as usual devoted to Orissa. The most prominent and important feature of this is the great and rapid advance which the improved facilities of transport, afforded by the extension of the East Coast Railway, have enabled Madras salt to make at the expense of the Liverpool article. This comparatively new element is the subject of frequent reference in the report, and appears to have already exercised a not inconsiderable influence on prices in the whole Province. It is, however, in Orissa that its results are most striking and apparent. During the last two years the imports of Madras salt into Orissa have risen by over a lakh of maunds, or 32 per cent., while those of Liverpool salt have fallen by 67,000 maunds, or 26 per cent. This result was anticipated last year by the Excise Commissioner on the ground of the great difference in price in favour of Madras salt, and, as the Board now remark, his anticipations are being realised more quickly than was expected. The Board write :—

Orissa.

"Madras salt has practically ousted Liverpool salt from Cuttack ; and in Balasore it has more than obtained a footing ; for while none was sold there in 1897-98 and only 4,066 maunds in 1898-99, the quantity that found its way there in 1899-1900 was no less than 67,934 maunds. Its further progress towards Midnapore and Calcutta is regarded as being only a question of time, unless in the meanwhile the price of Liverpool salt undergoes a material reduction."

11. Besides improvements in communications, improvements of working methods are a recent and important factor in favour of Madras salt. It is stated that at four important centres of distribution in Orissa, Liverpool salt was unable to compete with the refined salt turned out from Madras factories by the Oriental Salt Trading Company, which is reported to be carrying on a flourishing trade in salt manufactured by improved processes, and to have opened three new depôts during the year. It remains to be seen how far this new development will proceed. Madras refined salt has already reached the Midnapore district, into which a large quantity was imported during the year, causing a fall in the price of Liverpool salt. It is however reported that the flavour of the Madras salt is not to the taste of the people of Midnapore. The experience of Orissa suggests the inference that this distaste may pass off with time. Should this be so, Liverpool salt at its present prices has evidently a formidable competitor to reckon with in places where it has hitherto enjoyed a monopoly, and the results of the competition may be far-reaching. Whatever they may be, the introduction of competition cannot fail to be of advantage to the consumer, especially to the poorer classes, with whom cheapness is the primary *desideratum.*

The consumption of locally-manufactured salt in Orissa fell slightly from that of the previous year. In spite of reductions in price, the quality of this salt, which consists of the stock left in hand at the Tua and Gurubai factories, when they stopped working in 1898, is so inferior to that of its

competitors, that it is unable to find a sale sufficient to clear off the stocks within a reasonable time. It is now reported to have become almost unmarketable.

12. The thanks of the Government are again due to Mr. K. G. Gupta, Commissioner of Excise, Bengal, and the Board of Revenue, for their administration of the Department.

By order of the Lieutenant-Governor of Bengal,

E. N. BAKER,

Secretary to the Govt. of Bengal.

WEATHER AND CROP REPORT.

For the week ending the 1st October 1900.

Palaman.—Rainfall 3·29. Weather clear. *Rabi* fields being prepared. *Kurthi* and gram being sown. Standing crops all doing well. Prices at Sadar are—Rice 9½ seers, *makai* 27 seers, gram and wheat 10 seers per rupee.

Manbhum.—Rainfall at Sadar 4·60, Gobindpur 3·10. Weather seasonable. Prospects of crops good. Cattle-disease reported from thanas Raghunathpur and Topchanchi. Fodder and water sufficient. Average price of common rice at Sadar 11 seers 6 chitaks and at Gobindpur 11 seers per rupee. Supply sufficient.

Singhbhum.—Report not received.

General Summary.—Moderate rainfell during the week except in East Bengal and parts of North Bengal, where only light showers are reported. The unusually heavy rain of the preceding week and consequent high floods have caused damage to the crops in many places in the Burdwan, Presidency, and Orissa Divisions. In some places the crops are reported to be still under water. In Bihar the good *hathia* rain has benefited the rice crop and helped the ploughing of the *rabi* lands. More rain is still wanted for the rice crop in Dinajpur, Rangpur, Bogra, Mymensingh, Tippera, Chittagong, and Monghyr. The harvesting of the autumn crops is almost over. The price of rice is reported to have risen in 12 districts and fallen in 10. Fodder-supply is generally reported sufficient except in the flooded tracts of Midnapore and Balasore. Cases of cattle-disease continue to be reported from some districts.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACKE,

Secretary to the Govt. of Bengal.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

REVENUE DEPARTMENT—(LAND REVENUE)

NOTIFICATION—No. 1959T.R.

The 2nd October 1900.—Whereas it is considered desirable that a survey should be made and record-of-rights prepared in respect of lands in the district of Backergunge.

In exercise of the powers conferred upon him by section 101 (1) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands included within the external boundaries of thanas Banphal, Nalchiti, Barisal and Backergunge, in the district Backergunge, with the exception of lands belonging to the estates Karnakati, Taterkati and Kayena, which have been already surveyed under the provisions of that Act.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

(*a*) The name of each tenant or occupant.

(*b*) The class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

(*c*) The situation, quantity and one or more of the boundaries of the land held by each tenant or occupier.

(*d*) The name of each tenant's landlord.

(*e*) The rent payable at the time the record-of-rights is being prepared.

(*f*) The mode in which that rent has been fixed, whether by contract, by order of a court or otherwise.

(*g*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

(*h*) The special conditions and incidents, if any, of the tenancy.

(*i*) The name of each proprietor, including rent-free owner, with the character and extent of his interest, and the situation, quantity and boundaries of the proprietor's private lands, as defined in Chapter XI of the Act.

(*j*) If the land is claimed to be held rent-free, whether or not rent is actually paid, or, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and if so entitled, under what authority.

NOTIFICATION.

ACCOUNTS AND FINANCE.

PUBLIC DEBT.

Simla, the 1st October 1900.

No. 4942A.—In paragraph 1, clause (*d*), and paragraph 5, clauses (*a*), (*b*) and (*c*) of the Notification in this Department, No. 4191A., dated the 16th August 1900, published on page 507, Part I of the *Gazette of India* of August 18, 1900, substitute "15th January" and "15th July" for "14th January" and "14th July"; "16th July" for "15th July"; "15th July" for "14th July"; and "16th July" for "15th July," respectively. And in paragraph 4 omit the words "or Certificate."

With these alterations, the Notification will read as under:

Notice is hereby given that Promissory Notes and Stock of the 3½ per cent. loan of 1900-1901 may be transferred—

(*a*) to the 3½ per cent. loan of 1854-55, at any time;

(*b*) to the 3½ per cent. loan of 1842-43, in all months of the year except January and July;

(*c*) to the 3½ per cent. loan of 1st May 1865, in the months of May, June, November and December; and

(*d*) to the 3½ per cent. loan of 1879, at any time except from 31st December to 15th January and 30th June to 15th July.

2. Notes or certificates of the 3½ per cent. loan of 1854-55 will be issued bearing interest from the same date from which interest is due on the Notes or Certificates of 1900-1901 tendered for transfer.

3. As regards the new Note or Certificate of the other 3½ per cent. loans—

(i) it will be issued bearing interest from the commencement of the current half-year of the loan to which it appertains; and

(ii) interest up to that date will be paid on the old Note or Certificate.

4. The usual fee for renewal will be charged on each new Note issued.

5. The conditions of transfers to the 3½ per cent. loans of 1842-43, 1st May, 1865 and 1879, above laid down will not be brought into force till the 31st December 1900, and up to that date, transfers to Promissory Notes or Certificates of these loans may be made at any time on the following conditions :—

(*a*) Notes or Certificates of the 3½ per cent. loan of 1879 will be issued bearing interest from 16th July 1900; those of the 3½ per cent. loan of 1842-43 will be issued bearing interest from 1st August 1900 and those of the 3½ per cent. loan of 1st May 1865 from 1st November 1900.

(*b*) If the Notes or Certificates of the 3½ per cent. loan of 1900-1901, tendered for transfer, bear interest from 30th June 1900, interest will be paid by Government from that date up to (i) 15th July 1900, if the new Notes issued are of the loan of 1879; (ii) 31st July 1900, if they are of the loan of 1842-43; and (iii) 31st October 1900, if the new Notes issued are of the loan of 1865.

(*c*) If the Notes or Certificates of the 3½ per cent. loan of 1900-1901 tendered for transfer bear interest from 31st December 1900, interest must be paid to Government for the period (i) from 16th July to 30th December 1900, if the new Notes or Certificates are of the loan of 1879; (ii) from 1st August to 30th December 1900, if the new Notes or Certificates issued are of the loan of 1842-43; and (iii) from 1st November to 30th December 1900, if they are of the loan of 1865.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Moghalsarai Gaya Railway, in the district of Shahabad, will be put up to sale at 11 o'clock on Monday, the 26th November 1900, corresponding with the 20th Agrahan Fasli 1308, at Sasaram, pargana Sasaram.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Notice under Rule 19, Section II.

NOTICE is hereby given that the lease of the land specified in the Schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Nagendra Nath Bose, and will be sold at 12 o'clock noon on the 4th January 1901, Friday, the 20th Paus 1307 B.S., at the Sundarbans Commissioner's office at Alipore, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 12th November 1879 :—

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath, not less than 25 feet in width, on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land ; but for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Notice under Rule 19, Section II.

NOTICE is hereby given that the lease of the land specified in the Schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Nilkant Dass, and will be sold at 12 o'clock noon on the 4th January 1900, Friday, the 20th Pous 1307 B.S., at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 12th November 1879 :—

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath, not less than 25 feet in width, on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Schedule.

Sundarbans Commissioner's Office, Alipur, the 22nd September 1900. P. Ross, Commissioner, Sundarbans.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned bahal and bajiafti lands situate in the district of Balasore as escheated to Government being left by Taramoni Dassi of Balikuti, pargana Satmolang, who died intestate and without heirs, will be put up to sale at the Balasore Collectorate on the 8th November 1900, corresponding to 24th Kartik 1308 B.S.

The purchasers will be subject to the following conditions :—

Conditions of Sale.

1st.—The lands to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of the lands will be considered as the proprietor of the lands, and the entire proprietary right of Government in such lands will be transferred to him free of revenue in respect of bahal and with the settlement rent in respect of bajiafti lands.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the lands to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

Rangoon river—(1) Spit Tongue—(2) Liffey Reach—(3) DeSilva shool.

THE Port Officer, Rangoon, has given notice of the following changes:—

(1) Spit Tongue—Extension of—.

Dated 3rd September.

The three-fathom line of the Spit Tongue has extended about 2¼ cables S by E., and the extreme east point of the Tongue is now 200 yards due east of the Spit Tongue buoy.

(2) Liffey Reach—A fourteen-feet lump discovered.

Dated 4th September.

A fourteen-feet lump has been discovered in the Liffey Reach and fairly in the centre of the channel. It lies W. by N. (true) of the mouth of the Tanwet Choung creek in the following bearings (true):—

Shwe Dagon	N. 40° W.
Syriam pagoda	N. 76° E

and is marked by a second class black Conical buoy laid in 22 feet of water reduced 30 yards to the eastward of the patch.

Vessels should keep to the eastward of the buoy, as the water to the westward is doubtful; another lump of 14 feet having been found there.

(3) DeSilva Shoal—A Can buoy placed.

Dated 5th September.

A first class can buoy painted black has been laid at the elbow of DeSilva shoal in 18 feet of water reduced on the following bearings (true) from the buoy:—

Red beacon	N. 29° 00 E.
North beacon	N. 7° 00 E.

EASTERN ARCHIPELAGO—Borneo, east coast.

Shoal reported southward of Ligitan island.

The British Admiralty has given notice (No. 541 of 1900) that Mr. Kynoch, Master of the S.S. *Mansang*, reports that his vessel, drawing 16 feet, touched on and passed over a shoal situated with the west extreme of Ligitan island bearing N. 16° W., and Sipidan island centre, S. 87° W. As a very slight error in the bearing of Sipidan island (distant 16 miles) would make a considerable difference in the position of the ship, and as it is improbable that a shoal exists outside the bank extending from Ligitan island, but possible that one may be situated on the edge of the 100-fathom line, a shoal of 2¾ fathoms has been placed on the Chart with the west extreme of Ligitan island bearing N. 16° W., distant 2¼ miles, in lat. 4° 7′ 35″ N., long 118° 53′ 40″ E. (*a*) Circe shoal, composed of sand and coral, is one mile long, N.N.W. and S.S.E. and half a mile broad, with a least depth over it of 3 fathoms, from which Pandalusan island bears N. 2° W., distant 11 miles, and south point of Olutanga island S. 83° E.

(*b*) A shoal, the depth on which is not stated, and which has therefore been marked on the Admiralty Chart as a rock with less than 6 feet, exists with Pandalusan island bearing N. 2° E., distant 4¼ miles.

(*c*) A V-shaped reef extends from Pandalusan island in a south-easterly direction for a distance of 1½ miles.

(*d*) The shoal 4¼ miles N. 10° E. from Pandalusan island is awash. To the northward of this shoal, as far as Kabut islands, reefs extend from the coast for a distance of from 1 to 2 miles. (*Notice No. 548 of 1900.*)

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE ROAD AND PUBLIC WORKS CESS OPERATIONS FOR THE YEAR 1899-1900.

FINANCIAL DEPARTMENT.—ROAD & P. W. CESS.

Dated Darjeeling, the 4th October 1900

RESOLUTION—No. 1586T.—F.

READ—

The Report of the Board of Revenue on the Road and Public Works cess operations for the year 1899-1900.

The Road and Public Works cesses were levied at the maximum rate of one anna in the rupee during the year under review in all the districts in which the Cess Act, IX (B.C.) of 1880, is in force. During the year, it was decided to introduce the provisions of the Act into the Sonthal Parganas, excluding the Damin-i-koh, gradually as portions come under resettlement; and the Act will accordingly come into force in each tract from the date when the fresh settlement takes effect.

2. The following table compares the main results of the working of the Cess Act during the past two years:—

		1898-99.		1899-1900.
(1) Current net demand	Rs.	90,38,880	Rs.	90,84,990
(2) Arrear " "	"	18,60,441	"	19,09,787
(3) Total " "	"	1,08,99,321	"	1,09,94,777
(4) Total collections	"	90,06,445	"	93,13,990
(5) Remissions	"	56,005	"	45,257
(6) Net balance	"	19,07,444	"	17,04,598
(7) Percentage of total collections on current demand		99 6		102·5

	1898-99.	1899-1900.
(8) Percentage of current collections on current demand	82·9	84·8
(9) Percentage of arrear collections on arrear demand	80·1	82·7
(10) Number of revenue-paying estates assessed	252,436	256,887
(11) Number of revenue-free estates and rent-free tenures assessed ...	146,481	147,077
(12) Number of tenures assessed ...	1,575,142	1,585,469
(13) Number of recorded shareholders in estates	1,502,091	1,519,088
(14) Number of recorded shareholders in tenures	2,697,840	2,716,811
(15) Current demand of land revenue ...	Rs. 3,90,03,120	Rs. 3,94,65,049

The increase in the current demand has been chiefly obtained by valuations and revaluations in the districts of Mymensingh, Backergunge, and Tippera. It is satisfactory to notice that in spite of the enhanced demand, both current and arrear, the balance outstanding at the close of the year decreased by Rs. 2,02,846 as compared with the previous year. The percentage of total collections on the current demand has not been equalled for the last 20 years.

3. As promised last year, instructions were issued by the Board to ensure that effect was properly given to the suggestion made by Government in 1894 that in calculating the percentage of collections on demand, the amount affected by the 15 days' grace allowed by law should be eliminated from the net demand of the district, so as to afford a juster criterion of the comparative standard of collections in each district. The subjoined statements have for the first time been prepared in accordance with these instructions.

4. The following districts succeeded in attaining the accepted standard of cess administration for the first class, and showed a percentage of current collections above 90 per cent. and arrear collections above 80 per cent. during the year:—

District.	Percentage of current collections on net current demand.			Percentage of arrear collections on net arrear demand.

DISTRICT.	Percentage of current collections on net current demand.			Percentage of arrear collections on net arrear demand.		
	1899-1900.	1898-99.	1897-98.	1899-1900.	1898-99.	1897-98.

Hooghly ...	71·6	72·8	77·8	68·2	57·5	48·8

The low percentage of collections in Jalpaiguri is not real. Of the current demand, a sum of Rs. 8,161 and the whole of the arrear balance (Rs. 23,245) were due from the Bengal Duars Railway, which has since been exempted from the provisions of the Cess Act. If the demands against the Railway were separated, the percentage of current and arrear collections would stand at 98·2 and 100, respectively, and the district would be counted as coming within class I.

With regard to the various explanations given of short collections by District Officers, the Board write—

"They (the explanations) have in many instances degenerated into a matter of mere routine because the present standard is impossible of attainment everywhere. In some districts collections are facilitated by favourable local conditions, while in others they are hampered by the existence of a large number of rent-free holdings, revenue-free estates and petty co sharers. The Board hope that the new scheme, which they will shortly submit to Government for orders, viz., of fixing a standard percentage for every district according to local peculiarities and circumstances, will, if sanctioned, give a fresh impetus to District Officers to improve their collections."

The Lieutenant-Governor agrees with the Board as to the value of the explanations as at present submitted. Explanations of real or apparent deficiencies have undoubtedly come to vary within strictly stereotyped limits, and are by no means always accurate or convincing. To take an instance: regarding a district in which, during the present year, there has been a decided fall in collections, an explanation is furnished by the Collector that this fact is due to (*i*) bad harvests, (*ii*) rise in price of grain, (*iii*) outbreaks of cholera, (*iv*) impossibility of taking measures within the year for the recovery of the instalment payable on the 17th April, and (*v*) delay in the issue of processes from the Certificate Department. Of these explanations, the Board decline to accept the fourth, since the sums affected by grace days have already been eliminated from the demand as returned. It appears to the Lieutenant-Governor that the second and third explanations may also be rejected, since a rise in the price of grain is a reason for greater facility in collecting a tax which falls solely on the land-owning and grain-producing classes, while the latest Sanitary Report shows that the incidence of cholera in the district in question was in 1899 less than one-fifth of the previous decennial average. The first explanation, again, is somewhat discounted by the fact that collections in 1899-1900 were less in the district referred to than in the famine year of 1896-97, and that there has been a continuous decrease in collections for the last three years. No reason is given for the fact stated in the fifth explanation, which in itself indicates a defect in administration. Explanations of this nature are of little value in enabling Government to locate deficiencies and suggest remedies for them, and the proposals made by the Board for preventing a standard under which administration can be more fairly judged than under the present system are now under consideration.

8. The following statement illustrates the working of the certificate procedure in the realisation of the cesses during the last two years:—

	1898-99.	1899-1900.
Certificates pending from the previous year ...	44,572	57,357
Filed during the year	125,216	134,249
Total for disposal	169,788	191,606
Cancelled on objection	1,147	1,082
Struck off	6,724	7,619
Fully discharged	105,350	130,308
Pending at the close of the year	56,567	52,597
Sales effected	3,068	3,357
Sales set aside	142	885

The increase in the number of certificates filed occurred in all the divisions, except Chittagong and Orissa, and is attributed to better supervision and greater punctuality and strictness in enforcing demands. The largest number of certificates was filed in the districts of Saran (12,974), Hooghly (12,226), Gaya (10,225), Shahabad (8,502), Midnapore (8,402), Monghyr (6,330), Muzaffarpur (6,315), 24-Parganas (5,869), Patna (5,682), Mymensingh (5,605), and Darbhanga (5,567). The number of objections filed against certificates was 10,500 against 8,142 in 1898-99. In Gaya, Saran, Hooghly, Midnapore, and Cuttack, the number of cancellations was 204, 158, 120, 93, and 86, out of 926, 1,812, 1,194, 329, and 139 objections disposed of. The large number of cancellations in Gaya was due to double assessment, while the defective state of land registration accounts for the number in Saran. In Hooghly the cancellation was due partly to mistakes and double assessments made during the last revaluation and partly to other causes, such as death of judgment-debtors, failure to trace lands, diluvion, &c. In Midnapore it was due to

double assessment, filing of certificates against wrong persons and tender of payments before the issue of certificates. In Cuttack the cancellation is attributed to the fact that there were mistakes in money-order challans, owing to which payments were credited to wrong estates, that judgment-debtors against whom certificates were filed having previously sold their estates were not liable to the amounts certified, and that payments were made after the arrear list had been sent to the Arrear Collection Department. In 3,357 cases as against 3,068 in 1898-99 sales were effected to realise the cesses. The Board notice the growing difficulties which surround the prompt realisation of cesses in cases of default, and express an opinion that, in view of the persistent and increasing impunctuality in making payments, an amendment of the Cess and Certificate Laws will have to be undertaken in the near future.

9. The complete revaluation of the district of Palamau, which was sanctioned in January, and commenced in March 1898, was brought to a close during the year. The result of the work was an increase in the cess demand of the district from Rs. 37,727 to Rs. 64,112. Partial valuations and revaluations were completed in the districts of Birbhum, Khulna, Rajshahi, Dinajpur, Jalpaiguri, Dacca, Mymensingh, Backergunge, Tippera, Noakhali, Muzaffarpur, Monghyr, Malda, and Manbhum. Valuation and revaluation work was in progress in several districts when the year closed. Sanction has been accorded to the general revaluation of the districts of Nadia, Khulna, Hooghly, Bogra, and Shahabad.

10. Statement VI appended to the report compares the gross rental in each district for 1899-1900 calculated from the returns under the Cess Act with the gross rental ascertained on the same basis when the road cess was first introduced and the gross rental of the preceding year. The results of the province are as follow :—

	Rs.
Gross rental at first assessment	13,11,68,432
Ditto in 1898-99	16,53,64,233
Ditto in 1899-1900	16,59,38,937

The increase up to date amounts to Rs. 3,47,70,505, which was contributed by all the districts, except Murshidabad and Jessore. Compared with the figures for the year 1898-99, the gross rental shows an increase of Rs. 5,74,704, most of which has been obtained by means of the revaluation operations in the districts of Khulna, Dacca, Mymensingh, Backergunge, Noakhali, Palamau, and Manbhum.

11. The names of the Deputy Collectors whose work is favourable noticed by the Board will be communicated to the Appointment Department The Lieutenant-Governor's thanks are due to the Board of Revenue for their careful and efficient administration of the Department.

INDIGO INDUSTRY.

REVENUE DEPARTMENT—AGRICULTURE.

Darjeeling, the 8th October 1900.

RESOLUTION—No. 2005T.—R.

READ—

A letter from the Government of India, No. 459—43-3, dated the 29th March 1900, regarding the desirability of legislation for the protection of the indigo industry in India, and the grant of loans to planters for the promotion of the cultivation and manufacture of sugar in Bihar

Read also—

This Government letter No. 581T.—R., dated the 31st May 1900, reporting on the letter cited above, and letter No. 1516T.—R., dated the 4th September 1900.

In March 1900 the Government of India forwarded, for the opinion of this Government, a letter from Sir W. B. Hudson. in which suggestions were made for permanently improving the present unsatisfactory condition of the industry carried on by indigo planters in Bihar by means of introducing with Government aid the cultivation and manufacture of sugar.

2. The Lieutenant-Governor was unable to recommend the grant of a loan to any particular member of the planting community, but he recognised that the indigo planters as a body had claims on the Government. They have rendered valuable services in the past on many occasions of administrative stress, and their disappearance would be in many ways a great administrative loss. They have embarked a large amount of capital in the industry; and, in the circumstances, the Lieutenant Governor consider that any reasonable assistance which Government can give in enquiries either towards improved methods of indigo cultivation and manufacture, or towards a substitute for it in the shape of more profitable crops, should certainly be given.

3. As regards the first of the above two suggestions, the Lieutenant-Governor doubts whether any advantage would result at this stage from an enquiry by a Committee into the state of the indigo industry. In the present condition of the industry, experiments regarding the best seed to be used, the most promising varieties of the plant, the system of cultivating the soil, and the processes for extracting the dye, must be patiently continued over a term of years, a task which is not fitted for a Committee. The Bihar Indigo Planters' Association is already doing all that is at present possible. That body has engaged, at a large expense, the services of two experts to conduct researches in India for the discovery of improved methods of cultivation and manufacture of indigo. This Government has agreed to give to the Association, beginning with the next financial year, a sum of £500 a year for three years for the appointment of a bacteriologist to investigate questions relating to the plant.

4. As to the second point there are grounds for believing that it may be profitable to the indigo planters of North Bihar to take up the cultivation of sugarcane and the manufacture of sugar, either by growing cane as a rotation crop in alternate years and keeping up the growth and manufacture of indigo, or even by abandoning the latter industry altogether for the manufacture of sugar.

In Part II, Volume VI, of the Dictionary of the Economic Products of India, are given the results of the attempts which have from time to time been made in Bengal to grow and manufacture refined sugar. The end of these attempts has hitherto undoubtedly been failure; but it is contended that circumstances then and now are so entirely different that no safe deductions regarding the present can be drawn from the lessons of the past, and the Lieutenant-Governor believes that there is much to be said for this view. In the first place, evidence is forthcoming that there has now grown up amongst the people of this province a considerable demand for the cheaper kinds of refined sugar. Till recently this was supplied by the importation of bounty-fed sugar,

and it is now being satisfied by larger importations from the Mauritius. Again, in the past the manufacturers did not possess such machinery for the manufacture of sugar as is now available to lessen the cost of refining and at the same time greatly improving the quality of the outturn. Further, in the past, the planter who manufactured sugar was under the most serious disadvantage from the absence of suitable communications. His produce was overweighted with freight and transport charges, and he suffered severely from delays in transit—defects which have now, through the opening of railways, to a great extent, disappeared. On the other hand, there are many circumstances at the present time which favour a revival of the industry. Sugarcane is now largely grown by the raiyats of North Bihar, where it is found that irrigation is seldom required for the crop; and the *gur* at present produced by these raiyats is in considerable demand for the use of refineries in other parts of India, owing to its superiority for refining purposes. The planting community has large areas of land available for the cultivation of the crop, and has already commenced experiments on a small scale with it; while labour, which is so costly in the sugar plantations of the Mauritius, is abundant and cheap throughout North Bihar.

5. From the information at present available, therefore, it appears to the Lieutenant-Governor that there is some prospect of making sugar cultivation and manufacture in Bihar a profitable industry; but a further independent enquiry is necessary, both to secure that the mistakes which handicapped the planters in former times may be avoided and to provide a thorough examination of the conditions under which the industry is made to pay so well in the Mauritius. If the result of such an enquiry were favourable, it would probably give to the new departure that financial support in the open market which it does not at present receive; and in all the circumstances of the case he is willing to give the planters any assistance that a public enquiry might afford them towards establishing the prospects of their present design. He has, therefore, with the sanction of the Government of India, decided to appoint a Committee of Enquiry consisting of a president and two members.

6. For the post of President the Lieutenant-Governor has, with the permission of the Government of India, selected Mr. J. E. O'Conor, the Director-General of Statistics in India. The other members will be Mr. D. M. Hamilton, of Messrs. Mackinnon, Mackenzie and Company, and Mr. E. A. Hancock, an agricultural chemist of considerable experience.

7. The work of the Committee will commence in Calcutta from the 15th October 1900. In November, it is desired that the Committee should, in order to study the question locally, pay a visit to Bihar, the details of which will be left to the Committee to settle. The functions of the Committee will be as follows:—

(1) to investigate the history of sugar growing and manufacture in Bihar, to shew why former ventures failed, and what there is to support the opinion that a revival of the industry would now result in success;

(2) to enquire whether in order to ensure success, dependence should be placed solely on the cane procurable from the ordinary cultivator, or on that grown by planters on their *zirat* lands or on both;

(3) to enquire whether it would be desirable to have central manufactories;

(4) to enquire what localities would be best suited for the erection of a large factory with special reference to (*a*) profitable and extensive cane cultivation in the vicinity, and (*b*) railway facilities for conveying sugar to the market;

(5) to estimate the capital required for opening and working a suitable sugar factory; and lastly

(6) to consider what markets are open for the sale of the manufactured sugar, and their relative importance; and any practical suggestions for developing the use of refined sugar.

8. The Committee would probably obtain much information on the subject by examining Dr. G. Watt, C.I.E., Mr. A. G. Tytler, C.I.E., late Sub-Deputy Opium Agent, Sewan, and Mr. Mylne of Behea, and the Lieutenant-Governor is willing to pay the travelling allowance of all witnesses whom the Committee desire to call, on the scale allowed to members of the Indian Civil Service. The Committee of Enquiry should also ascertain from the Indigo Planters' Association and Messrs. Begg, Dunlop and Company (who represent the Indigo Improvement Syndicate), the names of the witnesses whom they would like the Committee to examine.

9. Lastly, Sir John Woodburn desires the Committee to understand that the instructions given above are not meant to preclude the Committee from considering the subject in such other fashions as they may deem necessary in order to ascertain whether the plan is likely to meet with success.

ORDER—Ordered that a copy of the above Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACKE,

Secretary to the Govt. of Bengal.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE POLICE DEPARTMENT FOR THE YEAR 1899.

No. 2928J.D.

RESOLUTION.

POLICE.

Darjeeling, the 29th September 1900.

READ—

The Report on the Administration of the Police Department for the year 1899.

Read also—

The Report for the year 1898 and the Resolution of Government recorded thereon.

AT the beginning of the year Mr. Henry held the office of Inspector-General of Police for 1 month and 26 days; he was then relieved by Mr. Greer, who administered the Department for the rest of the year. The report, which is submitted by Mr. Masters, was received by Government 17 days late, but the delay was unavoidable.

2. *Constitution of the force.*—During the year the staff of superior officers was weakened by the transfer of three Assistant Superintendents to Assam as part of the reserve for leave vacancies in that province. In the lower grades the process of substituting Sub-Inspectors for head-constables as the investigating agency steadily continued, and 70 new appointments of Sub-Inspectors were created on this account, the same number of head-constables being abolished. There was a further small increase of the force sanctioned to meet the pressing needs of different districts. At the close of the year there were 69 vacancies in the ranks of Sub-Inspectors to be filled by candidates from the Training School, 26 head-constables' places to be absorbed by the appointment of Sub-Inspectors, and 280 vacancies among the constables: this number is larger than ordinary because the demands for police for special purposes, such as plague, were more frequent than usual, and there was a difficulty in supplying their places. This difficulty is a recurring one, and to some extent is due to the desire to admit only the best men available, but it is a serious inconvenience when the sanctioned force is comparatively so small, being only the equivalent of one policeman to every 2,895 persons throughout the province.

3. *Expenditure.*—The following table compares the expenditure under the various heads in 1898-99 and 1899-1900:—

Sub-heads.	HEADS OF CHARGES.	Actual expenditure for 1898-99.	Actual expenditure for 1899-1900.	Increase.	Decrease.
1	2	3	4	5	6
		Rs.	Rs.	Rs.	Rs.
1	Inspecting agency	1,68,420	1,59,946	...	8,474
2	Pay of District and Assistant Superintendents ...	4,96,959	4,56,984	...	39,975
3	Pay of Executive Police and establishments with good-conduct pay and *batta* allowances, &c. ...	34,05,224	34,29,360	24,136	...
4	Travelling allowances	1,33,410	1,30,028	...	3,382
5	Fixed boat establishment	67,701	69,863	2,162	...
6	Special, regular, and contract contingencies ...	6,20,343	5,88,534	...	31,809
7	Government contribution to Municipal and Railway Police	1,81,353	1,72,190	...	9,163
8	Bengal Military Police	67,455	62,210	...	5,245
	Total ...	51,40,865	50,69,115	26,298	98,048
	Net decrease ...	...	...	...	71,750

The expenditure was kept well within the budget allotment, and shows a decrease on last year of Rs. 71,750 ; the chief item of saving is under the head of pay of District and Assistant Superintendents, and is explained to be due to the entertainment of a smaller number of probationers, and to reduced expenditure on acting allowances, because fewer officers than usual were able to go on leave during the year. The saving under the head of Special, Regular, and Contract Contingencies was also considerable.

4. *Recruitment of investigating officers.*—Altogether 94 Sub-Inspectors were appointed during the year. Twenty of these appointments were given to deserving head constables, and seven persons were nominated direct without examination. The remaining 67 Sub-Inspectorships were filled by competitive examination. One hundred and twenty-one students received training at the Bhagalpur School, of whom one qualified as an Inspector and 76 as Sub-Inspectors. It is believed that the Sub-Inspectors appointed under the present system have, as a body, given satisfaction. It is not of course to be expected that the effects of the new system should be visible at once, or for some years to come, in a reduction or increased detection of crime, but one of the benefits expected from the appointment of Sub-Inspectors of a higher social status was an improved *morale* in the lower ranks of the force, and the report shows that this is being steadily if slowly attained.

5. *Town Police.*—A total force of 5,573 police was employed in the protection of 153 towns in the province. The complaint is general that the force is insufficient, and provision is made for its increase as funds allow. The standard of efficiency varied very much in the different towns: in Asansol out of 60 cases sent up, only 3 ended in conviction, while every person sent up by the town police in Patna was convicted. A considerable proportion of the town chaukidars are up-countrymen, and they are said in many places to work better than the local men. About 50 municipalities persist in the shortsighted policy of providing neither sufficient lamps for the streets, nor oil for the police lanterns ; it is impossible for them to expect satisfactory protection under these circumstances.

6. *Rural Police.*—At the end of the year there were 158,668 chaukidars, of whom 130,951 were under Act VI of 1870; while 10,305 remained under Regulation XX of 1817, and 17,412 were remunerated by holding service lands. Steady progress is being made in the substitution of chaukidars under Act VI for the Regulation chaukidars and those remunerated by service lands, and during the year 8,756 chaukidars were appointed under that Act taking the places of 11,333 Regulation and 722 chakran chaukidars. Nearly the whole of these changes were effected in the Burdwan and Orissa Divisions, which are still a good deal behind other Divisions in this matter of conversion. The position of chaukidars throughout the province has of late years been raised in many ways, and especially by the daffadari system, which gives them officers of their own ; but the essential conditions of any substantial improvement in their status are that the pay should be sufficient ; that it should be received regularly ; and that the men should be stimulated by appropriate rewards and judicious punishment. In Chittagong it is reported that the pay of 610 chaukidars was in arrears for periods varying from four to nine months, and in several districts of the Burdwan Division there was considerable irregularity in payment. It is not always possible to raise the pay of the chaukidars, though this is an object that should always be kept in view ; but the Lieutenant-Governor trusts that in future District Magistrates will insist on the pay of the chaukidars being promptly realised and distributed. More than one system for facilitating this end has been devised, and he desires again to call attention to that which was originally framed by Mr. Forbes when Magistrate of the 24-Parganas, and has since been largely employed with success in the Patna Division. It was explained and recommended to Commissioners in Mr. Cotton's letter No. 3800, of the 31st August 1894.

7. The Inspector-General complains that the District Superintendents of Police are in many districts not given sufficient authority over the chaukidars. It need hardly be said that these officers should invariably be consulted on chaukidari matters, and the discipline of the force should be in their hands ; but chaukidars are essentially village police, and it is on the fact that they are

village officers that their usefulness largely depends, consequently the Lieutenant-Governor is not prepared to agree to the control of the force being taken out of the hands of the Magistrate, or to their being assimilated to the regular police in the same way that the town police force is. The recruitment of men of respectable castes to be chaukidars and daffadars does not appear to have made much progress, but the effort to carry it out should not be abandoned. It has been very successful in Patna, Saran, and Dacca, but it must be distinctly understood that the daffadars should be local men: the Lieutenant-Governor cannot too strongly condemn the practice, said to exist in some districts, of appointing as daffadars the hangers-on of the courts, and the needy relatives of police officials.

8. *Rewards and fines.*—The subject of the Chaukidari Reward Fund is one which has from the first occupied the attention of the Lieutenant-Governor; for he is convinced that, with the proper administration of this Fund, is closely bound up the well-being and efficiency of the village watch throughout the province. Sir John Woodburn has repeatedly urged the importance of the most careful moderation in punishing chaukidars, and of prompt liberality in rewarding them, and he is gravely disappointed at the results of the administration of the Fund in 1899 as disclosed in the Inspector-General's report. It appears that during the year Rs. 41,709 were expended in rewards from the Chaukidari Reward Fund in the province; but, in spite of this, the Fund which opened with a balance of Rs. 68,933, closed with a sum of Rs. 74,566 at its credit. It is reported that some rewards which had been granted had not been paid before the end of the year; but the balance of this Fund has been steadily rising, and the position cannot be said to be satisfactory. Out of the whole force of 158,668 chaukidars in the province, 33,926 were fined departmentally, a percentage of 23·8, while the percentage rewarded was only 7·2.

9. These figures show a general failure to grasp the principles which Government has repeatedly laid down on the subject, but an examination of the district figures shows, in many cases, a state of affairs which, subject to any explanations that the officers concerned may have to offer, can only be described as very unsatisfactory. In twenty-one districts out of thirty-eight in which the Fund has been established, the payments were less than the receipts: in Bogra only Rs. 66 were expended as against Rs. 772 realised in fines, and in Pabna Rs. 515 were paid away as against Rs. 3,393 received: in no other districts is the difference so great as in these, but the figures for Midnapore, Howrah, Khulna, Dinajpur, Faridpur, Gaya, and Muzaffarpur are unsatisfactory. On the other hand, rewards were liberally given in Nadia, Jessore, Dacca, Mymensingh, Backergunge, Noakhali, Shahabad, and Bhagalpur. Moreover, nothing is more remarkable than the extraordinary variations in the working of the rules in different districts: in Bankura they appear to have been almost forgotten, for Rs. 163 only were recovered as fines, while only Rs. 49 were expended; Murshidabad and Champaran are not much better. On the other hand, the volume of transactions, including both receipts and expenditure, represented Rs. 9,868 in Mymensingh, Rs. 5,585 in Backergunge, Rs. 5,403 in Muzaffarpur, over Rs. 4,000 in Gaya, Faridpur, the Sonthal Parganas, Jessore, and Dacca, and above Rs. 3,000 in Pabna, Rajshahi, Rangpur, and Shahabad.

10. Much attention has been paid to this subject in the Dacca Division, and useful measures have been introduced, for which the thanks of Government are due to the Commissioner, Mr. Savage, the result of whose policy is apparent in the crime returns of the Division. It is obvious that improved efficiency of the village watch will show itself most clearly in a reduction of the commoner crimes of burglary and theft: during the last three years these crimes have decreased by 23 per cent. throughout the province, and the falling off in the Dacca Division alone is exactly the same; but whereas the provincial statistics for 1897 include those of the districts where the stress of famine drove the crime returns under these heads temporarily to a high figure, the Dacca Division has had no famine, and the decrease there does not represent a resilience from abnormal statistics, but a steady reduction of normal figures, which, in the opinion of the Lieutenant-Governor, must be largely attributed to the improvement in the chaukidars of the Division.

11. Sir John Woodburn desires to commend to district officers generally the system of giving medals for good service to specially deserving

chaukidars, which is in vogue in the Dacca Division, and that of granting good conduct stripes for long continued good service, each stripe securing, as in other departments of the public service, an increase of pay, which, in this case, may be given from the Chaukidari Reward Fund in the shape of a yearly bonus: he also approves of gratuities on retirement to chaukidars of long and meritorious service: furthermore, rewards should be given with some ceremony, and they should not be withheld till some conspicuous service is rendered, but should be awarded also for general good conduct. In the prevention and detection of the rural crime which makes up the great bulk of the crime of the Province, the village chaukidars are the existing and the best possible agency at the disposal of the District Superintendent. They are his eyes and ears. If they are content, a great deal of that crime will be certainly detected; if they are discontent and surly, a great deal of that crime will most certainly not be detected. Bad conduct and negligence must be punished, but the same hand that punishes must also reward. The chaukidar who is fined can understand when his fine rewards his more active neighbour; but he does not understand when the fine from his small salary goes to increase the balances in the police chest. The result is inevitable. The village watch grows resentful, and the machinery which, in good hands, is responsive, becomes inert and dull. The Lieutenant-Governor has on previous occasions given advice and guidance. The advice must now be an instruction, and he looks to the Inspector-General to see that the instruction is obeyed.

12. *Railway Police* — The total force employed as Railway Police at the end of the year was 776, showing an increase on 1898 of 101 men. This increase was divided amongst five railways.

13. *Special constables and additional and private police.* — The number of cases in which additional police were entertained was eight against ten in 1898, and the total number of police appointed was 155. This includes the force mentioned last year as posted at Ghatal, which was removed at the beginning of 1899. Under Act V of 1861 in fourteen cases, 1,026 men were appointed special constables against 612 men in ten cases in the preceding year. Of these, 887 were appointed to keep the peace during the *Bakr-Id* and *Muharram* festivals at three places in the district of Darbhanga; there were also three instances of their employment in Patna and in Mymensingh, while five other districts had one case each. Thirty-two Sub-Inspectors, 36 head-constables, and 585 constables were supplied to private individuals at their request. These were sanctioned with a view to preserve order at fairs and religious ceremonies, to escort treasure, and to keep the peace during the pendency of land disputes; but in Backergunge 28 Sub-Inspectors, 4 head-constables, and 193 constables were employed in 95 cases to enforce the execution of Civil Court decrees. This is not work on which the police ought ordinarily to be employed, and it is impossible to believe that the conditions of this district differ so much from those prevailing in other parts of the province as to make this unusual procedure really necessary. It is hoped that the measures that the Inspector-General proposes to take, will in future restrict applications for police aid on this account.

14. *Temporary Police.*—The spread of plague in the province necessitated the employment of a large force of temporary police during the year. In addition to the police entertained in the preceding year for the plague camps at Chausa, Mairwa, and Chakradharpur, and the addition thus made to some of the district reserves, 475 head-constables and 191 constables were employed at plague observation camps, and on steamers and railways, to prevent the importation of the disease from infected districts. At the end of the year this force had been reduced to 59 head-constables, 82 constables and 3 chaukidars. Five Inspectors and six Sub-Inspectors were specially deputed to Mymensingh in connection with crime in that district.

15. *Military Police.*—The sanctioned strength of the Military Police remained the same—four companies, each one hundred strong. It has not yet been settled where D Company is to be permanently stationed, and they remain for the present at Bandel.

16. *Casualties.*—The total number of casualties was 2,264, or 9·1 per cent., against 8·2 per cent. in 1898, the increase being chiefly under the heads of resignation and death. The average daily percentage of sick in hospital to

actual strength remained almost the same. Chittagong and Orissa were the healthiest Divisions, and the average was highest in the Military Police and in the Chota Nagpur Division.

17. *Torture and extortion by the Police.*—There were nine charges of torture against the police during the year, being four less than in 1898. Two daffadars were convicted under section 448, Indian Penal Code, and a constable was convicted under section 161, but was acquitted on appeal. In five cases the charges were declared false, and three prosecutions under section 211 were instituted against the complainants: in the other two cases there was no evidence. There were 63 charges of extortion against 85 last year: nine cases ended in conviction, 20 were declared false, and 2 mistakes of fact, and 24 ended in acquittal or discharge. The Lieutenant-Governor hopes that the steady decrease both in the number of charges brought and in the number found to be true, may be construed to imply a satisfactory improvement in the conduct of the police. Though there is undoubtedly a percentage of bad characters in the force, it is as a whole particularly liable to be harassed by malicious accusations, and where the charges are found by the Court to be false, prosecutions under section 211 of the Indian Penal Code should be freely sanctioned.

18. *Punishments.*—An improvement in the *morale* of the force may also be justly inferred from the decrease in the number of judicial punishments from 418 to 323, and of departmental punishments from 3,856 to 3,019. Jessore, with a total average strength of 475 men, shows a total of 189 departmental punishments, a most unsatisfactory state of things, which requires some explanation: the returns of this district were unfavourably commented on last year. For the whole province the percentage of punishments is lower than it has ever been before, and the Lieutenant-Governor trusts that this result is partly due to the observations recorded in the Resolution on the Police Report for 1898.

19. *Conduct of the Police.*—There was an increase of 1,042 in the number of men now wearing good-conduct stripes. Schools have been opened for the rank-and-file at almost all the head-quarters stations, and 86·9 per cent. of the officers and 27·8 per cent. of the men can now read and write. As regards the conduct of the police generally, they are on the whole well reported on. They have been punished less and rewarded more than in the previous year, and there have been fewer charges of misconduct brought against them. The reports from different districts vary, as is to be expected: some Magistrates set up a higher standard than others; again the personal influence of the superior officers is a considerable factor in the conduct of the police, and where there have been frequent transfers of them, the effect on the subordinate police has been bad.

20. *Inspections and investigations.*—Mr. Henry spent 26 days on inspection and Mr. Greer was on tour for 80 days. All the districts were inspected either by the Inspector-General or one of the Deputy Inspectors-General, except Pabna, Noakhali, and Balasore, and these have been inspected since the close of the year. Faridpur, Singhbhum, Bogra, and Purnea show a bad record of inspections by local officers, and the Inspector-General will be asked to obtain an explanation from the officers concerned. Statistics as to the cognate duty of investigations are given in an appendix to the Report. Patna shows the largest number of heinous cases personally investigated by the District Superintendent, viz., 30, which is very creditable to Mr. Ryland. Puri and Singhbhum return only two cases each, and Ranchi three, while there are several other districts in which very few cases have been investigated by the District Superintendent of Police. The Inspector-General will be requested to draw the attention of the officers concerned to the necessity of personally supervising and instructing their investigating officers, for the Lieutenant-Governor attaches the greatest importance to this matter. It is true that in many cases a European officer from his less complete knowledge of the language is not so likely to ascertain the truth of a case as his native subordinate, but the fact of his presence affords many obvious advantages, and the knowledge that he is likely to arrive at any moment often acts as a most powerful incentive and deterrent.

21. *Suicides and accidental deaths.*—The number of cases of suicide increased by 29 (from 3,862 to 3,891), but the most striking feature in the figures is the very large increase in the number of children who committed suicide. The return of 69 in 1898 seems to have been an abnormally low one, if correct, and the figure for 1899, viz., 268, is only a return to the average number. As in 1898 Cuttack stands first, and the numbers were also considerable in Nadia, Saran, Jessore, Dacca, and 24-Parganas. Seven cases reported as suicide proved to be murders, and two others to be homicides. Accidental deaths totalled 36,791 as against 33,670 in 1898. The increase was chiefly under the heads of deaths caused by drowning and snake-bite. Eighteen of these cases proved on enquiry to be murders and one to be a case of homicide.

22. *Crime.*—The following table shows the incidence of cognizable crime according to Divisions, excluding nuisance cases and cases not investigated:—

Division.	Police.	Population.	Cognizable crimes (*minus* public and local nuisances, serial No. 57) actually investigated.		Proportion of police to population. Although the proportion of reported cases to population is lower in Bengal than in the other provinces of India, except the Central Provinces, being only one case to every 531 persons, yet the number of reported cases in proportion to the police is much higher than elsewhere except in Assam, being 5·4 cases to each policeman, and a larger percentage of the reported cases is investigated than in any other province except Bombay. The comparative figures are as follows:—

Province.	Year.	Percentage of crime investigated to crime reported.	Proportion— Of crime reported to population.	Proportion— Of reported cases to each police-man.
1	2	3	4	5
			Case to persons.	
North-Western Provinces ...	1898 ...	45	1 to 287	4·5

Assam	Do. ...	60	1 ,, 365	6·4

The pressure on the police as an investigating force is therefore very high, while the low proportion of police to population, viz., 1 to every 2,895 persons, makes the work of preserving order and repressing crime very onerous. The Inspector-General thinks that the remedy lies in the direction of a special detective force, and since the close of the year a small increase has been sanctioned to his reserve of Inspectors for special work, but this will only enable him to give help to selected districts.

23. *Police tests.*—The following statement shows the result of police work during the last three years according to the prescribed tests:—

		Percentages—		
		Of cases investigated to cases reported.	Of cases ending in conviction to cases decided.	Of persons convicted to persons sent up for trial.
Classes I to V taken together ...	1897 ...	70	76	61
	1898 ...	73	68	56
	1899 ...	75	69	55
Classes I to VI taken together ...	1897 ...	76	86	75
	1898 ...	78	83	72
	1899 ...	79	84	72

The percentage of cases convicted to cases decided, though higher than last year, is still disappointing as compared with the results in other provinces. It has just been stated that in Bengal a much higher percentage of cases is investigated, and besides this there are various other explanations suggested in the report, not all of which can be laid to the charge of the police, each of which may have contributed to the result.

24. *Reported crime of the province.*—The table below shows the totals of reported crime, cognizable and non-cognizable, during each of the last ten years:—

	Cognizable crime.	Non-cognizable crime.	Total reported crime of the province.
1890	117,443	116,554	233,997
1891	128,472	119,072	247,544
1892	146,185	121,624	267,809
1893	137,898	121,490	259,388
1894	140,902	118,070	258,972
1895	136,777	125,685	262,462
1896	147,433	129,439	276,872
1897	185,061	125,770	310,831
1898	171,993	129,935	301,928
1899	167,642	122,786	290,428

The figures for reported cognizable crime rose at a bound in 1897 on account of the famine, but they decreased considerably in 1898 and are again less for 1899. The decrease as compared with 1898 is under the heads of offences against property and miscellaneous cases. The total for non-cognizable crime is considerably lower than that for 1898 or 1896. The fall in some districts is attributed to the completion of settlement proceedings which have removed land disputes—a very fruitful source of non-cognizable complaints.

25. The figures for cognizable and non-cognizable crime in each Division of the province are shown in the following statement:—

Division.	Population.	Cognizable.	Non-cognizable.	Total.
Burdwan	7,688,818	25,782	20,330	46,112

Grand Total ...	70,558,141	167,642	122,786	290,428

It is interesting to note the incidence of crime on population in these Divisions. The incidence of cognizable and non-cognizable crime is given separately below:—

	Cognizable.	Non-cognizable.
Burdwan ...	1 case to every 298 persons.	1 case to every 378 persons.
Presidency ...	1 ditto 374 ditto	1 ditto 400 ditto.
Rajshahi ...	1 ditto 502 ditto	1 ditto 943 ditto.
Dacca ...	1 ditto 429 ditto	1 ditto 458 ditto.

Patna ...	1 ditto 512 ditto	1 ditto 1,0[illegible]0 ditto.
Bhagalpur ...	1 ditto 446 ditto	1 ditto 663 ditto.
Orissa ...	1 ditto 327 ditto	1 ditto 575 ditto.
Chota Nagpur	1 ditto 421 ditto	1 ditto 1,233 ditto.

Taking cognizable crime as the criterion of the law-breaking or law-abiding nature of a district, the Burdwan, Orissa, and Presidency Divisions are by far the most lawless Divisions: Patna is the most law-abiding; and Rajshahi comes next. The incidence of cognizable crime in the Burdwan, Presidency, and Orissa Divisions is given on the margin for the three preceding years. Burdwan and the Presidency maintain their supremacy in crime all through, while Orissa has only attained this unenviable pre-eminence since 1897. In non-cognizable crime, also, Burdwan and the Presidency Divisions are again prominent, though the incidence in Chittagong is higher. These results are not creditable to the inhabitants or to the police force of these two Divisions, and it must be remembered that the Presidency figures do not include Calcutta.

	1896.	1897.	1898.
Burdwan ...	1—335	1—278	1—296

26. *False cases.*—The following statement shows the number and percentage of cases declared maliciously false in each of the last five years, with the results of prosecutions:—

	1895.	1896.	1897.	1898.	1899.
Number of cases declared to be maliciously false	6,735	6,891	6,141	5,864	5,518
Percentage of cases declared to be false	4·9	4·6	3·3	3·4	3·2
Number of cases in which prosecution was instituted	584	627	600	626	667
Percentage of prosecutions resulting in conviction	33·3	35·2	37·8	38·4	37·3
Number of cases in which order was passed for payment of compensation to the accused under section 250, Criminal Procedure Code	626	617	511	489	599

There has been an increase in the number of prosecutions and a decrease in the number of cases declared maliciously false, which is satisfactory. There has been a slight increase in the number of cases excluded from the returns as false owing to mistake of law or fact; but these figures, and in a lesser degree the number of cases declared maliciously false, depend very largely on the personal views of the different Magistrates, so that no particular inferences can be drawn from them. Darbhanga, Bhagalpur, and Saran show the largest number of convictions for bringing false cases. Tippera, with 248 cases declared to have been maliciously false, shows only two prosecutions and no convictions: if all these cases were really false, there must have been many more instances in which a conviction could have been obtained. The provisions of section 250, Criminal Procedure Code, were employed in 599 cases against 489 last year. This increase is satisfactory, as this section is especially applicable to cases which should never have been brought before the Courts, but in which there is a sufficient substratum of truth to render a prosecution under section 211, Criminal Procedure Code, inadvisable. The Lieutenant-Governor hopes that this section will be even more freely used in future as a deterrent.

27. *Abstention from enquiry by the Police.*—The following statement shows the extent to which use has been made by the police in each of the last four

years of the provisions of section 157, Criminal Procedure Code, in respect of cases of theft and house-breaking :—

Compared with other provinces, very little advantage has been taken of the power to abstain from enquiry; for it has for some years been the accepted principle in Bengal that, however hopeless the case may appear, no chance is to be lost of enquiring into it if it seems to have been the work of a professional criminal. The percentage of burglary cases not enquired into has steadily fallen from 19·5 in 1896 to 8·7 in 1899; the percentage in the case of theft is 10·4, but there are many cases of theft which can at once be excluded from the category of professional crime. The Lieutenant-Governor is disposed to think that this principle has of late been carried too far, with the result that a large number of petty cases are now investigated which are obviously hopeless from the first, and which therefore occupy to no purpose the time of an overworked police, while, on the other hand, it is to be feared that the knowledge that however petty the crime a police investigation will follow, if it is reported, must necessarily lead to the suppression of many cases of a trifling character. His Honour is aware that there is another side to this question, but after fully considering the subject, he is of opinion that the general rules laid down in the Police Code, Volume I, Chapter XVI, page 374, should be followed more largely than they now are, and the Inspector-General is requested to take the requisite steps to have this policy enforced.

28: *Results of trials.*—The number of persons convicted and acquitted in police cases and the percentage of convictions to acquittals in each of the last four years are shown below:—

Year.	Convicted—		Total.	Acquitted—		Total.	Total tried.	Percentage of convictions.	Percentage of acquittals.

Excluding Class VI (Nuisances, &c.), the percentage of convictions is 57·5, a slight increase on the figures of last year. Darjeeling, Singhbhum, and Cuttack show the highest percentages, and Shahabad the lowest. There is a falling off in the percentages of both persons and cases convicted by the Courts of Session. Noakhali and Palamau return 100 per cent. of convictions, but there were only eight and one cases, respectively, in each; Cuttack (88·8) and Midnapore (86·6) show the best results; and Chittagong (53·3) and Birbhum

(52·9) the worst. No mention is made of the extent to which District Superintendents and Assistant Superintendents supervised the Sessions cases, but from the results it may be inferred that there was no improvement in carefulness in preparing cases for the Sessions. At the same time a low percentage of successful cases at the Sessions is not always wholly due to the inefficiency of the police; the personal equation of the Judge, and the vagaries of the jury are elements which have also to be taken into consideration. Of the persons arrested by the police, 53·3 per cent. were convicted. The acquittals before the Courts of Session were chiefly in cases of serious offences against the person.

29. The following table analyses, class by class, the true crime during the last seven years :—

	1893.	1894.	1895.	1896.	1897.	1898.	1899.
Class I ...	2,843	2,892	2,772	2,907	3,918	3,144	2,844

" V ...	43,098	45,393	41,423	45,951	68,452	41,559	39,540
" VI ...	47,748	44,684	44,743	45,231	45,535	46,760	44,567

It is satisfactory to observe that every class, except II, that of serious offences against the person, shows a decrease during the year.

30. *Class I (Offences against the State and public tranquillity).*—There were 179 offences relating to coinage reported during the year and 3 relating to currency notes. Of the 102 cases specially reported, 65 were found to be true, and 57 cases were sent up for trial, of which 44, involving 52 persons, ended in conviction. There were only seven true cases of manufacturing counterfeit coin, and in none of them were the operations on a large scale: there is no reason to suppose that machinery is anywhere used for making counterfeit-coin. It is reported that there was a large influx of Muhammadan coiners from the Bombay Presidency, called Chhaparbands, and that they were responsible for nearly 40 per cent. of the true cases of uttering counterfeit coins. There is considerable difficulty in tracing the previous history of these men, but by a recent order of the Government of India finger-print records will in future be kept of all offenders under these sections: this should render it much easier to deal with these wandering gangs.

31. The number of rioting cases shown as true was 2,194, a considerable decrease on the figures for 1898, which were 2,499. Up to 1896 all reported cases (not including those found to be mistakes of law or fact, which were not entered in the returns at all) were counted as true, except those found by the trying Court to be maliciously false. In 1897 new forms were promulgated by the Government of India on a different basis, and there appears to have been some want of system in the calculations of the true cases for that year; the cases declared to be mistakes of fact or of law seem to have been counted as true cases. During the last two years all cases pending at the beginning of the year have been included, and those pending at the end excluded; moreover all cases have been counted as true, except those dismissed by a Magistrate before trial, and those declared by him to be mistakes of fact or law, non-cognizable, or maliciously false. It is impossible to calculate the returns of the years before 1896 on the basis now adopted, but the figures for the last ten years are given on the margin: those for 1897 have been re-calculated according to the system adopted in the two subsequent years; those for previous years being given as they stand in the Reports. Apart from the possible variation between 1896 and 1897, due to an alteration of system of calculation, there has been no striking rise or fall in the figures during the last ten years except in 1898. The figures for 1899 show a decrease in every Division, but, even so, the number of riots in the whole province is

The number of true cases of rioting in each Division and their incidence on the population is given in the margin. The actual number and the incidence are highest in the Dacca Division, but in the incidence on population the Presidency and Burdwan Divisions follow very close upon it. There was a mill riot in Howrah and another in Burdwan, in which the Assistant Manager of a paper mill was killed: in the Presidency Division eleven riots ended in loss of life. These are very disgraceful figures for what may be termed the Metropolitan Divisions of Bengal, and are discreditable alike to the police and to the zamindars of the districts concerned.

32. It is notoriously difficult to obtain a conviction in rioting cases, as the numbers are large, the cases are protracted, there is rarely any independent evidence, and it is often complained that the plea of self-defence is too readily admitted by the Courts even when it has been shown that there was time to seek the protection of the police. The mainspring of nearly every riot is a land dispute, but it is almost impossible to bring home complicity to the owners for whose benefit the riot is committed, and who are morally responsible for the loss of life that ensues. They may be prosecuted under sections 154 to 157 of the Indian Penal Code, but they frequently escape punishment, and they may be bound down under section 107, Criminal Procedure Code, but in that case it is easy for them to employ others to commit the breach of the peace. The provisions of section 110 (*e*), Criminal Procedure Code, should be rigorously enforced against those who are suspected of being professional *lathia's*, and, where necessary, prompt application should be made for additional police; moreover, where the cause of the riot is a land dispute of a serious nature, the most efficacious method of dealing with it is to have a settlement and record of rights carried out under the provisions of section 101 (*b*) of the Bengal Tenancy Act, and there should be no hesitation in applying for action in this direction whereever it is needed. Only nine cases of rioting were enquired into by District Superintendents or Assistant Superintendents; but serious riots are matters of little less gravity than dacoities; and moreover, from the numbers involved, the difficulties of the case and frequently the wealth of the principals, these are cases which an unscrupulous police officer can often bring to nought, so that the early presence of his superior officer is particularly desirable: the Lieutenant-Governor desires that the Inspector-General will impress this strongly on police officers, and trusts that a comment of the kind will not again be necessary.

33. The number of rioting cases in which loss of life has occurred during the last five years is given on the margin. The decrease is satisfactory, but there does not appear to be a corresponding decrease in the number of cases where the rioters are an organised body armed with deadly weapons, such as guns, swords, spears, &c.

1895	... ...	66
1896	... ...	66
1897	... ...	58
1898	... ...	49

Such outrages as these should be treated with the utmost severity, and in the opinion of the Lieutenant-Governor, Magistrates trying cases of this kind would exercise a wise discretion if they made it a rule to sentence offenders, on conviction, to imprisonment without option of fine. The prevalence of rioting has long been a blot on the administration of criminal justice in Bengal.

34. *Class II* (*Serious offences against the person*).—There has been a rise of 155 under this class. Murders by poison show a decrease of seven, and all other murders remained stationary. One hundred and seventy-six cases were tried by the Sessions Courts, and 116 ended in conviction, but in 2 of these the decisions were upset on appeal. Forty-two persons were sentenced to death. Backergunge returns 36 murders against 45 last year; this is a satisfactory result, and the fact that only one of these was by gunshot affords additional proof of the wisdom of disarming the district. On the other hand, out of eight murders in Khulna, three were by gunshot. The Presidency, Burdwan, and Patna Divisions show very poor results in dealing with these murder cases. There were 21 cases of drugging, of which 16 were said to be the work of

professionals; 9 of these 16 cases were dealt with as true, and 2 of them sent up for trial. There was an increase of one in the number of rape cases, and Mymensingh again shows the largest figures; but it is hoped that the five special Inspectors who have been deputed to this district will succeed in suppressing the outrages on women for which the district has attained a shameful notoriety.

35. *Class III (Serious offences against property).*—The figures for dacoity are satisfactory, showing a decrease of 107 cases. One hundred and twenty-nine cases were sent up for trial, and in 79 cases, 400 persons were convicted. But it is noticeable that, although all the cases, except two, were classed as professional, out of 874 persons sent up, only 38 were B and C class bad characters: eight villagers and four dacoits lost their lives in these dacoities. The decrease is generally attributed to successful prosecutions of gangs of dacoits, which have of late years been taken up vigorously in several districts, and to a more frequent resort, in the affected districts, to the preventive sections of the Criminal Procedure Code. Burdwan still heads the list, though with a smaller number than last year, and it would seem that the police are not sufficiently energetic in looking after the bad characters of the district. The repressive measures in Purnea, mentioned in the Resolution of 1898, have been most successful in checking this form of crime in that district, which it may be observed has been unfortunate in having had four different Superintendents of Police during the year. The percentage of convictions shows that the police throughout the province did not display great ability in detecting these offences, but it is only fair to them to say that they receive little assistance from the villagers who, far from opposing the dacoits, usually make no attempt to see or recognise them, or to assist the victims in any way. Robberies decreased slightly, and cases of house-breaking increased; the results of the trials were much the same as last year. The true cases for the year were 29,216 and 30,537, respectively.

36. *Class IV (Minor offences against the person).*—The offences under this class practically consist of wrongful restraint and confinement. There was a slight decrease of 155.

37. *Class V (Minor offences against property).*—This class shows a decrease of 2,019, chiefly under the head of ordinary thefts. As usual, in a large majority of the cases the amount of property stolen was under five rupees.

38. *Class VI (All other cases).*—The largest number of cases in this class falls under the head of public and local nuisances. The total number of cases in the class was 44,567 against 46,760 last year. There was an increase in the number of salt cases from 995 to 1,151, chiefly owing to greater activity in the 24-Parganas. Excise cases slightly decreased, and there were no important Arms Act prosecutions. The largest decrease in this class, however, is under the head of vagrancy and bad character, a disappointing result since the crime returns from the various districts show that the police cannot afford to neglect the preventive sections of the Criminal Procedure Code. During the year 3,736 cases were instituted by the police, in 2,488 of which security was required by the Court; but a noticeable feature of the returns is that in Nadia 47 cases and in Champaran 77 cases were instituted by complaint, and were not referred to the police at all: in 25 and 46 of these cases, respectively, security was eventually ordered. Villagers are as a rule extremely loth to take upon themselves the danger and trouble of instituting these cases, and the facts that they appealed to the Magistrate in these instances and that in so many of them their action was justified by the eventual orders of the Court, prove that they must have been very much harassed by these bad characters, and that the police were very lax in their supervision. Both these districts show a small number of cases instituted by the police, and the particular attention of the Inspector-General is invited to the matter. Similarly Burdwan, Howrah, and Khulna show simultaneously very bad crime returns, and very few bad-livelihood cases. In 77 per cent. of all the cases in the province the accused was ordered to furnish security against 76 per cent. last year. Of the total number of cases tried, 2,089 were tried in the village of the accused, a figure equivalent to 62 per cent. of the whole. Excluding those who were in jail or who had disappeared, 36,417 persons were under the surveillance of the police at the close of the year.

39. *Railway Police.*—The total number of cognizable and non-cognizable cases reported to the Railway Police during the year was 4,373 against 3,576 last year: 1,613 cases were prosecuted to conviction. There were 605 accidents on the railway resulting in the deaths of 264 persons—a decrease on last year's figures. No explanation or details are given of the increase of cases of placing obstructions on the line from 38 to 55, but no accident or serious damage was caused by them. Thirty-six persons were sent up charged with this offence, of whom 20 were convicted.

40. *Non-cognizable crime.*—The total of non-cognizable crime for 1899 is compared in the following statement with that for 1898:—

	Cases. 1898.	Cases. 1899.	Increase.	Decrease.
Class—				
I	9,524	9,473	...	51
II	16	18	2	...
III	664	778	114	...
IV	59,692	55,475	...	4,217
V	11,339	10,072	...	1,267
VI	15,404	15,961	557	...
Special laws ...	33,296	31,009	...	2,287
Total ...	129,935	122,786	673	7,822
Net decrease ...	...	...	7,149	

The largest decrease was under Class IV "Petty assaults." In Class VI ("Other offences") there was an increase under the head "Disputes as to immoveable property," and a decrease under that of "Security for keeping the peace." The decrease under special laws is almost wholly in cases under the Bengal Municipal Act. In Murshidabad, Balasore, Malda, and Noakhali a comparatively small proportion of persons summoned appeared: it is not clear whether these cases are compromised out of Court, or whether the summonses are disobeyed: in either case the matter should be looked into. In Malda and Hazaribagh the number of acquittals argues a lack of care in issuing processes.

41. *Remands.*—The following table compares the percentages of remands in the trial of cases sent up by the police in each of the last three years:—

Year.	Percentage of A Forms. Disposed of at first hearing.	Remanded once.	Remanded twice.	Remanded thrice.	Remanded four times.	Remanded five times.	Remanded six times.	Remanded more than six times.	Pending.
1	2	3	4	5	6	7	8	9	10
1897 ...	34·5	22·7	15·3	10·4	6·2	3·9	2·3	3 5	·9
1898 ...	32 8	20·6	15·0	10·6	6 9	4·3	2 5	3·9	2·9
1899 ...	33·0	21·5	14 9	10	6 4	3·6	2·4	3·9	4·0

There was a slight improvement in the percentage of cases decided on the first two hearings, viz., 54·5 against 53·4, but the proportion of cases remanded more than six times is still too high. In Backergunge 121, or 11 per cent., of the A forms sent up were remanded more than six times, and in Patna 77, or about 9 per cent.: these results are not creditable, and an explanation should be furnished. In Pabna only 35·9 per cent. of the cases were disposed of in the first two sittings, but this is said to be due to a gang case, the enquiry into which occupied much of the time of the Magistrates at Sirajganj. Mymensingh (38·1), Faridpur (40·7), and Backergunge (36·7) are also offenders in this respect, and the Commissioner will be asked to draw the special attention of the Magistrates of these districts to the matter.

42. *Previous convictions.*—Out of 18,086 persons convicted of offences against property, 2,182 had been previously convicted, giving a percentage of 12 against 12·2 last year. The highest percentage of reconvictions is returned by

the Patna Division, and the lowest by the Rajshahi Division. The figures for individual districts fluctuate between 20·7 per cent. in Muzaffarpur and 5·7 in Purnea. There seems absolutely no reason for these variations, and the Lieutenant-Governor is driven to the conclusion that the police in some districts do not take the trouble to enquire whether an accused person is an old offender or not, and the attention of the Inspector-General is invited to the matter.

43. *Systems of identification.*—During the year reference was made to the Central Office with respect to 892 persons whom the local police were unable to identify. Of these, 580 were identified as old offenders by their finger-impressions, and 57 by anthropometry, or 637 in all. This is very satisfactory and yields the highest percentage yet attained by the Central Office, which is to be congratulated on the result. The results obtained since 1894 are given in the table below, and it is perhaps unnecessary to observe that it is by no means certain that all the persons not identified had been previously convicted:—

Year.	Number identified by anthropometry only.	Number identified by finger impressions only.	Total number identified.	Number in column 4 referred by Bengal districts.	Total number of persons in Bengal districts whose identity local police were unable to ascertain.	Percentage of successes from Bengal districts (column 6 to column 5). * Juveniles were also excluded from the total in column 6 in these years.

44. The Inspector-General brings to the notice of Government the good work of Messrs. Pratt, Masters, and Harris, Deputy Inspectors-General, and Mr. Barnard, Assistant Inspector-General of Railway Police, and records his obligations to Mr. Showers, his Personal Assistant, and Mr. Warden, who was in charge of the Central Office for identification, and the Lieutenant-Governor has pleasure in recognising the services of Mr. Greer in the administration of the Department during the year. The names of the District Superintendents, Assistant Superintendents and Inspectors, who have been specially commended in paragraph 43 of the Report, will be noted in the Appointment Department.

ORDER.—Ordered that copies of this Resolution be forwarded to the Inspector-General of Police, the Commissioner of Police, Calcutta, and all Commissioners of Divisions, for information.

Ordered also that the Resolution be published in the *Calcutta Gazette.*

By order of the Lieutenant-Governor of Bengal,

J. A. BOURDILLON,

Offg. Chief Secretary to the Govt. of Bengal.

WEATHER AND CROP REPORT.

For the week ending the 8th October 1900.

Burdwan.—Rainfall at Sadar 0·09, Kalna 0·16, Katwa 0·16, Raniganj 0·02. Weather hot and cloudy. Threshing of *aus* going on. Prospects of *aman* fair. Fodder and water sufficient. Common rice selling as follows:—

	Srs.	
Sadar	12	per rupee.
Kalna	10⅝	
Katwa	12	
Raniganj	12	

Birbhum.—Rainfall at Sadar nil, Rampur Hât 0·42. Weather fair. Crops doing well. Price of common rice at Sadar 12 seers and at Rampur Hât 13 seers per rupee. Fodder sufficient.

Bankura.—Weather fair. Standing crops doing well. Fodder and water sufficient. No cattle-disease. Common rice at Bankura 12 seers and at Vishnupur 11¼ seers per rupee.

Midnapore.—Rainfall at Sadar 0·97, Contai 1·80, Tamluk 1·96, Ghatal 0·10. Weather cloudy at Sadar and Tamluk; fair at Contai; hot at Ghatal. Portions of Contai and Tamluk are still under water. Floods in Ghatal thana have almost subsided. No flood report received from Daspur thana. Paddy crops have been damaged severely in most places in the Sadar and subdivisions. Fodder sufficient except in flooded tracts. No cattle-disease. Common rice sells as follows:—

	Srs	ch.	
Sadar	12	0	per rupee.
Tamluk	9	13½	
Ghatal	10	0	

Hooghly.—Rainfall at Sadar 0·36, Serampore 1·10, Arambagh 0·02. Prospects of standing crops poor. Steeping of jute nearly finished. Common rice sells at 10 seers per rupee.

Howrah.—Rainfall at Sadar ·42, Ulubaria 3·55. Weather cloudy with occasional showers. Paddy and sugarcane crops in many places are still under water and damaged to a great extent. Cutting of jute nearly finished. Water sufficient. Want of fodder is being felt. Price of common rice 10 seers 1 chitak per rupee.

24-Parganás.—Rainfall at Sadar ·81, Barasat 5·10, Diamond Harbour 3·07. Weather cloudy and showery. A good deal of rice is emerging from the flooded areas, and prospects are not quite so bad as was reported. But the destruction of the crop on low ill-drained lands is complete. The estimated outturn of the winter rice crop is 8 annas. *Aman* in low lands generally destroyed, but on higher lands 10 to 16 annas is expected. *Aus* is being harvested. Washing of jute going on briskly. Cattle-disease in Barasat reported. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	10	per rupee.
Barasat	11	
Basirhat	9	
Diamond Harbour	10⅝	

Nadia.—Rainfall at Sadar 0·07, Kushtia 0·25, Meherpur 0·68, Chuadanga 0·91. Weather seasonable. Prospects of *aman* and other standing crops generally good except in Ranaghat where they were partly damaged by the cyclone. Fodder and water sufficient. Price of common rice stationary.

Murshidabad.—Rainfall at Sadar 0·05, Jangipur 1·11, Lalbagh nil, Kandi 0·44. Weather hot in day and cool at night. Harvesting of *aus* and cutting of jute finished. The recent cyclone and floods damaged the winter rice crop in Kandi to the extent of under four annas; in the rest of the district the prospect of *aman* has improved. Sowing of *kalai* nearly over. Cattle-disease reported from Nabagram thana. Fodder and water sufficient. Common rice selling at Sadar 12½ seers, Jangipur 13½ seers, Lalbagh 13 seers and Kandi 14 seers per rupee.

Jessore.—Rainfall at Sadar 5·41, Jhenida 2·04, Magura 0·47, Narail 2·85, Bangaon 2·42. Weather sultry, cloudy. Prospects of standing crops good. Harvesting of *aus* paddy nearly finished. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	14	per rupee.
Jhenida	15	
Magura	13½	
Narail	15	
Bangaon	11	

Khulna.—Rainfall at Sadar 1·20, Bagerhat 1·69, Satkhira 3·95. Weather fair. Common rice sells at Sadar 13 seers, Bagerhat 13½ seers, and Satkhira 11 seers per rupee. Fodder and water sufficient.

Rajshahi.—Rainfall at Sadar 2·90, Nator nil, Naugaon 0·03. Prospects of standing crops good. No cattle-disease. Fodder and water sufficient. Common rice selling at 14½ seers per rupee.

Dinajpur.—Rainfall nil. Weather fine. Rain wanted in south of district. Prospect of *aman* moderate. No cattle-disease. Fodder and water plentiful. Rice 15 seers a rupee at Sadar and 13 seers at Thakurgaon.

Jalpaiguri.—Rainfall nil. Weather seasonable. *Haimanti* paddy growing well. Harvesting of *bhadoi* still continues in places. Steeping of jute going on. Price of common rice steady. Fodder and water sufficient.

Darjeeling.—Rainfall at Darjeeling 0·02, Kursoong 0·43, Siliguri 0·20. Weather seasonable. *Hills*—*Bhutta*, *bhadoi* paddy, and potatoes being harvested; *bara marua* and *haimanti* paddy doing well. *Terai*—Harvesting of *bhadoi* and transplanting of *haimanti* paddy finished. Coarse rice sells as follows:—

	Srs.	
Hills	11	per rupee.

General Summary.—The rainfall during the week was general, and in places moderately heavy, in Orissa, Chota Nagpur, and South-West and East Bengal. In Bihar practically no rain fell, and in North Bengal only a few showers are reported. The general prospects of the winter rice crop are good except in the flooded tracts of the Burdwan, Presidency and Orissa Divisions. In Midnapore, Hooghly, Howrah and the 24-Parganas the rice plants on low lands in many places are still under water and destroyed to a considerable extent. The rice crop is still in need of rain in Dinajpur, Rangpur, Chittagong and Monghyr. The harvesting of the autumn crops is almost at an end, and the preparation of lands for the spring crops is in progress. Fodder is sufficient except in the flooded tracts of Midnapore, Howrah and Balasore. Cases of cattle disease continue to be reported from some districts. The price of rice has fallen in 15 districts, has risen in 10, and is stationary in the rest.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently equal; and, finally, the thermometer, which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards, is found to read 0·6 higher than the Kew Standard thermometer, which is the standard of reference at the present Observatory.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph nd from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the ermomoters are verified and the readings have been corrected to a standard constructed and verified at the ew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet bove the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, ormerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in he Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The Berlin Fire-brigade can, at the commencement of the year 1901, look back upon a period of existence of 50 years. The organisation at Berlin has been the means of starting in Germany a new epoch of development in connection with apparatus or means for the extinction of and protection against fire and thanks is due to such organisation and the experience derived therefrom, whereby it has been possible, by increasing the fire-protecting means, to put a check on the dangers threatening in consequence of the rapid development of technics and industry. And, as in Germany, also in other civilized countries, such fire-protecting means have been wonderfully developed, during the last few decades, for the welfare of mankind.

It is therefore of general interest and earnestly desired that the progress, improvements and inventions made in connection with fire-protecting and fire-extinguishing apparatus and the like, are still more developed, and that the knowledge of these varied and valuable means is more widely spread abroad. Feeling convinced that it will be of considerable advantage for the development of means or apparatus for the extinction of and protection against fire, the undersigned committee has decided to open

An International Exhibition of fire-preventing and fire-saving arrangements in commemoration of the 50th anniversary of the organisation of the Berlin Fire-brigade; this exhibition will be held in Berlin during the months of June and July 1901 at the Place of Military Exercises at Moabit.

Her Majesty, the Empress and Queen Auguste Victoria has graciously condescended to accept the pretectorate of the Exhibition. His Serene Highness, Prince of Hohenlohe-Schillingsfürst, Chancellor of the German Empire, has undertaken the honorary presidency.

The object of the exhibition is not only to give manufacturers of every country an opportunity to notify others of the present state of the development of this branch, but also to bring the representatives of the fire-brigades of different nations in closer contact with one another. We cordially invite the municipal authorities, fire-brigade associations, national unions, manufacturers, mill-owners and interested parties of every country to compete, and respectfully request the same to energetically promote the object in view, especially by exhibiting suitable apparatus and the like. Then the exhibition, and study of the articles sent here, will also bring all parties concerned in closer contact with one another and will give a new impulse to technics and also exert a decisive influence upon the fire-proof construction of buildings and other plants on water, land and underground.

Our exhibition will only consist of selected articles; a jury, comprised of parties appointed to represent the different groups, will examine the articles submitted, and decide as to their acceptance. Several German Federal States have already placed at our disposal, or promised, State medals and diplomas; moreover, prizes will be given by the exhibition authorities.

REGULATIONS.

I. —Locality and duration of the exhibition.

The International Exhibition for fire-preventing and fire-saving arrangements will be held from 6 to 8 weeks on the Place of Military Exercises at Moabit during the months of June and July, but the managers of the exhibition are entitled to modify this term of duration.

II.—Organization and treasurership.

The managing committee of the international exhibition for fire-preventing and fire-saving arrangements are entrusted with the management and organisation of the exhibition. The applications must be made to the exhibition offices and addressed to Mr. Emil Jacob, Managing Director of the exhibition.

The forms of application must be sent in as soon as possible and by the 1st of October 1900 at latest. The managing committee can, however, shorten or prolong this term.

All the payments destined for the exhibition must be made payable to the managing committee and addressed to the treasurer, Dr. Paul Schwabach, British Consul General (of the firm S. Bleichroder) No. 62-63 Behrenstrasse Berlin W.

PAR. 3

Acceptance of articles for the exhibition.

Only articles, which answer the purpose of the exhibition, will be accepted. This acceptance will depend on the result of an examination to be made by the managing committee. The decision of the committee will be communicated to applicant in writing.

If the articles are not accepted, the payments made for rent will be refunded.

PAR. 4.

Premiums.

State premiums, prizes, and medals will be given for excellent productions. Full particulars will be given in due course.

If special space is claimed for alleys or passages, a charge will be made therefore. Every fraction of a meter will be charged full ; at least M. 50 will be charged for rent. The area of walls, up to a height of 4 meters, will be charged at half the price of the area of the ground.

Cabins, expanse of water, and localities or spaces underground, will be charged for according to special arrangement: this also applies to rent for space occupied by apparatus erected separately.

The amount of the rent as can be stated according to 1, 2, 3 must be paid when sending in the form of application. The final settlement of the rent can only be made after the distribution of the locality. If the exhibitor does not utilize the space paid for, no allowance will be made afterwards.

Steam, water, gas and electricity will be supplied to the exhibitors as driving power, according to arrangement made with the managing committee of the exhibition.

The exhibitor is held liable, or his articles or goods will be retained as security for any payments due by him to the managing committee.

As regards the combined display of articles belonging to several exhibitors, the rent of the space occupied by such articles will be charged each exhibitor separately. The managing committee is, however, entitled to make exceptions herein.

PAR. 6.

Decoration.

Each group must provide for its own decoration, which, however, is subject to the exhibition. For the purpose of making the single groups as uniform as possible, a union of all the exhibitors will be organised for each group. Consequently the exhibitors are compelled to submit to the decisions of the majority of their groups. At the request of the managing committee of the exhibition, the exhibitors are compelled to submit for approval plans, drawings, etc., of the articles to be exhibited.

The articles for the exhibition must be in their places at a date still to be fixed; otherwise the exhibitor will not be allowed to compete for prizes, etc.; moreover, the exhibitor is liable to a conventional fine of 25 Marks per square meter.

If desired, tables will be lent by the managing committee; non-decorated tables at 3 Marks 50 Pfennigs and decorated tables at 6 Marks per square meter (in addition to the rent charged for the space occupied).

PAR. 7.

Transport, Return-Freight, Duty.

Freight, duty and other expenses in connection with articles destined for the spaces hired in the exhibition are to be paid by the exhibitors. All packages must be provided with address-labels supplied gratuitously by the managing committee of the exhibition. The necessary steps are being taken for obtaining free return-freight of the goods exhibited and exemption from payment of duty.

PAR. 8.

Delivery and removal of the goods exhibited.

Articles destined for the exhibition, the acceptance of which according to § 6 commences at the term fixed must be delivered in proper time. They must be removed within 5 days after the closing of the exhibition, otherwise the managing committee of the exhibition is entitled to effect such removal and charge the exhibitor with the costs of transport, storage and packing. The managing committee cannot be held responsible for damages, loss, etc.

No article can be removed from its place before the closing of the exhibition, without special written permission from the managing committee.

PAR. 9.

Right of sale.

Exhibitors, who wish to sell to the visitors of the exhibition, articles of any kind, must obtain special permission from the managers of the exhibition. Exhibitors, who, without such written permission, effect the sale of articles exhibited, or sell articles which are not stated in the contract, will be deprived of their locality, and on account of the non-observance of these regulations, the managers of the exhibition will be entitled to remove the said articles at the expense and risk of the exhibitors, and otherwise dispose of the locality, the rent paid therefore being retained by the authorities of the exhibition.

PAR. 10.

Insurance and Guarantee.

The insurance of articles against fire will only be effected by the managers of the exhibition, at the special request of the exhibitor, who must bear the necessary expenses.

Arrangements will be made for the general safe-keeping of the articles, but the managers of the exhibition will not make any compensation in the event of theft, damage, etc. No claims of any kind will be considered, in case the exhibition cannot take place through force majeure, or must be closed before the appointed time.

PAR. 11.

Keeping-in repair and Publications.

The fitting-up, cleaning, keeping-in repair and removal of the articles of the exhibition must be effected by the exhibitors. If desired, this can also be undertaken by the managing committee of the exhibition against compensation. The cleaning, etc., must be effected during the period when the public is not allowed admission to the exhibition. The articles are not to be covered during the visiting hours of the exhibition. Every exhibitor must distinctly mark his articles with his name and address.

Sketches, drawings, photographs and other reproductions of the articles exhibited can only be made with the consent of the exhibitor and the managers of the exhibition ; the managers of the exhibition may, however, take general views of the exhibition.

The distribution of publications and the posting of placards of any kind may only be effected by permission of the managing committee of the exhibition.

PAR. 12.

Representation.

The exhibitor must legitimate his representative at the exhibition.

PAR. 13.

Distribution of the locality.

The exhibitor must submit to the decision of the managing committee as to the distribution of the locality provided, alterations in the programme, prolongation or shortening of the duration of the exhibition, and other dispositions.

PAR. 14.

Validity of the prescriptions.

Every exhibitor must declare, at the time of application or admission to the exhibition, that he accepts as legal all these regulations and the prescriptions still to be issued, as also the rights accruing therefrom.

Furthermore, that he is not entitled to make any claim on the basis of verbal arrangements.

All complaints and doubts will be decided by the managing committee.

Disputes must be settled in the courts at Berlin and both parties must legally declare that in all affairs of the exhibition, Mr. Emil Jacob, the Managing Director, residing at No. 65 Holzmarktstrasse, Berlin O, is entitled to enter legal actions for the managing committee and to represent the latter in actions entered against the same. The parties are, however, not entitled to make any claim on the personal property of Mr. Emil Jacob, or any other member of the managing committee, but may only resort to the effects of the exhibition.

MEDICAL DEPARTMENT.

PLAGUE REGULATION A.

Dated 8th October 1900.

IN exercise of the powers conferred by sub-section 1 of section 2 of the Epidemic Diseases Act, 1897, and by the Notification of the Government of India in the Home Department, No. 302, dated 4th February 1897, and in supersession of Parts III and IV of Plague Notification No. 9 of 10th November 1897, which are hereby cancelled, the Lieutenant-Governor of Bengal is pleased to prescribe the following Regulation for preventing the spread of plague in Calcutta and other municipal towns specified therein :—

1. This Regulation shall come into force at once.

2. It extends to Calcutta and to the Municipalities of Howrah, Patna, Gaya, Dacca, and all municipal towns and cantonments which, at the census of 1891, had a recorded population in excess of 10,000.

3. *Definitions*—

Magistrate means, in Calcutta, the Chairman of the Calcutta Corporation, and elsewhere the District Magistrate or Deputy Commissioner.

Health Officer means, in Calcutta, the Health Officer of Calcutta, and includes a Special Health Officer and an Assistant Special Health Officer and a District Medical Officer, and elsewhere the Civil Surgeon of the District, and includes a Civil Medical Officer or the Medical Officer in charge of a cantonment, an Assistant Surgeon in medical charge of a district or subdivision or a municipal dispensary, and an Assistant Health Officer.

4. *Appointment of Health Officers.*—The Magistrate, subject to the general instructions of the Commissioner, or in Calcutta of the Local Government, may appoint a Health Officer, either by name or by virtue of office, to devise and carry out, under the Magistrate's general directions, all measures necessary to prevent the spread of the plague, and may fix his pay. He may also appoint such Assistant Health Officers and subordinate staff to assist the Health Officer in carrying out his duties as he may consider necessary, and may fix their pay. Outside Calcutta, all Health Officers shall be subordinate to the Civil Surgeon.

5. *Division of the town into sanitary circles or districts.*—For the proper working of these rules, the Magistrate may divide the town into sanitary circles or districts of a convenient size, and may appoint one or more District Medical Officers for each district.

6. *Ward Committees.*—In every ward or portion of a ward the Magistrate may appoint Ward Committees, and may assign to them such duties in connection with disinfection and other measures for the discovery and prevention of plague as he may deem fit. He may provide them with such clerical and subordinate staff as may be necessary for the discharge of their duties.

7. *General sanitary precautions.*—The Magistrate or Cantonment Magistrate may issue general orders that by a specified date certain sanitary precautions of a simple nature, such as the limewashing of houses, the cleaning of latrines, or the removal of filth or rubbish, shall be carried out. The persons to whom such order is addressed shall comply with it.

8. *Duties of Police.*—All Police Officers are required to give to the Health Officer such assistance as he may consider necessary in carrying out the rules of this Regulation, upon the order of the Magistrate, or, in Calcutta, after application for such assistance has been made by the Chairman of the Corporation to the Commissioner of Police.

9. *Report by householder.*—If in any house a person suffers from sudden fever, glandular swellings in the neck, armpits or groin, pain in the chest with cough and feeling of oppression, or delirium, or dies from such fever or with any of the foregoing symptoms, the owner of such house, or, if the owner be non-resident, the occupier, or the person who collects rent for the house or any part of it, or any person who would be bound, under section 532 of the Calcutta Municipal Act, 1899, to give information of a death in the house, shall forthwith report the occurrence of such illness or death to the Health Officer or at the nearest police-station.

10. *Reports by medical practitioner.*—Any medical practitioner who attends in any house a case which he has reason to believe to be a case of plague, or which presents symptoms which may be those of plague, shall forthwith report such illness to the Health Officer.

11. *Report from factories.*—If any person employed in a factory suffers from sudden fever, glandular swellings in the neck armpits or groin, pain in the chest, or with cough and feeling of oppression or delirium, or dies from such fever or with any of the foregoing symptoms, the occupier of such factory shall immediately report in writing to the Magistrate the fact of such illness or death and the name and address of the employé.

The word "factory" used in this rule means any premises wherein is carried on any process for, or incidental to, making, altering, repairing, ornamenting, finishing, or otherwise adapting for use or sale any article or part of an article, and wherein steam, water or other mechanical power is used in aid of any such process.

12. *Right of entry and examination.*—If the Health Officer has reason to believe that there is in any house any person who is suffering from plague, or from a disease which may in his opinion prove to be plague, the owner and occupier of such house shall permit the Health Officer to enter therein and examine all or any inmate thereof. If any of such inmates

be a female who, according to the custom of the country, does not appear in public, the examination shall be made through a female doctor, female hospital assistant, or other female agency.

13. *Disinfection, cleansing, &c., by householder.*—The owner and occupier of any house in which a case of plague, or a case which is suspected by the Health Officer to have been one of plague, has occurred, and the head of any family resident therein shall comply with any direction that may be issued by the Health Officer with regard to the disinfection and cleansing of the whole house, the disinfection or destruction of bedding, clothing, and articles of a similar nature, the improvement of the sanitary condition of the premises, the removal, in consultation with a competent Engineer, of all partitions, erections or portions of house walls which obstruct light and ventilation, and other sanitary matters, and shall permit the Health Officer to enter his house or premises for the purpose of inspection: Provided that, when an apartment is occupied by a female who, according to the custom of the country, does not appear in public, the Health Officer shall not enter such an apartment without giving notice and affording time to such female to withdraw. In such inspections the Health Officer shall, if possible, always be accompanied by a male member of the family.

14. *Disinfection, cleansing, &c., by Health Officer.*—When a case of plague or suspected plague has occurred in a house, the Health Officer shall, if he considers it necessary, himself take measures for the disinfection of the whole house and for the other matters referred to in the preceding and the present rule.

On the death or recovery or removal of person suffering from plague or suspected plague, the room occupied by such person shall be thoroughly disinfected, and the Health Officer may, if he thinks fit, similarly disinfect the whole or any part of the building. All clothing or bedding or other articles which are likely to have become contaminated shall at once be disinfected or destroyed on payment of adequate compensation.

If disinfection cannot be satisfactorily effected otherwise, the Health Officer, with the sanction of the Magistrate, may burn or otherwise demolish any hut or other temporary structure, adequate compensation being paid.

15. The Health Officer may take measures for the disinfection of any premises adjacent to a house in which a case of plague or suspected plague has occurred, and any premises to which there is, in his opinion, danger of infection being conveyed from such house.

16. *Prohibition of rag-picking.*—Except on conditions separately notified by Government, no person other than a Municipal servant shall collect or transport rags or other refuse. The Magistrate may disinfect, or at his discretion destroy, any collection of rags in rag-pickers' houses or rag stores.

17. *Duty of compliance.*—A person dealt with under the foregoing rules shall comply with any directions that may be given to him by the Health Officer with regard to disinfection of houses, bedding or other articles, or with respect to any other sanitary matter connected with these rules.

18. *Provision of hospitals.*—The Magistrate may make such provision as he may deem necessary for hospitals for persons suffering from plague. No person shall be removed to such a hospital without his consent, and the friends and relatives of a sick person in hospital shall, if they desire, be admitted to visit and attend on him.

19. *Compensation.*—The Magistrate shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these rules.

20. *Control.*—All powers conferred upon the Health Officer or on a Plague Authority by these rules shall be exercised subject to the general control of the Magistrate.

21. *Expenses.*—All expenses incurred in carrying out these rules shall be paid from the Municipal Fund, but the Magistrate may recover from any person any amount which such person would, under similar circumstances, be liable to pay under the Calcutta Municipal Act, 1899, or the Bengal Municipal Act of 1884, or the Cantonment Act of 1899, or any rules or bye-laws made thereunder.

E. N. BAKER,
Secy. to the Govt. of Bengal.

PREVENTION OF THE SPREAD OF PLAGUE IN MINOR MUNICIPAL TOWNS AND CANTONMENTS.

PLAGUE REGULATION B.

Dated the 8th October 1900.

IN exercise of the powers conferred by sub-section (1) of section 2 of the Epidemic Diseases Act, 1897, and by the Notification of the Government of India, in the Home Department, No. 302, dated 4th February 1897, and in supersession of the rules contained in Plague Regulations Nos. 10 and 11, dated the 8th February 1898, which are hereby cancelled, the Lieutenant-Governor is pleased to prescribe the following Regulation for preventing the spread of plague into minor municipal towns and cantonments:—

1. *Date of taking effect.*—This Regulation shall come into force at once.

2. It extends to all municipal towns and cantonments other than those to which Plague Regulation A of this date applies

3. *Health Officer defined.*—The words "Health Officer" in the following rules mean the Civil Surgeon of the district, and include a Civil Medical Officer, a Military Medical

Officer in charge of a cantonment, an Assistant Surgeon in medical charge of a district or subdivision or a municipal dispensary, and any medical practitioner appointed by the District Magistrate under rule 3.

4. *Appointment of Health Officers.*—In any municipality or cantonment the District Magistrate, subject to the general instructions of the Commissioner, may appoint as many Health Officers as may be necessary to prevent the introduction or spread of the disease, and may fix their pay. He may also appoint such subordinate staff to assist the Health Officers in carrying out their duties as he may consider necessary, and may fix their pay. All such Health Officers shall be subordinate to the Civil Surgeon.

5. *Appointment of Vigilance and Medical Committees.*—The District Magistrate may appoint Vigilance or Medical Committees from among the influential residents in each municipality and cantonment within his jurisdiction, and may assign to them such duties in connection with disinfection and other measures for the discovery and prevention of plague as he may deem fit. He may provide them with such clerical and subordinate staff as may be necessary for the discharge of their duties.

6. *General sanitary precautions.*—In any municipality or cantonment the Magistrate of the district or the Cantonment Magistrate may issue general orders that by a specified date certain sanitary precautions of a simple nature, such as the limewashing of houses, the cleaning of latrines, or the removal of filth or rubbish shall be carried out. The persons to whom such order is addressed shall comply with it.

7. *Report by house-holder.*—It shall be the duty of every owner of a house, or, if the owner be non-resident, the occupier, or the person who collects rents for the house or any part of it, to promptly report to the Health Officer or to the District Magistrate, the occurrence of any case of plague or suspected plague in premises owned or occupied by him.

8. If there is resident in any house a person who has come within ten days from any area infected with plague, the owner of such house or, if the owner be non-resident, the occupier, or the person who collects the rent of the house or any part of it shall report forthwith to the Health Officer or to the District Magistrate all cases of fever which may occur among the residents of the house.

9. *Report by Medical Practitioner.*—Any medical practitioner who attends in any house a case which he has reason to believe to be a case of plague, or which presents symptoms which may be those of plague, shall forthwith report such illness to the Health Officer or District Magistrate.

10. *Reports from factories.*—Every occupier of a factory shall immediately report in writing to the District Magistrate the occurrence of any case of plague or suspected plague in premises owned or occupied by him.

The word "factory" used in this rule means any premises wherein is carried on any process for, or incidental to, making, altering, repairing, ornamenting, finishing or otherwise adapting for use or sale any article or part of an article, and wherein steam, water or other mechanical power is used in aid of any such process.

11. *Registration of burial and burning-grounds.*—In every municipality and cantonment the District Magistrate shall cause to be registered any place used as a burial or burning-ground which has not been already registered under section 254 of the Bengal Municipal Act, 1884, and no place which has not been registered either under that section or under this rule shall be used as a burial or burning-ground.

12. *Procedure in case of suspected plague.*—When the Health Officer has reason to believe that there is in any house any person who is suffering from plague, or that a case of plague has occurred in a house, he shall proceed with, if possible, the members of the Vigilance or Medical Committee, to inquire into the case and to examine all or any inmates of the house. The owner and occupier of the house shall permit the Health Officer to enter his premises and examine any person whom such Health Officer has reason to believe to be infected with plague. If the person is a female, the examination shall be made through female agency.

13. *Disinfection and cleansing of houses, etc., by Health Officer.*—In any house in which a case of plague or suspected plague has occurred, the Health Officer shall take measures for the disinfection and cleansing of the house, the destruction of bedding, clothing and articles of a similar nature, the improvement of the sanitary condition of the premises, the removal, in consultation, if possible, with a competent Engineer, of all partitions, erections or portions of house-walls which obstruct light and ventilation, and for other sanitary precautions. The District Magistrate on the report of the Health Officer may order the burning or destruction of any hut or other temporary structure, if disinfection cannot be satisfactorily effected otherwise. In cases where any property is ordered to be destroyed under these rules, adequate compensation shall be paid to the owner.

14. The Health Officer may take measures for the disinfection of any premises adjacent to a house in which a case of plague or suspected plague has occurred, and of any premises to which there is in his opinion danger of infection being conveyed from such house.

15. *Evacuation of street or quarter.*—If plague has become prevalent in a portion of a municipality or cantonment, the Magistrate of the district, or the Cantonment Magistrate, may, with the sanction of the Commissioner, direct the inhabitants of any street, mahalla or other locality to vacate their houses and to remove to a temporary settlement at a distance from the infected quarter. The District Magistrate, or the Cantonment Magistrate, shall

previously provide temporary accommodation for all persons required to vacate their houses. The Health Officer shall arrange for the thorough disinfection and cleansing of the empty premises, and no person shall be permitted to return until the premises have been certified to be free from infection.

16. *Segregation.*—Where the District Magistrate, in consultation with the Health Officer, considers that removal of a plague patient to hospital is a precaution necessary for the protection of the neighbouring population, he may direct the removal of the patient to a hospital for treatment.

Explanation.—The power conferred by this rule shall only be exercised in isolated cases at the commencement of an outbreak, or in the case of persons who have no friends or relatives to attend to them.

17. Where, under the circumstances stated in the explanation to the preceding rule, the District Magistrate has ordered the removal of a patient to hospital, he may also order such persons as have been in immediate contact with the patient to be removed to a segregation camp and detained under observation for ten days.

18. *Duty of compliance.*—Every person to whom an order is given by any officer empowered to act under the preceding rules with regard to any matter falling under these rules shall duly obey that order. Any person who may be removed to a hospital in a cantonment by order of the Military Medical authorities shall comply with any directions that may be given to him by the Health Officer with regard to his removal to, and residence in, an observation shed, public or private hospital or place of segregation, and with respect to disinfection or burning of bedding, clothing and articles of a similar nature, or with respect to any other sanitary matter. He shall not depart from any such place without the written permission of the Health Officer.

19. *Provision of Hospitals and Camps.*—The District Magistrate may make such provision as he may deem necessary for hospitals for persons suffering from plague and for camps for the detention of contacts. He may also certify hospitals and camps erected by private individuals as being fit to be used for the purposes of rules 16 and 17 of this Regulation.

20. Free access shall be given to friends or relations desiring to attend any person under treatment in a hospital established under these rules.

21. *Compensation.*—The District Magistrate, or the Cantonment Magistrate, shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these rules.

22. *Control.*—All powers conferred upon the Health Officer or the Cantonment Magistrate by these rules shall be exercised subject to the general control of the District Magistrate.

23. *Delegation of powers.*—All or any of the powers of the District Magistrate may, with the sanction of Government, be exercised by any other gazetted officer of Government.

24. *Expenses.*—All expenses incurred in carrying out these rules shall be paid from the Municipal or Cantonment Fund of Municipality or Cantonment concerned; but the District Magistrate may recover from any person any sum which such person would in the circumstances be liable to pay under the provisions of the Bengal Municipal Act of 1884 or the Cantonment Act of 1889, or any rules or bye-laws made thereunder.

E. N. BAKER,
Secy. to the Govt. of Bengal.

PREVENTION OF THE SPREAD OF PLAGUE IN VILLAGES AND NON-MUNICIPAL TOWNS.

PLAGUE REGULATION C.

Dated 8th October 1900.

IN exercise of the powers conferred by sub-section (1) of section 2 of the Epidemic Diseases Act, 1897, and by the Notification of the Government of India, in the Home Department, No. 302, dated 4th February 1897, and in supersession of the rules contained in Plague Regulations Nos. 12 and 13, dated the 8th February 1898, which are hereby cancelled, the Lieutenant-Governor of Bengal is pleased to prescribe the following regulation for preventing the importation of plague into villages and non-municipal towns:—

1. *Date of taking effect.*—This Regulation shall come into force at once.

2. *Appointment of Subdivisional Health Officers.*—The District Magistrate may, subject to the control of the Commissioner, appoint as many Subdivisional Health Officers as he may think necessary, and may fix their pay. All such officers shall be subordinate to the Civil Surgeon of the district.

3. *Appointment of Medical and Vigilance Committees.*—The Subdivisional Magistrate may appoint Medical or Vigilance Committees for any town, village, or group of villages within his jurisdiction, and may assign to them such duties in connection with disinfection and other measures for the discovery and prevention of plague as he may deem fit.

4. *Report by proprietors of lands and others.*—Every owner or occupier of land and the agent of any such person, every patwari and every panchayat appointed under Act VI (B.C.) of 1870, and every person employed in the collection of revenue or rent by Government or the Court of Wards shall report to the Subdivisional Magistrate or Health Officer any case of plague or suspected plague that may occur in his neighbourhood.

5. *Report by householder.*—If there is resident in any house a person who has come within ten days from any area infected with plague, the owner of such house shall report forthwith to the Subdivisional Magistrate or Health Officer all cases of fever which may occur among the residents of the house.

6. *Appointment of Enquiring Agencies.*—If the District Magistrate considers that any tract of country is, by reason of its proximity to, or intercourse with, an infected area in peculiar danger of infection, he may, with the previous sanction of the Local Government, employ and pay a suitable staff for the purpose of making special enquiries as to the existence of plague within a defined area.

7. *Powers of Enquiring Agencies.*—Any enquiring agency which may be constituted under rule 6 of this Regulation may be empowered to enter any house and examine any person within the area assigned as its jurisdiction. Examination of females shall in all cases be made through female agency.

8. *Procedure in case of suspected plague.*—When the Subdivisional Magistrate or the Health Officer has reason to believe that a case of plague has occurred in a house, he shall proceed to enquire into the case and shall examine the patient. If the patient be a female, the examination shall be made through female agency.

9. *Disinfection and cleansing of houses, &c., by Health Officer.*—In any house in which a case of plague or suspected plague has occurred, the Subdivisional Magistrate or Health Officer shall take measures for the disinfection and cleansing of the house, the destruction of bedding, clothing and articles of a similar nature, the improvement of the sanitary condition of the premises, the removal, in consultation, if possible, with a competent Engineer, of all partitions, erections or portions of house-walls which obstruct light or ventilation, and for other sanitary precautions. The Subdivisional Magistrate may, on the report of the Health Officer, order the burning or destruction of any hut or other temporary structure, if disinfection cannot be satisfactorily effected otherwise. In cases where any property is ordered to be destroyed under this rule, adequate compensation shall be paid to the owner.

10. The Health Officer may take measures for the disinfection of any premises adjacent to a house in which a case of plague or suspected plague has occurred, or if any premises to which there is, in his opinion, danger of infection being conveyed from such house.

11. *Evacuation of village.*—On the occurrence of plague in a town or village, the Subdivisional Magistrate may direct the inhabitants to vacate their houses and to remove to a temporary settlement outside the town or village, and he shall, when necessary, provide such persons with temporary accommodation. After evacuation, the Health Officer shall arrange for the thorough disinfection and cleansing of the empty premises, and the inhabitants shall not be permitted to return until the premises have been certified to be free from infection.

12. *Segregation.*—Where the District Magistrate, in consultation with the Health Officer, considers that removal of a plague patient to hospital is a precaution necessary for the protection of the neighbouring population, he may direct the removal of the patient to a hospital for treatment.

Explanation.—The power conferred by this rule shall only be exercised in isolated cases at the commencement of an outbreak, or in the case of persons who have no friends or relatives to attend to them.

13. Where, under the circumstances stated in the explanation to the preceding rule, the District Magistrate has ordered the removal of a patient to hospital, he may also order such persons as have been in immediate contact with the patient to be removed to a segregation camp and detained under observation for ten days.

14. *Delegation of powers.*—The powers conferred by this Regulation on the Subdivisional Magistrate may, with the sanction of the Commissioner, be exercised by any gazetted officer of Government especially empowered by the District Magistrate on that behalf.

15. *Duty of compliance.*—Every person to whom an order is given by any officer empowered to act under the preceding rules with regard to any matter falling under these rules shall duly obey that order.

16. *Provision of hospitals and camps.*—The District Magistrate may make such provision as he may deem necessary for hospitals for persons suffering from plague and for camps for the detention of contacts. He may also certify hospitals and camps erected by private individuals as being fit to be used for the purposes of rules 12 and 13 of this Regulation.

17. Free access shall be given to friends and relations desiring to attend any person under treatment in a hospital established under these rules.

18. *Compensation.*—The Subdivisional Magistrate shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these rules.

19. *Control.*—All powers conferred upon the Subdivisional Magistrate or the Subdivisional Health Officer by these rules shall be exercised subject to the general control of the District Magistrate.

20. *Expenses.*—All expenses incurred in carrying out these rules shall be paid from the District Fund or (in districts in which Bengal Act III of 1885 is not in force) from the District Road Fund or District Road Account of the district concerned.

The 9th October 1900.—Under the powers conferred upon him by section 5B (1) of Act I (B.C.) of 1869 (an Act for the Prevention of Cruelty to Animals), as amended by Act III (B.C.) of 1900, the Lieutenant-Governor is pleased to appoint the hospital attached to the Bengal Veterinary College, Belgachia, to be an infirmary for the treatment and care of animals in respect of which offences against the above mentioned Act have been committed in Calcutta, Alipore, Sealdah, Chitpur, Cossipur, and Dum-Dum.

J. A. BOURDILLON,
Offg. Chief Secy. to the Govt. of Bengal.

Instructions to Magistrates acting under Act I (B.C.) of 1869 (an Act for the Prevention of Cruelty to Animals) as amended by Act III (B.C.) of 1900.

ANIMALS should be sent to Belgachia in charge of a peon or constable with an admission paper (form attached) duly signed by the Magistrate, and a receipt (form attached) will be given at Belgachia for the animals.

2. When an animal has been cured, an intimation should be given to the Court which sent the animal to the infirmary, and a copy of the bill should be forwarded at the same time.

3. On receipt of the intimation referred to in paragraph 2 above, the Court will serve a notice on the owner, informing him that the animal has been cured, and stating the amount payable on account of the infirmary charges, warning him at the same time that the animal will be sold to defray expenses if it is not removed within fourteen days from the date of service. This notice may be served either personally or by leaving it at the owner's abode or place of business.

4. As soon as the above notice has been served, the Court will inform the Superintendent of the Infirmary of the fact, and will authorise him to make over the animal to the Police for sale at noon on the fourteenth day after the service of the notice on the owner, should the animal not have been released on payment of all charges before that date.

5. The animal should be handed over to the owner at the infirmary on his producing the aforesaid notice and on his paying the sum stated therein.

6. Any animal that is not removed within fourteen days after notice has been served on the owner shall, under the Magistrate's order, be handed over to the Police for sale to defray expenses.

NOTIFICATION—No. 1233P.D.

The 8th October 1900.—In exercise of the power conferred on him by section 18 of the Chittagong Hill Tracts Regulation, 1900, the Lieutenant-Governor sanctions the substitution of the following rule for rule 48 of the rules for the administration of those tracts which were published in the *Calcutta Gazette* of the 2nd May 1900:—

48. The investiture of the Chiefs is regulated by the Bengal Government. The headmen will be appointed by the Superintendent in consultation with the Chiefs and the inhabitants of the mauzas: they may be dismissed by the Superintendent for incompetence or misconduct after a reference to the Chief concerned. The Superintendent will not be bound in either case by the wishes of the Chief, but full consideration should be given to them. This appointment is not hereditary, but a son, when competent, may be appointed to succeed his father.

J. A. BOURDILLON,
Offg. Chief Secy. to the Govt. of Bengal.

POLITICAL DEPARTMENT—(JAILS.)

NOTIFICATION—No. 1312P.D.

The 13th October 1900.—In supersession of the rules framed under section 18 of Act XV of 1869, regulating the escort of prisoners to and from courts in which their presence is required, and fixing the amount to be allowed for the costs and charges for such escort when their presence is required in any civil matter, which were published in the *Calcutta Gazette* of the 12th January 1870, the following rules have been sanctioned by Government under sections 42 and 51 of Act III of 1900:—

Rule 1.—On receipt of an order issued by a Court of competent authority under Part IX of Act III of 1900, the officer in charge of the jail shall make a requisition on the District Superintendent of Police for an escort, and the District Superintendent shall supply such escort in conformity with the ordinary rules of his Department.

Rule 2.—The officer in charge of such escort shall, in like manner, be guided by the rules of the Police Department in the performance of his duty and in the treatment of the prisoners under his charge.

Rule 3.—All prisoners shall be taken to the Court before which their appearance is required by the most expeditious route. Prisoners under sentence for criminal offences shall ordinarily travel on foot; but civil prisoners who are desirous of obtaining, and are willing to pay for, the indulgence, may be provided with suitable means of conveyance. When a railway is available, all prisoners shall be conveyed by rail under charge of the police guard.

Rule 4.—Before any prisoner is made over to the officer in charge of the escort, the officer in charge of the jail shall satisfy himself that the fetters of the prisoner or prisoners to be removed are in order, and that each prisoner is supplied with suitable clothing; and he shall further make over to the officer in charge of the guard copies of the orders of the Court under which the prisoners are removed, together with a sum of money for their maintenance and road expense. Diet money shall be calculated at a rate not exceeding four annas per diem according to the number of days which the escort will take in going to and returning from the Court.

Rule 5.—The officer in charge of the guard shall give to the officer in charge of the jail a receipt for such prisoners as he may receive, with a statement of the clothing, &c., in each prisoner's possession, and a receipt for the amount of diet money or road expenses which has been advanced on their account. Advances required on account of the escort will be made by the District Superintendent supplying it.

Rule 6.—Should there be a jail or lock-up at the place where the Court before which the prisoners have to appear is held, the officer in charge of the escort shall deliver the prisoners to the keeper of such jail or lock-up, and shall not be responsible for their custody while they are in such jail or lock-up, but shall only be responsible for their custody while escorting them thereto, and from such jail or lock-up to the place where the court is held. Officers in charge of jails or subsidiary jails to which prisoners may be delivered for safe keeping shall likewise comply with the rules of the Jail Code relating to the receipt of prisoners by transfer.

Rule 7.—On the completion of the duty for which the escort was detailed, the District Superintendent supplying it shall, if the presence of the prisoner was required in any civil matter, submit a bill to the Court from which the requisition proceeded for the cost of the guard as fixed by the scale in Schedule A, and for the actual expenditure incurred by them on account of carriage by land or water, if the journey is not performed entirely on foot, *plus* 10 per cent. for contingencies. A separate bill should also be forwarded by the District Superintendent for the diet and travelling expenses of the prisoner or prisoners. To enable him to do so, the officer in charge of the jail from which the prisoner was transferred shall furnish him with an account of the expenses incurred.

Rule 8.—All sums received in payment of these bills shall at once be paid into the treasury of the district from which the escort started to the credit of Government as a receipt either of the Police or Jail Department, according as the amount is paid on account of the escort or the prisoners.

Rule 9.—For the guidance of the courts in estimating beforehand under section 50 the amount to be deposited by any party requiring the testimony of a prisoner in any civil matter, it is notified that the charges for escort parties have been fixed as shown in Schedule A attached to these rules, and that the average distance performed by escort parties travelling by road is ten to fifteen miles per diem. The Court should estimate for the whole time occupied in going, waiting, and returning. Where the journey is performed by rail, the cost of third class fares both ways for the whole party, including the prisoners, should be added. But if more than one prisoner is transferred, the cost of a reserved third class compartment, eight fares or not less than Rs. 5, each way, whichever is the greater amount, must be recovered. The fares by boat or steamer must be estimated on such information as the Court may itself possess. In every case four annas per diem for each prisoner's diet money, and 10 per cent. on the cost of the guard for contingencies, should be added. Any balance deficient between the amount estimated by the Court and the charge entered in the District Superintendent's bill will be recovered by the Court under section 50 of the Act.

Rule 10.—No State prisoner or prisoners under sentence of death shall be removed under Part IX of Act III of 1900 from the jail in which he may be confined without the special sanction of Government: Provided that in the case of a prisoner under sentence of death, such prisoner may be removed from the jail, without such sanction, if his presence is required by a Sessions or High Court, and for the purpose of taking additional evidence in the case under section 428 of the Code of Criminal Procedure, 1898.

The examinations will begin as stated above, and each private student will pay a fee of Rs. 2 to the head of the institution at which he appears for examination. The balance after payment of expenses (stationery, etc.) will go as remuneration to the examiners.

3 Applications for permission to appear must be sent so as to reach *this office* not later than the 1st December with the following information, etc. :—

From Private Candidates proper.

(*a*) The name of the school in which the candidate last studied
(*b*) The transfer certificate (in original) granted to the candidate from the same ; or
(*c*) In the case of a candidate who previously appeared at the Entrance Examination the Registrar's receipt (in original) for the fee paid.
(*d*) Age of the candidate.

From School-masters.

(e) A certificate from the Secretary or Proprietor of the school in which the candidate is serving to the effect that he has been a *bonâ fide* paid teacher of the school in which he teaches, and has been so ever since the 1st June 1900. In case of a school-master who has served *in more than one school*, he must produce certificates from the several schools in proof of his having been a *bonâ fide paid* teacher all along since the 1st June 1900.

Failing to produce the above certificate or certificates, a school-master will be subject to the rules applicable to *bonâ fide* private candidates, as given above.

4. If this office is satisfied that all is in order, the Inspector will countersign and return the application, and this then will be the candidate's passport for admission *to the test-examination.*

5. The Head Master of an institution (one of those named above) should direct private students to appear before him not later than the 12th January with their applications for admission to the Entrance Examination, and in the case of those candidates who have satisfied the test, he will cause them to sign their application forms in his presence, and will grant the necessary certificates, and then forward the applications to this office for countersignature, after which they will be sent by the Inspector *direct* to the candidates.

6. Expedition is necessary in carrying out all these instructions, and candidates should be *most careful* to give their names and addresses written legibly and distinctly, so that no mistake may be likely to occur.

7. *Under no circumstances should the entrance fee be sent to this office.*

8. Private students will understand that the test-examination of any schools other than those named above will not be accepted by this office.

9. Addresses of private students should be supplied to this office.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the "Gazette of India."*]

MILITARY SECRETARY'S OFFICE.

NOTIFICATIONS.

Simla, the 10th October 1900.

No. 960M.—Notice is hereby given that His Excellency the Viceroy and Governor-General will hold two Levées at Government House, Calcutta, one at 9-30 P.M. on Friday, the 21st December 1900, and the other at 9-30 P.M. on Thursday, the 3rd January 1901.

All Civil, Naval and Military Officers, Members of the Consular Body, Gentlemen whose names are borne on the Government House List, or who have already been presented at the Court of St. James, and Native Officers of the Native Regiments of the Garrison, are invited to attend one of the Levées. Gentlemen attending the first Levée are not expected to be present at the second, except Members of the Viceroy's Executive and Legislative Councils, Secretaries and Deputy Secretaries to the Government of India; and such other Officers or Gentlemen enjoying the privilege of the Private Entrée as may care to attend.

The following regulations are to be observed at His Excellency's Levées:

I.—Gentlemen who propose to attend His Excellency's Levée are requested to send their cards to the Military Secretary to the Viceroy not later than Friday, the 14th December, for the first Levée, and Thursday, the 27th December, for the second Levée, *after which dates no cards will be received,* and are also requested to bring with them two large cards with their names *clearly written* thereon—one to be left with the Aide-de-Camp in waiting in the corridor, and the other to be delivered to the Military Secretary, who will announce the name to His Excellency.

II.—Gentlemen, who have not already been presented at the Court of St. James or at the Viceregal Court, should send in their names and addresses, through the Gentlemen who propose to present them to the Military Secretary's Office *not later than Friday, the 7th December 1900, for the first Levée, and not later than Thursday, the 20th December 1900, for the second Levée,* in order that the names may be submitted to His Excellency, when, if they are approved, presentation cards will be forwarded.

III.—It is requested that Gentlemen (other than those required to be present on both occasions) whose names begin with the letters A to K will, as far as possible, attend the first Levée, and the remainder the second.

Gentlemen who are to be presented should attend the same Levée as the Gentlemen who present them.

Gentlemen wearing uniform will appear in Full Dress, Gentlemen not wearing uniform in Evening Dress.

With regard to further particulars as to dress, attention is invited to the Notification issued from this Office, No. 904M., dated the 8th September 1899, published in the *Gazette of India* of the 9th idem.

The carriages of Gentlemen having the Private Entrée will enter by the South-West Gate, and set down at the South Entrance of Government House.

All other carriages will enter by the North-East Gate, set down under the Grand Stairs, and pass out by the North-West Gate.

The 11th October 1900.

No. 961M.—Notice is hereby given that Their Excellencies the Viceroy and Lady Curzon will hold a Drawing Room at Government House, Calcutta, on Friday, the 28th December 1900, at 9-30 P.M.

Ladies whose names are borne on the Government House List, or who have already been presented at the Court of St. James, proposing to attend the Drawing Room, are requested to send their cards to the Military Secretary to the Viceroy not later than Friday, the 21st December 1900, *after which date no cards will be received*, and to bring with them to the Drawing Room two large cards with their names *clearly written* thereon—one to be given to the Aide-de-Camp in waiting in the corridor and the other to the Military Secretary, who will announce the name to Their Excellencies.

Ladies who propose to present others must send in *in writing* for approval the names of such ladies to the Military Secretary *not later than Friday, the 14th December*, when, if they are approved, presentation cards will be forwarded

Ladies who present others must themselves attend the Drawing Room.

Ladies attending the Drawing Room will appear in Full Dress, but need not wear trains or feathers.

Gentlemen having the Private Entrée themselves, and accompanying ladies to the Private Entree, will be admitted to the Throne Room.

Gentlemen accompanying Ladies by the Public Entrée will leave them at the Entrance to the Eastern Gallery and rejoin them in the Ball Room.

The carriages of those who have the Private Entrée will enter by the South-West Gate, and set down at the South Entrance of Government House.

All other carriages will enter by the North-East Gate, set down under the Grand Stairs and pass out by the North-West Gate.

The 12th October 1900.

No. 974M.—In modification of this office Notification No. 862M., dated the 19th September 1900, it is hereby notified that His Excellency the Viceroy and Governor-General will leave Simla on Thursday, the 25th October 1900.

His Excellency will visit Karachi, Bhuj, Somnath, Junagarh, Rajkot, Surat, Bombay, Bijapur, Humpi (Bellary), Mormugao, Goa, North Canara, Cochin, Quilon, Trivandrum, Tinnevelly, Madura, Trichinopoly, Tanjore, Mysore, Bangalore, Madras and Rambha, and arrive at Calcutta on Monday, the 17th December.

All covers intended to reach His Excellency the Viceroy and Governor-General during His Excellency's Tour should be addressed "His Excellency the Viceroy's Camp," without the addition of any post-town.

The party accompanying His Excellency on tour is as follows:—

- Her Excellency Lady Curzon.
- Sir William Cuningham, K.C.S.I., Foreign Secretary.
- W. R. Lawrence, Esq., C.I.E., Private Secretary.
- Major The Hon'ble E. Baring, Military Secretary.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Moghalsarai-Gaya Railway, in the district of Shahabad, will be put up to sale at 11 o'clock on Monday, the 26th November 1900, corresponding with the 20th Agrahan Fasli 1308, at Sasaram, pargana Sasaram.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Notice under Rule 19, Section II.

NOTICE is hereby given that the lease of the land specified in the Schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Nilkant Dass, and will be sold at 12 o'clock noon on the 4th January 1900, Friday, the 20th Pous 1307 B.S., at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated 12th November 1879:—

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath, not less than 25 feet in width, on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Notice.

WITH reference to notice, dated the 6th of August, sealed tenders for the conveyance of import, export and other Government stores, and for labour and the hire of boats for two periods, one of one year three months from 1st January 1901 to 31st March 1902, and one for three years three months from 1st January 1901 to 31st March 1904, will be received by the Agent for Government Consignments, Calcutta, up to noon on Saturday, the 20th October 1900, instead of the 12th.

Tenders should be superscribed "Tender for carrying contract for one year and three months," and "three years and three months," as the case may be.

Tenders must be prepared on forms to be obtained with full particulars from the undersigned.

No tenders will be received except on the prescribed form, and no additions or alterations must be made on the tender forms.

Tenders must be supported by a Bank of Bengal or Treasury receipt for Rs. 700 as earnest-money, the earnest-money to be forfeited in the event of a tender withdrawn. No tender will be received without a deposit of this earnest-money.

Tenders will be opened at noon on Saturday, 20th October 1900, at No. 5 Strand Road, in the presence of tenderers, by the undersigned, who does not bind himself to accept the lowest or any tender.

J. M. PUTTOCK, Agent for Government Consignments.

Calcutta, the 11th October 1900.

MISS SHOILABALA HAZRA IS THE daughter of the late Mrs. Hazra, who was my late wife's God-daughter. After her mother's death I took over Shoilabala with the consent of her father Mr. A. C. Hazra, and since then she has lived all these years under my protection and guardianship. During this period she has been educated by me and enjoyed the position and rights of daughter in my house. With a view to void any mistake after my death about her position and rights it is my wish that she should adopt my family name Das.

M. S. DAS.

Cuttack, 9th October 1900

I have hitherto been brought up and educated, and am being still educated, by Hon. M. S. Das. It is my wish as much as his that I should change my family name into Das. I request my friends and the public to address me henceforth as Miss Shoilabala Das.

S. B. HAZRA.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

Chittagong river—Depth of water in the outer bar.

WITH reference to Notice to Mariners No. 250, dated the 8th October, issued by this office, a telegraphic communication has been received from the Port Officer, Chittagong, stating that the water in the outer bar of the Old channel is now only 7 feet reduced. All vessels taking pilots are warned that the New channel (not buoyed) has 11 feet reduced.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.
NOTICE TO MARINERS—No. 253.
[First Publication.]
CHINA—TUNG HAI OR EASTERN SEA.
Great Yang tse bank—Shoal reported to the north-eastward of it.

THE British Admiralty has given notice (No. 560 of 1900) that information, dated 22nd August 1900, has been received from the General Manager of the Peninsular and Oriental Company that the S.S. *Socotra*, drawing 18¼ feet, when on a voyage from Japan to Shanghai, struck on a shoal north-eastward of the Great Yang tse bank at 9h. 40m. P.M. on 5th June 1900, in approximately lat. 32° 9′ N., long. 125° 7′ E., and that, when the vessel was subsequently docked, clay and stones were found adhering to the damaged portion of the bottom. A shoal, with a depth of 3 fathoms over it, has in consequence been placed on the Chart in the above position.

It is to be observed that in 1896 the P. and O. S.S. *Shanghai* reported having obtained a sounding of 9 fathoms, just after noon, in lat. 32° 1′ N., long. 125° 9′ E.: the weather at the time was fine, but foggy, and consequently no astronomical observations were obtained. On receipt of this report Notice to Mariners No. 312 of 1896 was issued, and amended afterwards by Notice to Mariners No. 613 of 1896.

In December 1896 H.M.S. *Plover* was sent to search for this reported shoal, and sounded over an area of 4 miles without finding any such depths. When this information was received, Notice to Mariners No. 340 of 1897 was issued, expunging the 9-fathom sounding from the Chart.

These are, however, not the only reports of a shoal in this locality, as in 1868 H.M. Surveying Vessel *Sylvia* searched for breakers reported by P.M. S.S. *Costa Rica* in lat. 32° 10′ N., long. 125° 3′ E., without finding any sign of danger, the depths all round being very even (about 25 fathoms) over a space of 15 square miles.

Whilst it is difficult to suppose that a danger could continuously exist on a route so much frequented as that between the Yang tse and Japan without having been more frequently reported, it is evident a bank of some sort must have existed somewhere in the neighbourhood in June last, and, until the area has been thoroughly examined, mariners are warned to avoid the locality.

It is not impossible that such banks may occasionally be formed by the deposit brought down by the Yang tse when in flood, and afterwards dispersed by wave action in the N.E. monsoon. (*Notice No. 560 of 1900.*)

This Notice affects the following Admiralty Charts:—China sea, No. 1263; Nipon island, &c., No. 2347; Hongkong to Liau tung gulf, No. 1262; Amoy to Nagasaki, No. 2412: Also, China Sea Directory, vol. III. 1894, page 518; and Suppement, 1898, page 27.

THE British Admiralty has given notice (No. 572 of 1900) that it is intended to make the following alterations and additions to the lights of port Curtis:—

1. Gatcombe head. A new *fixed* light, elevated 122 feet above high water, and visible in clear weather from a distance of 13 miles, will be exhibited showing the following sectors:—*white* from the bearing of S. 29° W., through west, to N. 70° W.; obscured from N. 70° W. to N. 45° W.; *white* from N. 45° W., through north, to N. 21° E.; *red* from N. 21° E. to N. 43° E.; *white* from N. 43° E. to the land.

   It will be shown from a cylindrical tower, 38 feet high, painted white with red dome, now being erected about three-quarters of a cable N. 11° E. from the present light.

   When this light is exhibited the present light will be extinguished.

   Approximate position, lat. 23° 53′ S., long. 151° 23′ E.

2. Near the entrance to the Boyne river, two 4th order leading lights will be established: the front light, elevated 66 feet above high water and visible 12 miles, will be shown from a skeleton tower, 30 feet high, painted white; the rear light, elevated 121 feet above high water and visible 14 miles, will be shown from a square building painted white on a hill at a distance of 9½ cables S. 75° W. from the front light

   These lights, in line S. 75° W., are intended to lead through the south channel entrance.

3. On the western slope of Gatcombe head two other leading lights will be established: the front light, elevated 32 feet above high water, will be shown from a small house; and the rear light, elevated 66 feet above high water, from a skeleton tower.

It is expected that these leading lights will be ready for exhibition shortly, but further notice on the subject will be given. (*Notice No. 573 of 1900.*)

AUSTRALIA—North-west coast.

Non-existence of Eldorado rocks and Squaw shoal.

THE British Admiralty has given notice (No. 576 of 1900) respecting an unsuccessful search for the undermentioned rocks and shoal off the north-west coast of Australia:—

1. ELDORADO ROCKS, in approximately lat. 18° 20′ S., long. 117° 45′ E., were searched for over an area of 280 square miles in their reported locality, in exceptionally clear and fine weather. Nothing, however, was seen or any indication of shoal water found, the soundings of from 160 to 350 fathoms, showing a gradual slope of the bottom to the north-westward.
   These rocks were reported to have been seen from a distance of 5 or 6 miles by M. Pertis, of the French ship *Eldorado*, on 20th May 1879, the weather at the time being cloudy with rain, and a sounding of 105 fathoms being also obtained. They appeared to consist of two rocks from 16 to 18 feet high. In 1880 the Admiralty surveying vessel *Mega* devoted several days to the search for these rocks without seeing them, and, as the *Penguin* has now been equally unsuccessful, it is considered that these rocks do not exist, and they have consequently been erased from the Charts.
2. SQUAW SHOAL, reported in 1860 as a dangerous 10-feet patch, in approximately lat. 20° 11′ S., long. 114° 17′ E., was also searched for without effect. An area of 200 square miles was sounded over in the reported vicinity of this shoal, during exceptionally clear and fine weather, with a very long ocean swell, and the bottom was found to have a gradual slope to the north-westward, the depth over the reported position being 580 fathoms globigerina ooze.
   The German frigate *Gazelle* in 1875, and the Admiralty surveying vessel *Mega* in 1880, passed over the assigned position of this danger, and H. M. surveying vessel *Penguin* on a previous voyage in 1891 passed within 1½ miles of it without seeing any indication of shoal water. It is therefore considered that this shoal cannot exist, and it has been erased from the Charts. (*Notice No. 576 of 1900.*)

FROM

THE AUDITORS OF THE ACCOUNTS OF THE COMMISSIONERS OF THE HOWRAH BRIDGE,

To

THE COMMISSIONERS OF THE HOWRAH BRIDGE, CALCUTTA.

Dated Calcutta, the 13th September 1900.

GENTLEMEN,

WE have the honour to report that the Accounts of the Howrah Bridge for the year ending 31st March 1900, have been audited under our supervision, and by our direction, and to certify that they have been found correct.

We append statements of (1) Income and Expenditure during the year under audit, and (2) Assets and Liabilities on the 31st March 1900, as obtained from your books.

The total expenditure for the year has exceeded the Budget Estimate by Rs. 7,574-3-1, without the supplementary sanction of Government, and is to that extent illegal.

We have the honour to be,

GENTLEMEN,

Your most obedient servants,

J. C. E. BRANSON,
Accountant-General, Bengal.

G. C. RAY,
Examiner of Local Accounts in Bengal.

PUBLISHED under the provisions of section 26, Act IX of 1871 and section 76 (2) of Act III (B.C.) of 1890.

By order of the Commissioners,

RESOLUTION ON THE REPORT ON EXCISE ADMINISTRATION IN THE LOWER PROVINCES FOR 1899-1900.

FINANCIAL DEPARTMENT—SEPARATE REVENUE.

Darjeeling, the 9th October 1900.

RESOLUTION—No. 1622T.—F.

READ—

The Report of the Commissioner of Excise for the year 1899-1900 with the observations of the Board of Revenue.

MR. K. G. GUPTA held the office of Excise Commissioner during the year except for three months, from the 22nd November 1899 to the 21st February 1900, when he was on privilege leave, and Mr. L. Hare acted as Commissioner. He had the direct assistance of three Deputy Collectors, one of whom was his Personal Assistant, and two were travelling Inspectors of Excise. In 19 districts, 14 of which have central distilleries, Special Deputy Collectors were employed exclusively on Excise and Income-tax work, one officer doing the work of Hooghly and Howrah, while in 26 districts Deputy Collectors of the ordinary staff were in charge of Excise in addition to their regular duties. Nine

of the most important distilleries, were in charge of Sub-Deputy Collectors, the remainder being in charge of non-gazetted officers. There were also three Railway Sub-Inspectors whose services were utilised in the supression of excise offences in districts where they had been most prevalent, while a Special Sub-Inspector was as usual employed for checking the smuggling of contraband opium and liquor to and from Chandernagore. In the executive branch of the subordinate establishment, and among the clerks in the office branch, the numbers remained the same as in the previous year, viz., 201 and 141, respectively; while an old excise daroga was replaced by a man of a superior class.

2. *Inspections.*—During the year a sufficient amount of inspection was done by the two Inspectors of Excise, who were out for 257 and 225 days respectively, while between Messrs. Gupta and Hare, the tours of the Excise Commissioner occupied 126 days. Every district, distillery and spirit depôt, most of the *ganja* warehouses, and all but eight subdivisions in the Province were inspected. * With regard to inspections by Collectors it is reported that the Excise Offices in Howrah, Murshidabad, Puri and Palamau were not inspected at all. No explanations from the Collectors of the defaulting districts are furnished in the report. In all the districts, except Champaran, in which Special Deputy Collectors were employed, the prescribed minimum of touring (150 days) was exceeded. For Deputy Collectors of the ordinary staff employed on excise work the minimum period of touring is fixed at 90 days; in 17 out of the 26 districts, the prescribed amount of touring was done; the defaulting districts being Palamau, Singbhum, Faridpur, Malda, Chittagong, Jalpaiguri, Darjeeling, Birbhum, and the Sonthal Parganas. The Board notice the large deficiency in touring in the Sonthal Parganas where it is particularly important that a sufficient amount of touring should be done. On the other hand they have decided on a relaxation of the ordinary rules of touring in favour of the Excise Deputy Collectors in Singbhum and Palamau, the Deputy Commissioners themselves taking up the work of excise inspection in their cold-weather tours.

3. *Revenue and charges.*—The excise revenue was, as in previous years, realised from fees on licenses for the wholesale and retail sale of distilled and fermented liquors and drugs, distillery fees and duty on the actual quantity of country rum, country spirit prepared in central distilleries, opium, and hemp drugs that passed into consumption. The following statement shows the gross excise revenue, the charges, net revenue, and percentage of charges on gross revenue for the last five years:—

PERIOD.	Revenue.	Charges.	Net revenue.	Percentage of charges.
1	2	3	4	5
	Rs.	Rs.	Rs.	
1895-96 ...	1,33,77,705	6,74,582	1,27,03,123	5·04

1898-99 ...	1,34,27,290*	6,74,503	1,27,52,787*	5·02
1899-1900 ...	1,39,65,984	6,85,984	1,32,80,000	4·91
Difference of the past two years.	+5,38,694	+11,481	+5,27,213	—·11

In order, however, to obtain the true figures for the net revenue derived from excise, there should be added to the charges here given Rs. 10,258 on account of refunds, and Rs. 10,976 for the excess of rewards distributed over fines realised, the latter of which are credited not to Excise, but to Law and Justice. This raises the expenditure to Rs. 7,07,218 and reduces the net revenue to Rs. 1,32,58,766, against Rs. 1,27,34,852 in 1898-99. As is remarked by the Board, the fact that the revenue of the previous year, which itself was the highest on record, has been so largely exceeded, clearly reflects the prosperous condition of the people during the year. The improvement was

shared by all but eight districts, Calcutta contributing about a quarter of the total increase. Calculated on the population ascertained at the Census of 1891 (after allowing for natural increase at the rate of seven per thousand per annum), the incidence of excise revenue per head of population during the year under review amounted to two annas and eleven pies, against two annas and ten pies in 1898-99. The net increase of Rs. 11,481 in charges is attributed to promotions and acting allowance of some Excise Deputy Collectors.

4. *Revenue by Divisions.*—Distributed according to divisions, the gross receipts for the last five years are as follows:—

Divisions.	1895-96.	1896-97.	1897-98.	1898-99.	1899-1900.	1899-1900, compared with 1898-99.

The increase was shared by all the Divisions. As usual the largest receipts were obtained in the Presidency Division, including Calcuttta, and the smallest in the Chittagong Division, while the Presidency and Patna Divisions between them contributed over half the excise revenue of the Province. The Lieutenant-Governor observes that in Mymensingh there was a falling off of Rs. 6,204 under country spirit; of Rs. 9,612 under *ganja*, and of Rs. 1,120 under opium. No satisfactory explanation of this general decline is given, and the Lieutenant-Governor would be glad to hear the result of the enquiry which has been instituted by the Board. In Bhagalpur, the aggregate falling off was still larger, but was confined to *ganja*, and has been explained.

5. The relation of the growth of consumption to the growth of revenue is illustrated by the following statistics of the four chief articles of excise:—

Articles of Excise.	Revenue.		Percentage of difference.	Consumption.		Percentage of difference.
	1898-99.	1899-1900.		1898-99.	1899-1900.	
1	2	3	4	5	6	7
	Rs.	Rs.		L. P. gallons.	L. P. gallons.	
Country spirit { Distillery	31,05,315	32,53,777	+4·8	5,30,083	5,74,952	+8·5
Country spirit { Outstill	29,92,486	32,59,962	+8·9	......	......	... ..
Country rum ...	3,15,613	3,34,325	+5·9	50,053	53,244	+6·4
				Mds.	Mds.	
Opium ...	24,01,027	24,54,877	+2·2	2,164	2,189	+1·2
Ganja ...	27,20,140	26,99,767	— ·7	4,797	4,844	+ ·1

The consumption of distillery spirit, country rum, and ganja has risen during the year to a greater extent than the revenue, and the incidence of taxation on these articles was therefore lighter than in 1898-99. As the Board remark, although both consumption and revenue are progressive under normal conditions, they do not rise in the same proportion owing to the fluctuating nature of the license fees which are generally determined by auction.

* Revised figures.

					Net increase ...	5,38,694	

The revenue shows an increase under all the heads except Beer, *Sidhi* and *Ganja*. Country spirits continue to bring in the largest revenue (46·7 per cent.) followed by Hemp Drugs (20·6), Opium (18·2), Tari (7·4), *Pachwai* (2·8), and Rum (2·1). This order is the same as that of the preceding year. The fluctuations under each separate head are discussed in detail below.

7. *Current Settlements.*—The settlements for the current year, as made up to the end of May last, show an increase of Rs. 4,37,151 as compared with the previous year, and this has been shared by all the divisions in the Province, except Chota Nagpur. The most marked increase occurred in the Patna Division (Rs. 1,81,385), followed by the Burdwan (Rs. 78,674), Rajshahi (Rs. 77,255) and Presidency (Rs. 58,349), Divisions. The decrease in Chota Nagpur (Rs. 52,825) is ascribed chiefly to the non-settlement of outstills in Palamau and Ranchi and the reduction of fees of shops in Hazaribagh, caused by the scarcity of food grains and the poor outturn of the *mahua* crop. The improvement elsewhere is undoubtedly owing to the cessation of scarcity and the bountiful harvests of the past year.

8. *Country spirit.*—Of the total revenue from country spirit, Rs. 32,53,777 was contributed by central distilleries under the three heads of license fees (Rs. 10,83,645), still-head duty (Rs. 21,00,315) and distillery fees (Rs. 69,817), and Rs. 32,59,962 by outstills, the former showing an increase of Rs. 1,48,462, and the latter of Rs. 2,67,476 over the receipts of the previous year. This reverses the order in 1898-99, when the revenue from distillery liquor exceeded the outstill revenue. The number of outstills sanctioned fell from 2,104 in 1898-99 to 2,099 in the year under review, while the number settled rose from 2,076 to 2,096. The number of shops sanctioned for the sale of

* Revised figures.

distillery spirits rose from 1,190 to 1,193, and the number settled from 1,186 to 1,192.

In the Burdwan Division, throughout which, with the exception of certain tracts in Bankura and Midnapore, the central distillery system is in force, there was an increase of Rs. 30,000 in revenue, which was shared by all the districts. Bankura shows an increase of consumption of duty-paid liquor, which is ascribed to the exertions of the special preventive staff; while the system of colouring distillery liquor, which was introduced into the district as an experimental measure, has, it is said, helped to check the smuggling of outstill liquor. There was also a considerable increase in the licit consumption of liquor in Hooghly, and it is remarked that in the Arambagh subdivision of the district, where illicit dealings have been rife, the revenue from distillery liquor has nearly trebled since 894-95. This, however, was due, at least in part, to the reduction in the rate of duty in 1895-96. In parts of the Burdwan district and the whole of Midnapore, where the existing rate of still-head duty appeared to stimulate illicit practices, the duty has been reduced from Rs. 5 and Rs. 3-12 to Rs. 4 and Rs. 3, respectively, since the close of the year. The Presidency Division, where the central distillery system prevails throughout, shows an increase of Rs. 67,633 in revenue, of which Rs. 56,257 were contributed by Calcutta alone. In Murshidabad, where the total incidence of taxation was much higher than in the neighbouring districts, the still-head duty has been reduced during the current year from Rs. 4-6 to Rs. 3. In the Rajshahi Division, with the addition for excise purposes of the districts of Purnea and Maldah throughout which area the outstill system prevails, there was an increase in revenue of Rs 24,070. The Dacca Division, where the central distillery system is in force, shows a net increase of Rs. 255. Since the close of the year the still-head duty was raised in the Faridpur and Backergunge districts from Rs. 3-12 to Rs. 4, which is the rate prevalent in the rest of the Division. In the Chittagong Division, in which the outstill system is in force and the consumption of spirit is very limited, the revenue rose during the year by Rs. 3,321. The Patna Division, which for excise purposes is taken to include the districts of Monghyr, Bhagalpur, and Hazaribagh, is under the dual system of central distilleries and outstills, *i.e.*, the principal town area is supplied with distillery liquor, whereas outstill liquor is supplied to the rest of the district. The liquor consumed in these districts is ordinarily weak, and there is a large consumption of *tari*, which is still weaker. This tract yields the largest revenue from country spirits; the amount realised in the past year being Rs. 22,96,006. against Rs. 20,81,267 in 1898-99. An increase of Rs. 5,583 in revenue is returned from the Sonthal Parganas, where the distillery system is in force. This system is also in force in the Orissa Division, with the exception of a portion of the hilly tracts of Cuttack along the frontier of the Garhjat States which, are under the outstill system. This division shows a slight decrease of Rs. 422. With the exception of a small portion of Hazaribagh and Manbhum, the outstill system is in force throughout the Chota Nagpur Division, which, excluding Hazaribagh, shows an increase of Rs. 70,759.

9. The Excise Commissioner has appended to his report a statement showing the consumption of outstill and distillery liquor in different districts of the Province, the incidence of taxation per head, and the proportion of revenue brought in by vend licence fees compared with duty. The figures show that the incidence of revenue is no greater in the distillery than in the outstill areas, that there are great inequalities of consumption between distillery districts, between outstill districts, and between the distillery and outstill areas of the same district. In commending this statement to the attention of district officers the Board write:—

"Thus, Hooghly yielded a revenue on distillery spirit which works out to 2 annas 1 pie per head of the population, whereas its neighbours, Howrah and Burdwan, yielded a total taxation at half the above rate per head. Similarly, the incidence of taxation per head in the distillery area in Patna was more than double that in Gaya and nearly four times that in Saran. The consumption of distillery liquor per 1,000 of the population was by far the largest in Patna, viz., nearly 500 gallons, while it exceeded 300 gallons in Calcutta and Monghyr, and 200 gallons in Gaya and Shahabad. Compared with these figures, the rate of consumption, which was less than 20 gallons per 1,000, in prosperous districts like

Hooghly, Burdwan and the 24-Parganas, appears to be extraordinarily small, but in the last-mentioned districts the distillery system is not confined to thickly-populated towns where the bulk of the well-to-do people who pay the drink bill reside. In the outstill areas the incidence of taxation per head was about 11 annas in Darjeeling, while it was only one pie in Chittagong and Noakhali. The incidence of taxation per head in the distillery area in Midnapore was half of that in the outstill area, while in Bankura the incidence in the distillery area was less than one-eight of that in the outstill area. Considering that the distillery areas include the townships and the more prosperous parts of these districts, it might have been expected that the taxation per head would be higher in the distillery areas than in the outstill areas. A contrary result is due to leakage of revenue by illicit dealings, as is amply shown by the numerous cases yearly brought to light in these two districts."

10. *Country rum.*—The total quantity of rum which passed into consumption from the distilleries in Sibpur and Sakri, and by importation from Shahjel anpur in the North-Western Provinces and from the distilleries in the Madras Presidency was 53,244 gallons London-proof against 50,053 gallons London-proof in 1898-99. And, as a result of this increase, the revenue rose from Rs. 2,92,200 to Rs. 3,10,577. Over three-fifths of the demand is supplied from the Shahjahanpur distillery, while the importation of Madras rum shows a marked decrease, having ceased to be profitable since the enhancement of the duty in Bengal from Rs. 5 to Rs. 6 per gallon. The consumption of rum had reached 101,541 London-proof gallons in 1891-92, when in the following year the duty was raised to Rs. 5, with the result that the consumption dropped to 80,176 gallons. Consumption remained practically stationary with a single exception, till 1897-98 in which year it was 77,979 gallons. On the enhancement of the duty to Rs. 6 in January 1898 it fell to 50,053 gallons, and the recovery during the present year has been inconsiderable. The Board express no decided opinion as to how far the falling off is due to the increase of duty and how far to competition or changes in the taste of consumers. It is, however, noticed that the falling off in rum is coincident with a large increase in the consumption of German white spirit, which is put on the market, not under its own name, but under the more attractive designation of brandy or whisky. Proposals to bring this latter traffic under control are now under the consideration of the Board. The bulk of the trade in rum is carried on through Calcutta, where the quantity imported during the year amounted to 38,676 gross gallons. Excluding the quantity exported to Assam (3,202 gross gallons) and a small quantity of 36 gallons to the North-Western Provinces and Oudh, the amount consumed in Bengal itself was 35,438, of which 25,691 gross gallons were consumed in Calcutta and 9,747 in the mufassal. The quantity further imported into the Bengal mufassal direct from Shahjahanpur amounted to 2,236 London-proof gallons.

11. *Imported liquor.*—The excise revenue from imported liquor, which consists exclusively of fees for wholesale and retail licenses, rose from Rs. 3,06,350 to Rs. 3,11,363. Nearly one-half of the total revenue was collected in Calcutta. The number of wholesale licenses was increased by 5, and that of retail licenses by 20. The changes are ascribed to the ordinary fluctuations of trade.

12. *Tari.*—The receipts from *tari*, the revenue from which is derived from license fees, for the sale of both fermented and unfermented *tari*, advanced from Rs. 10,28,219 to Rs. 10,44,668, the increase being most marked in the 24-Parganas, followed by Calcutta, Gaya, Shahabad, Saran, Muzaffarpur, Monghyr and Cuttack. In Calcutta the revenue has regained its normal condition. As usual, the bulk of the *tari* revenue was derived from the Patna Division and the districts of Monghyr and Bhagalpur, which contributed between them 63·8 per cent. of the total receipts. Since the close of the year it has been decided to abandon the idea of introducing the tree-tax system, regarding which experiments and enquiries have been made in selected areas in the Province. The result of the enquiries was to show that the prospect of deriving an increased revenue from *tari* was too doubtful to be allowed any weight in considering whether the system in question should be introduced; and that no advantages were likely to follow from the exercise of a stricter control over the trade in *tari* which would be commensurate with the evils inseparable from such a measure.

13. *Pachwai*.—The revenue derived from license fees for sale and home-brewing of *pachwai*, which includes both the rice-beer that is consumed chiefly in the districts of Western Bengal, and the millet (*marua*) beer drunk in the Darjeeling Hills rose from Rs. 4,46,441 to Rs. 4,89,873. The districts of Burdwan and Birbhum between them contributed 61·8 per cent. of the entire revenue. The total number of licenses for sale rose from 1,606 to 1,610, and the number of licenses for home-brewing rose from 8,641 to 8,701.

14. *Ganja*.—*Ganja* is grown under close supervision in a compact area in the district of Rajshahi. The revenue from *ganja* is derived from license fees and duty, which varies according to quality. The following statement shows the main statistics relating to *ganja* revenue in the last three years:—

	Licenses sanctioned.	Licenses issued.	Quantity consumed.	Revenue.
	No.	No.	Mds.	Rs.
1897-98	2,712	2,706	4,651	26,57,452
1898-99	2,711	2,699	4,797	27,20,140
1899-1900	2,711	2,701	4,844	26,99,767

The area of land brought under *ganja* cultivation during the year increased by 1,203 bighas, and the quantity produced by 2,134 maunds. The figures are curious. Cultivation and production have increased very largely, and abnormally high prices were realised by cultivators throughout the year; yet the increase in consumption has been nominal, and the revenue has fallen off appreciably. It is explained that the variety of *ganja* which contains the largest proportion of the narcotic principle, and on which the highest rate of duty is levied, was less grown and less in demand than in the previous year, and that the falling off in its sales was not compensated by the increase in the sales of the cheaper variety. The question of extending the area under *ganja* cultivation, to which reference was made in last year's Resolution, was discussed during the year under review, and it was decided to slightly extend the area up to a prescribed limit. The quantity exported to the North-Western Provinces was 411 maunds, to Nepal 159 maunds, to Assam 765 maunds, while 325 maunds were distributed between Cooch Bihar, the Garhjat States and other places.

15. *Bhang, Majum and Charas*.—The license fees and duty on *bhang*, which is also known under the name of *siddhi* and *sabzi*, declined from Rs. 67,239 to Rs. 65,164. The question of raising the duty on *bhang* came under consideration during the year, owing to the fact that the incidence of taxation derived from license fees largely exceeded the direct taxation. It was decided that while a general enhancement of the rate of duty was not desirable, it might be useful to introduce different rates of duty in different districts according to the circumstances of each. The rate of duty has accordingly been raised from eight annas to twelve annas a seer in the districts of Burdwan (Sadar and Ranigunge subdivisions), Midnapore, Hooghly, Howrah, Calcutta, and the 24-Parganas with effect from 1st October 1900. The revenue from *majum*, a sweet preparation of *bhang*, rose from Rs. 1,493 to Rs. 1,558, and from *charas*, which is the essence of *ganja* in its greatest purity and strength, from Rs. 22,058 to Rs. 23,625.

16. *Opium*.—The following statement illustrates the demand for excise opium during the last three years:—

	Licenses.	Consumption.	Revenue.
	No.	Mds.	Rs.
1897-98	2,990	2,086	23,18,598
1898-99	3,623	2,164	24,01,026
1899-1900	3,653	2,189	24,54,877

The number of permits to licensed druggists to sell opium and its preparations and poppy heads for medicinal purposes, which are included in the number of licenses above, increased by 41, while the number of ordinary licenses for retail sale fell by eleven. It is reported that *madak* and *chandu* smokers resort to French Chandernagore, and that illicit dealings are prevalent there.

The effect of the measures adopted in recent years for the prohibition of the sale of preparations of opium used for smoking was examined during the

year. The difficulties put in the way of opium-smoking appear to have resulted in some diminition of the practice which may be expected to be more marked in the future. Experience so far does not point to the expediency of special legislation for the suppression of private opium saloons, but it has been decided, with the approval of the Government of India, that while the present limit of individual possession of the preparation of opium (one tola) might be left undisturbed, the aggregate limit of possession by a party of smokers should be fixed at five tolas.

17. *Methylated spirits.*—Methylated spirits are either imported by sea or methylated locally. The quantity passed out fell from 65,619 gallons to 54,226, and the revenue from Rs. 4,611 to Rs. 3,758. This heavy fall is ascribed to the restrictions placed by the new rules upon dealers and importers, who are compelled to use caoutchoucine as a denaturalizing agent to prevent the spirit from being potable.

18. *Offences against the Opium and Excise laws.*—The number of arrests for offences against the Excise laws increased from 3,830 to 3,940. The arrest of 2.258 persons was effected by Excise Officers, while arrests by other officers, the majority of whom belong to the Police, numbered 1,682, the percentage of convictions in the cases instituted by Excise Officers being 91·6 against 88·1 in those instituted by the Police. There was a large increase in the number of arrests for illicit distillation and in the number of persons convicted, the figures being 773 and 709 against 459 and 405 in the previous year. For this increase, the Sonthal Parganas are mainly responsible. The amount of fines imposed for breaches of the Excise laws and rules was Rs. 74,896, of which Rs. 51,199, or 68·3 per cent., were realised. A sum of Rs. 62,175 was distributed in rewards to Police and Excise officers, and informers against Rs. 58,098 in the previous year.

The low percentage of fines realised, which was commented on by Government in reviewing last year's report, is explained by the Board as being due to the fact that offenders of a certain class, who form by no means an insignificant proportion of the total number, would rather undergo a short term of simple imprisonment than pay the fine imposed in excise cases. Imprisonment however does not imply remission of the fine, and the facts appear to indicate in want of energy on the part of Magistrates and the Police in realizing excise fines. It appears from the Excise Commissioner's report that the class referred to consists partly of aboriginal tribes who have always made their own liquor and for whom imprisonment has no terrors, and partly of persons arrested for offences which are frequently only technical in their nature, and become a source of oppression in the hands of unscrupulous officers. Regarding the Sonthal Parganas, which supplies the major portion of the former class of offenders, the Board observe that the figures "suggest the inference that the system is susceptible of improvement, and that at present the people are subjected to an excessive degree of harassment and annoyance." The latter class of cases shows, it is satisfactory to observe, a decrease during the year under review. It is to be hoped that it will still further diminish in future, and that the detective branch of the Excise Department will be more successful than at present in laying hands on the principal, that is the profit-making, offenders. The realization of fines, is as the Excise Commissioner observes, not in the hands of the Excise Department, but the selection of cases for prosecution, for which they are largely responsible, is a matter on which realisation of fines must be, to a great extent, dependant.

19. The thanks of Government are due to Mr. K. G. Gupta for his administration of the Department and to the Board for their supervision during the year. The Excise Commissioner expresses his obligations to the District Officers generally, and to some of them in particular, including the Hon'ble Rai Durgagati Banerjee Bahadur, C.I.E., Superintendent of Excise Revenue, Calcutta. The names of the officers specially mentioned by Mr. Gupta will be communicated to the Appointment Department.

PRELIMINARY FORECAST OF THE WINTER RICE CROP OF BENGAL FOR THE YEAR 1900.

THE following is published for general information.

F. A. SLACKE,
Secy. to the Govt. of Bengal.

The 10th October 1900.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Preliminary forecast of the winter rice crop of Bengal for the year 1900.

Explanatory.—The district returns appended to this forecast report on the state of the crop about the middle of September. In estimating the Provincial outturn, however, I have taken into consideration the rainfall during the latter part of September.

Character of the season.—The rainfall of the season up to the third week of September has already been described in the preliminary forecast on the *bhadoi* crops of 1900, which was issued by this Department on the 24th instant. Both in April and May the fall was deficient in the greater part of the Province, the total fall being much below the normal, except in South-West Bengal and in the Chota Nagpur Division, where it was considerably in excess. In June, the fall was normal in the east of the Province, and in other parts, though much interrupted, it was not deficient on the whole. The fall in July was more evenly distributed, and was fairly continuous over the greater part of the Province. The total fall for the month was much above the normal in North and East Bengal, but more or less in defect elsewhere. There was a break in the rains in August which greatly retarded the work of transplantation in many districts, especially in South Bihar. The fall in the current month has been general and exceptionally heavy in the Presidency and Burdwan Divisions, where it has injured the prospects of winter rice to some extent.

Area cultivated.—Since the publication of the final forecast of the winter rice crop of 1899, the District Officers of Midnapore, Rajshahi, Dacca, and Champaran have revised their figures for the normal area under this crop, with the result that the Provincial total of the normal area under winter rice now stands at 31,023,000 acres against 31,076,400 acres shown in the final forecast of the preceding year. The area sown with winter rice this year is estimated at 28,883,200 acres against 31,344,700 acres in 1899. The decrease in the area sown is due to the scanty and badly

distributed rainfall in the early part of the season, and also to the drought at the time of transplantation. On the whole, the season has not been altogether favourable for the winter rice crop.

Character of the crop.—It will be seen from the district returns appended to this note that out of the 45 districts in the Province, only 11 (the 24-Parganas, Khulna, Backergunj, Bhagalpur, the Sonthal Parganas, Angul, Puri, Ranchi, Palamau, Manbhum, and Singhbhum) have returned an outturn of 100 per cent. or over. In nine, the outturn is estimated at between 90 and 100 per cent., in ten others between 80 and 90 per cent., while in all the rest, except Gaya, the estimate varies between 50 and 80 per cent. Gaya with 49 per cent. shows the poorest outturn of all.

Outturn.—According to the estimates made by the District Officers, the outturn of the winter rice crop this year for the Province, as a whole, will amount to 87 per cent. of a normal crop, as compared with 90 per cent. as finally estimated last year. While the recent heavy rains have been beneficial to this crop in most parts of the Province, although the record fall in the Burdwan and Presidency Divisions will no doubt cause partial damage to the *aman* paddy there, the weather in the month of August was distinctly unseasonable, and I do not feel justified in raising this estimate beyond 88 per cent., although I am aware that the general tendency of the returns is towards an underestimate. An estimate of 88 per cent. corresponds to what was formerly known as a fourteen-anna crop.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE STATIONERY DEPARTMENT FOR 1899-1900.

FINANCIAL DEPARTMENT.—MISCELLANEOUS.

Dated Darjeeling, the 9th October 1900.

RESOLUTION—No. 1618T.—F.

READ—

Letter No. 790B., dated the 19th September 1900, from the Board of Revenue, Lower Provinces, submitting the Report on the Administration of the Stationery Department for the year 1899 1900.

THE following statement compares the value of the stocks, receipts, and issues of the Stationery Office for the past two years :—

	1898-99. Rs.	1899-1900. Rs.
Value of stores at the beginning of the year	7,17,254	7,00,633
Loss (—) by revaluing the opening balance at the issue rate of the year	—24,364	—46,813

Value of stores received during the year	27,84,250	29,19,518
Total ...	34,77,140	35,73,338
Value of stores issued during the year	28,32,062	29,69,536
Value of stores in stock at the close of the year	6,45,078	6,03,802
Gain (+) by valuing the stores in stock at the close of the years 1898-99 and 1899-1900 at the issue rates of the years ...	+55,555	+28,605
Corrected value of stores at the close of the year	7,00,633	6,32,407

2. Compared with the figures of 1898-99, there was an increase of Rs. 1,35,268 and Rs. 1,37,474 in the value of stores received and issued during the year, but that of stores in stock at the close of the year fell off by Rs. 68,226. The advance in the receipts was mainly due to an increase of Rs. 35,807 in the value of imported stores and of Rs. 82,317 in that of paper purchased from the Indian mills. The increase in the value of imported stores is attributed partly to the heavier demands of some of the indenting officers and partly to the arrival from England of white and coloured printing papers, which were indented for with a view to the comparison of price and quality of Indian papers of similar description. The rise in the value of paper locally purchased was mainly due to an increase in the demands of the Presses under the Government of India, the Governments of the North-Western Provinces and Oudh, the Punjab, Assam and Burma, the Postal Press at Aligarh, and the State Railways.

3. The issues to Local Governments, including Vernacular Departments, show a decrease of Rs. 19,238. This was due to smaller supplies to Bengal and the Central Provinces. All the other provinces show an increase. The largest increase, amounting to Rs. 77,509, took place in Burma. There was a net increase of Rs. 1,12,856 in the value of stationery used by officers and departments of the Government of India. The issues to the State Railways rose by Rs. 55,378. The fluctuations will, as usual, be explained in the reports on the consumption of stationery, which the Superintendent of Stationery submits to the several Local Governments and Administrations and to the Government of India.

4. The Lieutenant-Governor notices with satisfaction that the stock at the close of the year has been further reduced, and that that of country-made articles was less than one month's consumption.

5. The supply of water marked paper issued for use with adhesive court-fee stamps fell off by 3,969 reams, and its value by Rs. 12,703. A decrease occurred everywhere except in Assam and the Panjab.

6. The income of the Stationery Department fell off by Rs. 290, while the expenditure rose by Rs. 10,681. The advance in the expenditure is mainly attributable to an increase under the heads "Establishment," "Packing cases," "Freight," and "Landing and shipping charges." The increase in the cost of establishment was chiefly due to the employment of additional temporary hands during the year, while that under the other heads was caused by heavy despatches of stationery to Survey and Settlement Officers, to officers on famine relief works, to State Railways, and to the Presses in Burma and Upper India.

7. The total value of the different articles of stationery issued, exclusive of deficiencies in stock-taking and miscellaneous adjustments, rose by Rs. 1,39,566. The increase is mainly attributable to increased demands from the various Government Presses and State Railways for writing and printing papers; of the Survey and Settlement, Postal, and Telegraph Departments, the State Railways, and the officers on famine relief works for lithographic, carbonic, papyrographic and other kinds of papers; of the Collector of Customs, Calcutta, and State Railways for blank books; and of indenting officers generally and of Staff Officers in connection with the mobilisation scheme for type-writers and their accessories, cyclostyles and materials, press-copying books, &c.

8. The supply of papers to the various Government Presses shows a decline of Rs. 374. There was, however, an increase of Rs. 58,130 in the consumption of the Government of India Presses, of Rs. 3,380 in the Punjab, of Rs. 5,154 in Assam, and of Rs. 52,038 in Burma. The supply to the North-Western Provinces and Oudh fell off in quantity, but the value rose by Rs. 1,206, in consequence of more expensive paper being used. In Bengal, there was a decrease of 12,425 reams valued at Rs. 75,714. This decline, which is said to be partly due to the fact that a large quantity of paper had been drawn by the Superintendent of Government Printing, Bengal, in 1898-99 to work off the arrears which had accumulated at the Presidency Jail Press, will be explained by the Superintendent of Stationery in his report on the consumption of stationery and printed forms in Bengal. The other Presses are not under his control.

9. Comparison of the prices of European and country-made papers shows a difference in favour of the former on the stock obtained during the year, amounting to Rs. 86,233. In the case of eight out of eleven kinds of paper, the country-made article is considerably more expensive than that made in England, and in only one variety is there a large margin in favour of Indian paper. The Superintendent has submitted an alternative statement showing that if all the charges incidental to the landing, storage, and despatch of English papers to distant places up-country were taken into account, a net saving, amounting to Rs. 47,721, has been effected by obtaining the entire stock locally instead of from England. It is noticeable, however, that even including incidental charges, the use of country made, in preference to English, paper results in a loss of Rs. 61,846 on six out of the eleven varieties, and that almost the whole of the counterbalancing gain on the remaining five kinds is obtained on the single variety referred to above. In the absence of quotations and samples from England, which could not be obtained for want of time, contracts have been entered into with the local mills for the supply of the current year's requirements, leaving a small margin to be obtained from England should the English prices prove favourable. The Director-General of Stores has been written to for samples and prices of all kinds of paper for a three years' contract, and the Lieutenant-Governor trusts that on arrival of these samples the question of the future supply will be placed on a satisfactory basis.

10. The system of supplying newspapers and books through the Stationery Office continues to work well. The total payment on account of newspapers,

&c., amounted to Rs. 1,04,593 against Rs. 1,32,649 in 1898-99. The decrease is said to be due to the fact that in the previous year, under new arrangements, payment for foreign periodicals had to be made for two years, *viz.*, 1897-98 and 1898-99, while in the year under review payment for that year only had to be made.

11. The receipts of standard and special forms fell of by 22,527,241, while the issues rose by 1,090,534. The receipts in 1898-99 were considerably augmented by the receipt from the Press of certain forms which were due in 1897-98 and of over seven millions of High Court forms, which were not due until 1899-1900, and to this is mainly to be attributed the decrease in the year under review. The increase in issues was due to the larger demands of the indenting officers. The details of the work of the Form Branch, will, as usual, be furnished in the report on the consumption of stationery in Bengal, and will be reviewed when that report is received.

12. The receipts and charges of the Form Branch amounted to Rs. 40,616 and Rs. 44,895 against Rs. 35,385 and Rs. 47,470 in the previous year. The advance in the receipts was mainly due to the larger demands for forms by local funds in Bengal and Assam and to the sale of a larger number of service books and forms to the public in those Provinces. The falling off in the charges is attributable to reduced expenditure under the head "Contingencies."

13. The office of the Superintendent of Stationery was held by Mr. A. H. Gayer throughout the year, except for three months, when Mr. H. B. St. Leger acted for him. The Lieutenant-Governor notices with satisfaction the Board's favourable report on the work of these officers.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Board of Revenue, Lower Provinces, for information.

Ordered, also, that a copy of the Resolution, with a copy of the Report, be submitted to the Government of India, in the Department of Finance and Commerce, for information.

Ordered, also, that a copy of the Resolution be forwarded to the Superintendent of Government Printing, Bengal, for information.

By order of the Lieutenant-Governor of Bengal,

From—E. N. BAKER, ESQ., C.S.I., Secy. to the Govt. of Bengal, Municipal Dept.,
To—The Commissioner of the Burdwan Division.

I AM directed to acknowledge the receipt of your memorandum No. 269J.G., dated the 22nd September 1900, forwarding a copy of a letter from the Magistrate of Midnapore, in which he reports that Raja Jyoti Prasad Gorga, of Moisadal, has offered a sum of Rs. 5,000 towards the construction of an operating theatre for the Midnapore hospital, in order to perpetuate the occasion of the Lieutenant-Governor's recent visit to Midnapore, and has expressed the desire that the operating theatre be called "The Woodburn Operating Theatre" after His Honour's name.

2. In reply, I am directed to request that the thanks of the Lieutenant-Governor may be conveyed to the Raja for his public spirit and liberality. As there is no medical school at Midnapore, it would be a misnomer to use the term "operating theatre." It would be more suitable to style it an "operating room." With this modification I am to say that the Lieutenant-Governor has no objection to the Raja's request as to naming the room being complied with. A tablet might be put up in the room recording the fact that it was constructed in commemoration of the Lieutenant-Governor's visit to Midnapore. The plan of the new operating room should be submitted to the Inspector-General of Civil Hospitals for approval before the work is commenced.

3. I am to say that this letter will be published in the *Calcutta Gazette*.

General Summary.—There was general, and in most cases moderate, rain during the week, which has been very beneficial to the standing crops and has facilitated ploughing and sowing of the cold-weather and spring crops. More rain is still required in Dinajpur, Tippera and Chittagong. Reports of the winter rice crop are generally good except from Hooghly, Midnapore, Howrah, the 24-Parganas and Jessore, where it has been damaged to a considerable extent, and from Orissa, where also some damage has been done by the late floods. Want of fodder is still reported from the flooded tracts of the 24-Parganas, Balasore and Puri. The price of common rice shows a fall in 16 districts and a rise in 10; in the rest it is stationary.

The mean relative humidity	82
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	81
	Inches.
The total fall of rain from 7th to 13th October 1900	0·24
The average fall of the corresponding period for 24 years, Surveyor-General's Office	1·38
The total fall from 1st January to 13th October 1900	89·26
The average fall of the corresponding period for 24 years, Surveyor-General's Office	61·65

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from eye observations

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; p, passing temporary showers; dew.

ORISSA CIRCLE.

OFFICE MEMORANDUM OF THE INSPECTOR OF SCHOOLS, ORISSA CIRCLE.

Rules for appearing at the F.A. and B.A. Examinations in 1901 for candidates from the Orissa Circle who are not students of any affiliated institution.

DEPUTY INSPECTORS OF SCHOOLS, Sub-Inspectors of Schools and *bonâ fide* teachers of recognised English schools who have served as such for the full period of two academical years or for a term of six months after an examination of the same class last held by the University in the case of those only who were admitted to a former examination of that class will be admitted to the abovementioned examinations. All applications from school masters should be accompanied by certificates of length of service from the Secretaries of the schools in which they are employed, and should reach this office not later than the 5th January 1901. The application of a school master for permission to appear at the F.A. or B.A. Examination should be signed by him in the presence of the Secretary or a member of the Managing Committee of the school in which he is employed. The application should be forwarded to the office of the Inspector of Schools, Orissa Circle, for countersignature, together with the Registrar's receipt to prove, if this be the case, that the candidate has appeared at the examination in a previous year, and the certificate in proof of his having passed the Entrance or F.A. Examination, as the case may be. Such papers will be sent back to him (the candidate), who will have to send them, together with the examination fee, to the Registrar of the University direct.

2. Candidates should read carefully the form of the certificate which the Inspector of the Circle will sign, and should be careful to supply all information and documents required, including the Registrar's receipt, in the case of those who have been admitted to a former examination of the same class, without which the Inspector must decline to sign the certificate applied for.

3. By *bonâ fide* teachers of schools are to be understood teachers who hold regularly paid appointments in English schools teaching at least the Middle English course.

1 Colonel with title of Inspector-General of Civil Hospitals for the Punjab	2,000	
1 †Colonel with title of Inspector-General of Civil Hospitals and Sanitary Commissioner for Burma	2,000	
1 Colonel for Civil Medical Administration in the Central Provinces	1,800	

* The appointments of Secretaries to Surgeon-Generals with the Governments of Madras and Bombay have been abolished under the orders contained in Military Department Notification No. 260, dated the 6th March 1896.

† Added under the sanction given in the Despatch from Her Majesty's Secretary of State for India, No. 3 (Judicial), dated the 25th January 1900.

3. The Director-General of the Indian Medical Service will be the head of the amalgamated Indian Medical Services in India. It will be his duty, among other matters, to propose transfers between the Military and Civil Departments, to recommend for promotion to the administrative grades and to advise the Government on all questions relating to the admission of officers and subordinates to the Indian Medical Service, to the conduct and services of Indian Medical Officers of all grades and to the supply of medical and surgical stores. The Director-General of the Indian Medical Service and Sanitary Commissioner with the Government of India will be entitled to receive any information he desires from the Surgeon-Generals, Inspector-Generals of Civil Hospitals, Administrative Medical Officers and Sanitary Commissioners attached to the Local Governments and Administrations, and to communicate with these officers in regard to the operation of departmental rules and orders; but he will exercise no direct authority over these officers, who will be solely under the orders of the Local Government or Administration to which each belongs.

4. Officers will be selected for the abovenamed administrative offices by the Government of India for the Bengal Presidency and by the Governments of Madras and Bombay for those Presidencies respectively. Selections will be made in each Presidency from the whole Indian Medical Service of that Presidency, and the principles of selection hitherto followed in all other respects in making such appointments will be observed. The nominations by the Governments of Madras and Bombay respectively will, however, be subject to the approval of the Government of India.

The Surgeon-Generals with the Governments of Madras and Bombay will be restricted to the exercise of the functions of Administrative Medical Officers and Civil Inspector Generals of Hospitals in respect to the Civil Medical Staff and Civil Medical Institutions in their respective Presidencies. They will exercise no control over those sections of the existing medical establishments of Madras and Bombay which are composed of officers employed with the army or over the reserve of 25 per cent. for leave and casualties, the administration of which will be conducted directly under the orders of the Government of India.

Telegram to Her Majesty's Secretary of State, dated 15th September 1900.

Telegram from Her Majesty's Secretary of State, dated 26th September 1900.

RESOLUTION.—The Governor-General in Council is pleased to announce that Her Majesty's Secretary of State for India has sanctioned the following concessions to officers under the rank of Commissioner who have been personally engaged on relief operations during the famine of 1899-1900 subject to the restrictions specified below:—

2. (i) To officers who have been so employed for a period of not less than five months—
either (*a*) one month's extra privilege leave,
or (*b*) full pay instead of half pay for the first two months of furlough or other leave for which half pay is ordinarily admissible.
(ii) To officers so employed for a period of not less than ten months—
either (*a*) two months' extra privilege leave,
or (*b*) full pay instead of half pay for the first four months of furlough or other leave as above.

The expression "full pay" in clauses (i) (*b*) and (ii) (*b*) means the allowances to which the officer would have been entitled if on privilege leave. When these additional leave allowances are paid at the Home Treasury of the Government of India, they are payable at the privileged rate of 1*s*. 6*d*. per rupee.

3. The grant of the above concessions is subject to the following explanations and limitations:

(i) The concessions are admissible in any province in which there has been famine during the past and current year.

(ii) They are not admissible to any officer who has not been personally engaged in famine relief operations and whose duty has not, in the opinion of the Local Government, been so unusually arduous as to render him deserving of them, or who has been specially appointed to such duty and has been remunerated during the performance of it by special salary or allowances.

(iii) The extra privilege leave admissible under this Resolution may be taken in combination with privilege leave earned under the ordinary rules, provided that the total amount of privilege leave so taken at one time shall not exceed three months. Any balance of privilege leave which cannot be taken in consequence of the three months' limit will remain at credit to be taken under the ordinary rules.

(iv) The concessions will ordinarily cease to be admissible after the expiry of two years from the date of this Resolution, but may, with the consent of the Local Government, be carried on beyond that date in cases where the exigencies of the public service have necessitated the refusal of leave when applied for and have thus prevented the grant of the full concessions earned, within the prescribed period.

(v) An officer who has earned but has not availed himself of a leave concession notified in Financial Resolution No. 5047-P., dated 15th November 1897, for duties connected with famine or plague, may not add such concession to the concession to which he may be entitled under these orders, but may claim whichever is the greater.

(vi) Any officer eligible for the concessions admissible under this Resolution may choose between the alternatives (*a*) and (*b*) of paragraph 2 at the time he applies for leave.

ORDER.—Ordered, that this Resolution be communicated to the Departments of the Government of India; to the several Local Governments and Administrations; to the Heads of Departments under the Finance Department; to the Comptroller and Auditor-General; and to all Accountants-General and Comptrollers.

Ordered, also, that the Resolution be published in the *Gazette of India*.

CANTONMENTS.

REGULATIONS.

No 1038.—The following draft of a notification which it is proposed to issue in exercise of the powers conferred by section 26 of the Cantonments Act, 1889 (XIII of 1889), is published, as required by section 27, sub-section (1), of the said Act, for the information of persons likely to be affected thereby, and notice is given that the draft will be taken into consideration by the Governor-General in Council on or after the 20th day of November 1900.

Any objection or suggestion which may be received from any person with respect to the draft before the date fixed as aforesaid will be considered by the Governor-General in Council.

DRAFT NOTIFICATION.

In exercise of the powers conferred by section 26 of the Cantonments Act, 1889 (XIII of 1889), and in modification of the Notification of the Government of India in the Military Department No. 664, of the 16th June 1899, as subsequently amended, the Governor-General in Council is pleased to alter the Cantonment Code, 1899, to the extent set forth below.

For sections 259 and 260 of the said Code the following shall be substituted, namely:

Execution of lease with site-plan annexed.

259. (1) *When an application under this Chapter is sanctioned, the applicant shall not occupy the land nor erect any building thereon until, at his expense there shall have been prepared in counterpart and after execution, shall have been duly registered in accordance with the law for the time in force relating to the registration of documents, a lease as nearly as may be in one of the forms indicated in Schedule V hereto appended and subject to the conditions set forth in the annexure to such form or in such other form as the Governor-General in Council may be notification prescribe in this behalf.*

Explanation.—Form A in Schedule V shall be applicable to leases of land applied for by a railway company, or for the purpose of erecting a hospital, school or other public building, and to leases of land situate in a bazar. Form B shall be applicable to all other leases of land under this chapter.

(2) *To every lease and to its counterpart there shall be appended a site-plan of the land prepared at the cost of the applicant* on a scale not smaller than one hundred and ten feet to the inch, showing—

(*a*) the boundaries of the land;
(*b*) the roads or lands adjoining; and
(*c*) all buildings authorized to be erected on the land.

(3) The site-plan shall be verified by the Executive Engineer and shall be signed,—

(*a*) if the land is situate in a bazar, by the Cantonment Magistrate;
(*b*) if the land is not situate in a bazar, by the Officer Commanding the District or his principal staff officer;

and shall be endorsed with the date of its preparation, the name of the lessee and a note specifying the period within which the buildings to be erected on the land are to be completed.

(4) *One copy of the site-plan,* prepared at the cost of the applicant and verified by the Executive Engineer, shall be delivered by the *applicant* to the Cantonment Magistrate.

Grant of record of leases.

260. When the requirements of section 259 have been complied with the Cantonment Magistrate shall—

(*1*) *grant to the applicant the lease with site-plan annexed and deliver to him possession of the land:*
(*2*) *transmit for record to the head-quarters of the Command the counterpart with site-plan annexed; and*
(*3*) *record in his office a copy of the lease authenticated by his signature and accompanied by the copy of the site-plan referred to in section 259, sub-section (4).*

In Schedule V, Forms A and B, against the words "in witness," etc., the following side-note shall be added, namely:

‡ ‡ *When the parties execute on separate dates, omit the words* "the day and year first above written" *and add the dates below the signatures. The last of such dates will be entered in the commencement as the day of making the indenture.*

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned bahal and bajiafti lands, situate in the district of Balasore as escheated to Government being left by Paramoni Dassi of Balikuti, pargana Satmolang, who died intestate and without heirs, will be put up to sale at the Balasore Collectorate on the 8th November 1900, corresponding to 24th Kartik 1308 B.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The lands to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of the lands will be considered as the proprietor of the lands, and the entire proprietary right of Government in such lands will be transferred to him free of revenue in respect of bahal and with the settlement rent in respect of bajiafti lands.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to bepaid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the lands to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

MISS SHOILABALA HAZRA IS THE daughter of the late Mrs. Hazra, who was my late wife's God-daughter. After her mother's death I took over Shoilabala with the consent of her father Mr. A. C. Hazra, and since then she has lived all these years under my protection and guardianship. During this period she has been educated by me and enjoyed the position and rights of daughter in my house. With a view to void any mistake after my death about her position and rights it is my wish that she should adopt my family name Das.

M. S. DAS.

Cuttack, 9th October 1900.

I have hitherto been brought up and educated, and am being still educated, by Hon M. S. Das. It is my wish as much as his that I should change my family name into Das. I request my friends and the public to address me henceforth as Miss Shoilabala Das.

S. B. HAZRA.

AUSTRALIA—FITZROY RIVER

New cutting through the upstream portion, Upper Flats.

THE Port Master Brisbane, has given notice (No. 17 of 1900) that a New Cutting 200 feet wide, and carrying 14 feet at L.W.S., has been dredged through the upstream portion of the Upper Flats, Fitzroy River, and is now marked for Navigation.

Directions.—After passing the Upper Flats Lightship enter the cutting with leading lights and beacons in line astern bearing S. 55° E. as hitherto, and continue on that line until a black buoy boat, carrying a white light at night, is reached on the port hand, when a pair of white leading beacons, showing white lights at night, are to be brought in line astern bearing S. 38° E. ; these mark the new cutting. Continue on this lead about three-quarters of a mile, then keep a mid-channel course as hitherto.

CHINA—TUNG HAI OR EASTERN SEA.

Great Yang tse bank—Shoal reported to the north-eastward of it.

THE British Admiralty has given notice (No. 560 of 1900) that information, dated 22nd August 1900, has been received from the General Manager of the Peninsular and Oriental Company that the S.S. *Socotra*, drawing 18½ feet, when on a voyage from Japan to Shanghai, struck on a shoal north-eastward of the Great Yang tse bank at 9h. 40m. P.M. on 5th June 1900, in approximately lat. 32° 9′ N., long. 125° 7′ E., and that, when the vessel was subsequently docked, clay and stones were found adhering to the damaged portion of the bottom. A shoal, with a depth of 3 fathoms over it, has in consequence been placed on the Chart in the above position.

It is to be observed that in 1896 the P. and O. S.S. *Shanghai* reported having obtained a sounding of 9 fathoms, just after noon, in lat. 32° 1′ N, long. 125° 9′ E.: the weather at the time was fine, but foggy, and consequently no astronomical observations were obtained. On receipt of this report Notice to Mariners No 312 of 1896 was issued, and amended afterwards by Notice to Mariners No. 613 of 1896.

In December 1896 H.M.S. *Plover* was sent to search for this reported shoal, and sounded over an area of 4 miles without finding any such depths. When this information was received, Notice to Mariners No. 310 of 1897 was issued, expunging the 9-fathom sounding from the Chart.

These are, however, not the only reports of a shoal in this locality, as in 1868 H.M. Surveying Vessel *Sylvia* searched for breakers reported by P.M. S.S. *Costa Rica* in lat. 32° 10′ N., long. 125° 3′ E., without finding any sign of danger, the depths all round being very even (about 25 fathoms) over a space of 15 square miles.

Whilst it is difficult to suppose that a danger could continuously exist on a route so much frequented as that between the Yang tse and Japan without having been more frequently reported, it is evident a bank of some sort must have existed somewhere in the neighbourhood in June last, and, until the area has been thoroughly examined, mariners are warned to avoid the locality.

It is not impossible that such banks may occasionally be formed by the deposit brought down by the Yang tse when in flood, and afterwards dispersed by wave action in the N.E. monsoon. (*Notice No. 560 of 1900.*)

Gatcombe head and leading lights—Intended alteration and exhibition.

THE British Admiralty has given notice (No. 572 of 1900) that it is intended to make the following alterations and additions to the lights of port Curtis:—

1. Gatcombe head. A new *fixed* light, elevated 122 feet above high water, and visible in clear weather from a distance of 13 miles, will be exhibited showing the following sectors:—*white* from the bearing of S. 29° W., through west, to N. 70° W.; obscured from N. 70° W. to N. 45° W.; *white* from N. 45° W., through north, to N. 21° E.; *red* from N. 21° E. to N. 43° E.; *white* from N. 43° E. to the land.
   It will be shown from a cylindrical tower, 38 feet high, painted white with red dome, now being erected about three-quarters of a cable N. 11° E. from the present light.
   When this light is exhibited the present light will be extinguished.

   Approximate position, lat. 23° 53′ S., long. 151° 23′ E.

2. Near the entrance to the Boyne river, two 4th order leading lights will be established: the front light, elevated 66 feet above high water and visible 12 miles, will be shown from a skeleton tower, 30 feet high, painted white; the rear light, elevated 121 feet above high water and visible 14 miles, will be shown from a square building painted white on a hill at a distance of 9½ cables S. 75° W. from the front light.
   These lights, in line S. 75° W., are intended to lead through the south channel entrance.
3. On the western slope of Gatcombe head two other leading lights will be established: the front light, elevated 32 feet above high water, will be shown from a small house; and the rear light, elevated 66 feet above high water, from a skeleton tower.
   It is expected that these leading lights will be ready for exhibition shortly, but further notice on the subject will be given. (*Notice No. 572 of 1900.*)

AUSTRALIA—NORTH-WEST COAST.

Non-existence of Eldorado rocks and Squaw shoals.

THE British Admiralty has given notice (No. 576 of 1900) respecting an unsuccessful search for the undermentioned rocks and shoal off the north-west coast of Australia:—

1. ELDORADO ROCKS, in approximately lat. 18° 20′ S., long. 117° 45′ E., were searched for over an area of 230 square miles in their reported locality, in exceptionally clear and fine whether. Nothing, however, was seen or any indication of shoal water found, the soundings of from 160 to 350 fathoms, showing a gradual slope of the bottom to the north-westward.

These rocks were reported to have been seen from a distance of 5 or 6 miles by M. Pertis, of the French ship *Eldorado*, on 20th May 1879, the weather at the time being cloudy with rain, and a sounding of 105 fathoms being also obtained. They appeared to consist of two rocks from 16 to 18 feet high. In 1880 the Admiralty surveying vessel *Meda* devoted several days to the search for these rocks without seeing them, and, as the *Penguin* has now been equally unsuccessful, it is considered that these rocks do not exist, and they have consequently been erased from the Charts.

2. SQUAW SHOAL, reported in 1860 as a dangerous 10-feet patch, in approximately lat. 20° 41′ S., long. 114° 17′ E., was also searched for without effect. An area of 200 square miles was sounded over in the reported vicinity of this shoal, during exceptionally clear and fine weather, with a very long ocean swell, and the bottom was found to have a gradual slope to the north-westward, the depth over the reported position being 539 fathoms globigerina ooze.

The German frigate *Gazelle* in 1875, and the Admiralty surveying vessel *Meda* in 1880, passed over the assigned position of this danger, and H. M. surveying vessel *Penguin* on a previous voyage in 1891 passed within 1½ miles of it without seeing any indication of shoal water. It is therefore considered that this shoal cannot exist, and it has been erased from the Charts. (*Notice No. 576 of 1900.*)

FIRST NOTE ON THE INDIGO CROP OF BENGAL FOR SEASON 1900.

THE following is published for general information.

F. A. SLACKE,

The 14th October 1900. *Secy. to the Govt. of Bengal.*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

First note on the indigo crop of Bengal for season 1900.

Explanatory.—This forecast furnishes the first estimates of the area and outturn of indigo in the twenty indigo-growing districts of this Province. Owing to the heavy fall in the price of indigo, due to the introduction of synthetic indigo into the markets of Europe, there has been a great diminution in the area sown with this crop. The fall has so severely affected the industry in East Bengal that many factories have recently been closed, while even in North Bihar there has been a considerable contraction in the operations of many concerns. As will be seen from the note below on the estimated outturn, it seems probable that the district officers have over-estimated the area actually sown in East Bengal.

Character of the season.—The season has been unfavourable to the indigo crop. The character of the monsoon rains has been described in the *bhadoi* and winter rice

forecasts, which have been recently issued by this Department. The rain in April and May was scanty and insufficient for the sowing, germination, and early growth of the crop, while the heavy rain that followed damaged the prospects of the outturn to a great extent. The light rainfall of August has, however, proved favourable to the *khunti* crop in North Bihar.

Area sown.—The total area sown with indigo this year in this Province is estimated at 355,800 acres as compared with 441,600 acres reported in the final forecast of last year. The falling off is remarkable, and is chiefly due to the present unfavourable prospects of the industry. It is probable that the estimate of area sown is rather above the mark, and that some officers have not fully appreciated how greatly the area under this crop has fallen off in their districts.

Prospects of the crop.—From the district returns appended to this note, it will be seen that only one (Gaya, which has only 100 acres under this crop) of the 20 districts reports a normal outturn. Only two (Darbhanga and Monghyr) forecast an outturn of between 90 and 100 per cent., while two more (Jessore and Saran) anticipate an outturn of 80 per cent. only. In six districts, the outturn is estimated at between 70 and 80 per cent. Muzaffarpur returns a 65 per cent. outturn, Bankura and Rangpur estimate 50 per cent. crop each, while the estimate in other districts varies between 35 and 45 per cent. The outturn for the five indigo-growing districts of North Bihar, taken together, is given as 77 per cent. of a normal crop, but there is reason to believe that the excellence of the outturn of the *khunti* crop has been somewhat under-estimated. According to the district reports, the outturn for the Province, as a whole, comes to 71 per cent. of a normal crop against 62 per cent. as finally estimated last year. I am inclined to think, however, that this estimate is a very low one, and that the crop actually harvested is not likely to fall below 80 per cent. of the normal.

Gross outturn.—According to the estimates of the District Officers, the outturn for North Bihar will probably amount to about 52,500 factory maunds, and that for Lower Bengal to about 11,000 factory maunds. A factory maund is equal to about 75 lbs.

These figures differ very considerably from those which have been estimated by Messrs. Moran and Company, which are 61,250 factory maunds for North Bihar and 5,750 factory maunds for Lower Bengal. Allowing for an over-estimate of the area under indigo in Lower Bengal, and for there being, on the other hand, a good deal of indigo grown by native cultivators for local consumption, which would not be included in the returns of Messrs. Moran and Company, I am inclined to estimate a total outturn of about 8,000 maunds in the districts outside North Bihar. As regards the five districts which form North Bihar, viz., Muzaffarpur, Saran, Champaran, Darbhanga, and Monghyr, it seems probable that the outturn has been under-estimated; and that it is not likely to fall short of 85 per cent. all round. This figure would give a gross outturn of about 58,000 factory maunds. In these circumstances, it would appear that Messrs. Moran and Company's figures may prove somewhat high, although I am aware that their information is derived from excellent sources.

Director of the Department of Land Records and Agriculture, Bengal.

Burdwan ...	Burdwan	1,726,080	1,283,800	6,100	5,300	2,300	78	76	Owing to insufficient rainfall, the outturn is expected to be below normal.	
	Bankura	1,677,44[illegible]	642,600	2,400	2,200	1,300	50	50	The decrease in area is due to the closing of factories by Messrs. Gisborne and Company. The deficient rainfall of the year also affected the outturn.	
	Midnapore ...	3,202,600	2,190,600	1,000	1,100	1,000	65	54	The poor outturn is due to the want of seasonable rain.	
Presidency ...	Nadia	1,788,160	1,378,000	18,000	16,200	12,700	68	45	The decrease in the area sown is due to the closing of several factories in the district. The decrease in outturn is due to want of timely rain.

Presidency—concluded.	Murshidabad ...	1,373,440	985,560	25,000	22,200	16,000	67	37	The decrease in the area sown as compared with the preceding year is due to the fact that the factories are working very little, owing to chemical manufacture of indigo from coal-tar. The decrease in the estimated outturn is due to deficiency of rainfall.	The decrease in area this year has, I think, been under-estimated.
	Jessore ...	1,872,000	1,142,000	14,000	8,700	6,000	47	80	Owing to some of the factories being closed in the Jhenidah Subdivision, and to there having been no indigo cultivation in the Bongaon Subdivision this year, the area sown this year is very much less than that sown last year.	
Rajshahi ...	Rangpur	2,281,040	1,602,700	6,600	4,600	5,000	50	50	The cultivation of indigo is gradually dying out here.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS OF THE PORT OF CHITTAGONG FOR THE YEAR 1899-1900.

No. 1943Marine.

Government of Bengal.

MARINE DEPARTMENT.

Calcutta, the 16th October 1900.

RESOLUTION.

READ—

The Administration Report of the Commissioners of the Port of Chittagong for the year 1899-1900.

Financial position.

THE financial position of the Chittagong Port Fund for the past two years is shown in the following statement:—

Foreign trade.

3. The total value of the foreign trade during the year is stated to be Rs. 65,11,245, of which Rs. 9,14,886 is under imports. There is a decrease of Rs. 2,84,686 in the value of the trade as compared with that of the previous year. The largest decrease was in the importation of oils and salt and in the export of jute. The only marked increase was in the importation of railway material and in the export of rice.

Coasting trade.

4. The total value of the coasting trade is given at Rs. 1,62,92,741, against Rs. 1,46,36,197 of the previous year, showing an increase of Rs. 16,56,544. The increase as regards imports is mainly due to a higher market rate of jute as compared with last year; to a larger importation of kerosine oil from Rangoon on account of its cheapness, and of railway sleepers from Rangoon and bridge-works from Calcutta for the Assam-Bengal Railway. As regard exports, the increase is

principally due to larger quantities of rice having been sent to Cochin, Bombay and other minor ports in the Madras Presidency, and to larger shipments of cotton and paddy.

Principal articles of trade.

5. The principal articles of trade are shown in the following statement:—

				1898-1899.	1899-1900.
Exports	...	Jute	... Tons	31,354	23,696
		Grain	... "	16,272	63,471

Imports	..	Salt	... Tons	12,198	8,836
		Mineral oil	... Gals.	930,985	1,732,626

Port appliances.

6. The appliances of the Port and the Light-houses are reported to have been kept in good order during the year.

Jetty.

7. A new jetty has recently been constructed by the Assam-Bengal Railway on behalf of the Government. Since its completion, only one vessel was placed alongside of it, and loaded 1,648 bales of jute. The dues paid amounted to Rs. 128-2-0, and credited to the Assam-Bengal Railway, the work of loading having been done by the Railway. A sum of Rs. 280 was paid to the Commissioners for berthing the vessel alongside the jetty.

Earnings and expenditure of the steam-tug *Gekko*.

8. The earnings of the steam-tug *Gekko*, maintained by the Port, amounted to Rs. 10,071-1-0, while the expenditure on maintaining the vessel aggregated Rs. 31,205-12-7. The expenditure was unusually high this year, and was due to the fact that provision was made in the Commissioners' budget estimates for contribution to the Government of one-and-a-half years' instalment (with interest), which had become due on account of the loan advanced by the Government for the construction of the vessel. A saving, however, was effected by the vessel, amounting to Rs. 6,000, being the estimated value of the services performed for the Port, for which no charge was made. This, deducted from the expenditure, leaves the net expenditure on account of the vessel at Rs. 18,134-8-7. Last year, the receipts were greater, and, after deducting the expenditure, the net earnings amounted to Rs. 3,359-14-5.

Health of the shipping.

9. The general health of the shipping was good. Seventy-seven seamen were admitted into hospital against sixty-seven of the previous year, of whom fifty-eight were cured, three died, and sixteen discharged after receiving treatment.

Pilotage Fund.

10. The state of the Pilotage Fund is shown in the subjoined table:—

Proposed improvement of the entrances to the Port.

11. In February 1900, the Lieutenant-Governor received a memorial signed in London by several Companies, Associations and persons interested in tea cultivation in the districts of Assam, Cachar and Sylhet representing the importance of the Port of Chittagong to the trade of Assam generally and especially to the tea industry. The memorialists, while deprecating any undue enhancement of the charges of the Port, urged the importance of so improving the entrances to it that large steamers might be able to enter and to

load and unload cargo at all times and seasons. The matter is one of great importance, and the Lieutenant-Governor would gladly see such improvements effected. The Port Commissioners of Chittagong were consulted on the subject, and advised that, before any steps were taken which would involve expenditure, expert opinion should be taken as to the measures which might be adopted and their probable cost. A report was subsequently obtained from Mr. Apjohn, the Chief Engineer of the Calcutta Port Trust, which showed that, in his opinion, any permanent improvement of the river would involve an expenditure of ten lakhs of rupees of capital, and annual charges of about three quarters of a lakh. These sums are quite beyond the financial ability of the Port Trust and it would be impossible to provide them without either any large additions to the charges of the Port or without an assurance of very largely increased traffic. The memorialists were duly informed of these conclusions.

Pilot Service.

12. The working of the Pilot Service during the year was satisfactory. One hundred and seventeen vessels availed themselves of the services of pilots, and only one met with a slight accident.

By order of the Lieutenant-Governor of Bengal,

R. B. BUCKLEY,

Secy. to the Govt. of Bengal.

General Summary.—Slight rain fell during the week in the districts of Mymensingh, Saran, Champaran, Purnea, Angul and Puri. It is badly wanted in Burdwan, Bankura, Rajshahi, Dinajpur, Mymensingh, Tippera and Chittagong. Lands are being prepared for *rabi* crops. Prospect of crops is generally good except in the flooded tracts in Midnapore, Howrah and the 24-Parganas, and also in the Jamalpur subdivision of Mymensingh and in Tippera where more rain is wanted. Steeping and washing of jute continue. Floods are subsiding in Puri. The extent of damage by floods is still under enquiry in Howrah. Cases of cattle-disease continue to be reported from some districts. Want of fodder is reported from Tamluk and the flood-affected parts in Balasore. The price of common rice has fallen in 15 districts, risen in 12 and is stationary in the rest.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACKE,

Secretary to the Govt. of Bengal.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF SEPTEMBER 1900.

THE main features of the weather during September were—

(1) the comparative absence of cyclonic storms over the north of the Bay;
(2) the relatively high pressure in the east and north of the Province and the consequent absence of rainfall in North and East Bengal and Assam as compared with what is usual in ordinary years;
(3) the period of disturbed weather during the third week of the month, which culminated in the exceptionally heavy rainfall in Lower Bengal between the 19th and 22nd.

In the early part of the month weather conditions were not entirely without signs of disturbance over the Bay, but they were very slight and were not sufficient to cause any great increase of wind force. A slight depression passed westward at the beginning of the month, causing rainfall in considerable amount during its passage across the central parts of the country; and the steeper gradient which followed was probably the cause of the increase of wind velocity during the first week in the north-west angle of the Bay and to some distance south on the west coast. Weather inland during that time was such as usually occurs in September in the interval between the occurrence of cyclonic disturbances cloudy and showery, but with less rain than usual in the eastern districts. In fact, the high pressure which generally prevailed in the north and north-east of the Province was causing the usual deflection westward of the monsoon current.

During the early days of the month winds were much more easterly than usual, and almost every station in the Province reported the wind direction to be due east. This arrangement of the winds continued till the 5th, when, the shallow depression which had during these early days been crossing Central India began to move northwards, the area of lowest pressure in the west of the Province moved northwards and southerly winds became general Rainfall became more heavy in the northern districts for some days after that change, and till about the 9th ordinary monsoon weather prevailed.

About that date pressure began to fall in the south-east of the Bay and extended northwards, the effect being most marked in North Bengal and the adjacent part of North Bihar. The change of winds from southerly to easterly or north-easterly in the northern districts which began about the 9th was accompanied by very heavy rainfall and a rapid fall of temperature. This rainfall was probably caused by local disturbances due to the change of winds, as it lasted for only a day or two, and did not extend to other parts of the Province. But the falls of those days amounted to several inches, and were the heaviest that fell in North Bengal during the month. At the same time in East Bengal there was an almost entire absence of rainfall.

The changes of pressure during the few days subsequent to the 10th were nowhere of large amount, but the shallow depression over the Bay became slowly more definite and drifted northwards. Light northerly winds prevailed over the Province, and rainfall to a large extent ceased The low temperature which had followed the heavy rainfall in the northern districts ceased, and high temperature for the season prevailed in all districts. Weather was in all respects such as obtains during the early stage of a cyclonic disturbance over the Bay.

As the depression moved northwards, heavy rain began on the Burma coast, and on the 15th it was general and fairly heavy in East Bengal and Orissa. On that date a widespread diffused depression lay over the Province, with readings in defect by about ·08 inch in Bengal Proper and Assam; and a moderately steep gradient was shown over the Bay. This arrangement of pressure was such as usually occurs when a diffused depression has moved northwards from the Bay, and is usually accompanied by general monsoon weather and probably heavy rainfall.

Before the following day an important change had occurred. Pressure began to rise in the north-east and fall in the south-west of the Province: the area of lowest pressure was transferred to the north-west angle of the Bay, and a well defined cyclonic circulation of winds surrounded the depression whose centre was off the Orissa coast at no great distance from False Point The pressure variation from the normal was still insignificant There was defect at all the northern stations, but less than ·1 inch, except at Saugor Island and False Point, where it was ·12 inch. The depression was therefore one of slight importance and considerably below the average depth at the end of the monsoon season. By 8 A.M. on the 17th the centre had moved westward across Orissa, a depression of slightly greater extent lay over the South-Western districts, and winds were south-westerly on the Orissa coast, the highest velocity being 17 miles an hour at Saugor Island. Rainfall continued

general, except in the extreme north of the Province, and the heaviest falls were about 2 inches in Balasore. Ordinary monsoon weather prevailed with a moderately steep pressure gradient and moderately strong southerly winds over the Bay.

During the 24 hours following 8 A.M. on the 17th, an unusual change had occurred. The depression having moved westward and pressure increasing in the east, the customary change would be an increase of pressure in Bengal; but there was a brisk fall over Lower Bengal, and a new centre of disturbance was shown near Saugor Island, where pressure was nearly ·2 inch below the normal. Round this centre winds were cyclonic, but there was still the depression to the west of Orissa, and the general wind system had undergone very little change from the previous day. By 8 A.M. on the 19th the centre of low pressure which was near Saugor Island had apparently moved westward, pressure was rising rapidly in Assam, briskly in Bengal Proper, and was falling slowly in the South-Western districts. The difference from the normal varied from excess of ·1 inch in Assam to defect of ·15 inch in Orissa and the adjacent parts of South-West Bengal and Chota Nagpur, so that there was a much steeper gradient than on the previous day from east to west with easterly winds at all inland stations.

The exceptional rainfall appears to have begun by this time, as Saugor Island reported 5 inches during the 24 hours previous to 8 A.M. on 19th, and a few hours later the rain began in Calcutta. What appears to be the most significant fact towards explaining the heavy rain of the two succeeding days is the south-westerly wind at Saugor Island, a direction which is almost diametrically opposite to what might be expected from the pressure distribution prevailing at that time, a peculiarity which was very persistent till the 21st, and became even more marked before it disappeared on the 22nd, when with a similar pressure distribution the direction was E. S. E.

If the wind had been light and variable on those days, this discrepancy in direction as compared with neighbouring stations in Bengal might be overlooked, but velocity was steadily increasing, and on the 20th averaged 36 miles an hour. What may be a possible explanation is that the area of low pressure which was near Saugor Island on the 18th did not pass westward, that it ceased to be felt at the ground level, but continued to exist in the upper region of the atmosphere over South-West and part of East Bengal. This would account for the south-westerly direction of the wind at Saugor Island, the centre of disturbance having been in that case transferred north-eastward. It would also account for the cyclonic circulation of winds in South-West Bengal on the 20th, and for the great amount of ascensional motion of the air which alone could produce the fall of 20 to 30 inches in two days over an area, including the greater part of the 24-Parganas, the Sunderbans, Howrah, and Khulna. But as the pressure changes at the ground level give no indication of the existence of deficient pressure over Lower Bengal at that time, its existence can be only a matter of speculation. On the 20th the difference from normal pressure at Calcutta was only ·04 inch, and on the 21st it was ·05 inch, in both cases defect. The rainfall diminished in amount rather quickly towards the west and north, and less quickly towards the east. For the week ending at 8 A.M. on the 22nd September a fall of more than 40 inches was recorded at Kaliganj, more than 30 over a tract of country about 30 miles in breadth extending northwards from the sea coast to a little north of Calcutta, and from there eastward as far as Khulna. Falls of more than 15 inches occurred over the greater part of the Sunderbans, Backergunge, Khulna, 24-Parganas, Jessore, and Burdwan.

The rising pressure in the east continued during these days, and the pressure gradient became gradually steeper over the greater part of the Province and the Bay, but on the 22nd the rise became general over the Province, the low pressure area moved westward, and rainfall to a large extent ceased in Lower Bengal. There were still falls of 2 to 4 inches, but these were mostly in the South-Western districts. The rise of pressure moved westward, and readings were in excess over the whole area from the 23rd onwards till the 27th, when the depression having recurved and moved northwards affected weather and caused heavy rainfall in the west of Bihar. On the 28th the disturbance ceased to exist, the depression having broken up on reaching the Himalayas.

While the heavy rain was falling in south of the Province, very little fell in North Bengal and Bihar, but temperature was unusually low over almost the whole area. Defect was greatest in the region of heavy cloud and rain, and was for several days on an average little short of 10° below the normal. In the Central and Northern districts defect varied from 5° to 8°. This defect slowly disappeared, and it was not till the 27th that mean temperature was approximately normal over the greater part of the Province.

At the end of the month after the depression finally disappeared, the pressure distribution rapidly changed. Pressure fell over the Bay and rose inland, so that readings became highest in the northern districts and lowest in the south, the first indication of the approaching change of season. Light northerly winds prevailed with comparatively low temperature, except in the extreme east, cloudless skies and only a few scattered showers.

Pressure changes were never very large at any time during the month, as the only depression, viz., the one which occurred in the third week and give rise to the heavy rainfall in Lower Bengal, was of less than average depth, but there was a very steep pressure gradient from east to west on the 20th and for some days before and after. The main feature of the distribution almost throughout the month was the relatively high pressure in Eastern districts

and low pressure in the south-west, so that the winds were more easterly than usual over the Province. This had an important effect on the rainfall distribution, as North and East Bengal received considerably less than the usual amount and all other divisions amounts largely in excess of the normal. The average excess for the month was more than ·05 inch in Assam, North Bengal, and the eastern half of East Bengal, about ·03 inch in Bihar and the Central districts, while pressure for the month was practically normal in the south of Orissa.

Temperature was unusually low over almost the whole Province during the period of disturbed weather which continued from the 19th for several days. This low temperature was later than usual in ceasing after the disturbance was over, and had not altogether disappeared till the close of the month. Previously there had been considerable excess, and in the early part of the month practically normal temperature prevailed, so that the means were not affected to any great extent by the low readings of the latter half. Mean defect for the month was 1°·4 in Bihar, 1° in Chota Nagpur and South-West Bengal, and half a degree in North Bengal. Elsewhere the difference from the normal was small.

Rainfall was comparatively light in the Eastern districts, but in the south and west there was everywhere a large excess owing to the exceptionally heavy rain which was caused by the disturbance at the end of the third week. The average fall for the whole of South-West Bengal was 24 inches, Orissa 18, Chota Nagpur 16, Bihar 11, and East and North Bengal about 10.

The variation from the normal in those divisions was on an average excess of [illegible] inches in South-West Bengal, 7·6 in Chota Nagpur, 7 in Orissa, and 2·4 in Bihar, defect of [illegible] inches in North Bengal and about 1 inch in East Bengal.

It will be seen from the above average figures that the rainfall for the month did not differ to any great extent from the normal amounts, except in the South-Western districts, where the heavy falls occurred at the end of the third week, and with regard to these it is unnecessary to give a detailed account as they are fully reported in the rainfall table accompanying this summary. The heaviest falls occurred in the 24-Parganas, the Sunderbans and Khulna, from which amounts diminished rather rapidly in all directions, but most towards the west and north. The heaviest falls for the month were [illegible] inches at Kaliganj in the Khulna district, 46 inches at Serampore, Alipore and Barasat, and more than 40 inches at Howrah, Diamond Harbour, Barrackpore, and Dum-Dum. Most of the falls in Midnapore were between 15 and 25 inches, in Burdwan under 20 inches, Nadia between 15 and 20 inches, in Jessore about 20 inches, so that falls of more than 30 inches were almost all in the 24-Parganas and the adjacent parts of Khulna and the Sundarbans.

The variation from the normal is very great over the whole of South-West Bengal and large in Orissa and Chota Nagpur, diminishing from upwards of 30 inches over the greater part of the 24-Parganas and part of the adjacent districts to about 1 inch in the west and north-west of the Province. In the east, over the greater part of North Bengal and the eastern half of East Bengal, there was everywhere deficient rainfall. Defect was about 5 inches in Chittagong, and in North Bengal it ranged up to 23 inches at Baxa. Over the greater part of Jalpaiguri district it was over 10 inches and in Cooch Behar 7 inches. In Behar excess amounts varied from about 1 inch in the west to nearly 10 inches in the Purnea district.

The following table gives a condensed summary of the rainfall statistics of the present year up to date for each meteorological division, the first nine columns giving the actual average falls in each division for each month expressed as a percentage of the normal, while the tenth column gives the actual rainfall of the first nine months as a percentage of the normal rainfall for that period:—

The following table contains full data for the comparison of the actual and normal rainfall of the month of September in all districts of the province. The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance or weight being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the monthly meteorological tables.

The first column gives the normal or average district rainfall as determined from the rainfall observations of the past 25 years; the second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in each district; the third column expresses the ratio of the actual district fall of the past month to the normal rainfall as a percentage; and the fourth column states as a percentage now much the district rainfall for the month varied from the normal:—

The average fall of the corresponding period for 24 years, Surveyor-General's Office	0·85
The total fall from 1st January to 20th October 1900	89·26
The average fall of the corresponding period for 24 years, Surveyor-General's Office	62·50

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, nd from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the ermometers are verified and the readings have been corrected to a standard constructed and verified at the ew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet ove the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, rmerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in e Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

(*a*) The decrease is chiefly due to the running of several extra troop trains from Allahabad to Kidderpore Docks and from Umballa Cantonment and [illegible] Bombay in 1899.

(*b*) The decrease is chiefly due to heavier upwards despatch of food-grains from almost all the principal stations in the corresponding period of 1899, the t[illegible] on the lower districts during the week having been seriously affected by the abnormal rainfall.

(a) The increase is chiefly due to the "Doorga Puja" traffic and to conveyance of troops.
(b) The decrease is chiefly due to heavier upwards despatch of food-grains from almost all the principal stations in the corresponding period of 1899, and is also in coal traffic.

ORISSA CIRCLE.

OFFICE MEMORANDUM OF THE INSPECTOR OF SCHOOLS, ORISSA CIRCLE.

Rules for appearing at the F.A. and B.A. Examinations in 1901 for candidates from the Orissa Circle who are not students of any affiliated institution.

DEPUTY INSPECTORS OF SCHOOLS, Sub-Inspectors of Schools and *bonâ fide* teachers of recognised English schools who have served as such for the full period of two academical years or for a term of six months after an examination of the same class last held by the University in the case of those only who were admitted to a former examination of that class will be admitted to the abovementioned examinations. All applications from school masters should be accompanied by certificates of length of service from the Secretaries of the schools in which they are employed, and should reach this office not later than the 5th January 1901. The application of a school master for permission to appear at the F.A. or B.A. Examination should be signed by him in the presence of the Secretary or a member of the Managing Committee of the school in which he is employed. The application should be forwarded to the office of the Inspector of Schools, Orissa Circle, for countersignature, together with the Registrar's receipt to prove, if this be the case, that the candidate has appeared at the examination in a previous year, and the certificate in proof of his having passed the Entrance or F.A. Examination, as the case may be. Such papers will be sent back to him (the candidate), who will have to send them, together with the examination fee, to the Registrar of the University direct.

2. Candidates should read carefully the form of the certificate which the Inspector of the Circle will sign, and should be careful to supply all information and documents required, including the Registrar's receipt, in the case of those who have been admitted to a former examination of the same class, without which the Inspector must decline to sign the certificate applied for.

3. By *bonâ fide* teachers of schools are to be understood teachers who hold regularly paid appointments in English schools teaching at least the Middle English course.

CUTTACK,
The 11th October 1900.

J. A. REUTHER,
Inspector of Schools, Orissa Circle.

Frictional and Voltaic Electricity.—Omitting Articles 783, 784, 803, 805, 816, 817, 854, 869, 870, 903; the latter half of Article 905 (after page 907); Articles 909, 912, 913, 914, 915, 916, 919, 920, 932, 933, 936, 937, 938, 939, 941, 942, 943, 945, 946, 947, 948, 963, 964, Chapter VII; Articles 978, 979, 981, 985, 993, 994, 995, 998, 999, 1001, 1002, 1003, Chapter X, and subsequent pages.

HONOUR COURSE.

Ganot ...	... Physics (15th edition, 1898), omitting Chapter X of Book X and the Elementary Outlines of Meteorology and Climatology.
S. P. Thompson	... Elementary Lessons on Electricity and Magnetism (edition 1895).
Tait ...	... Heat.
Jevons ...	... Principles of Science (2nd edition), omitting Books I and II.

PRACTICAL EXAMINATION.

PASS COURSE.

Schuster and Lees ... Intermediate Course of Practical Physics;
Part II.—Section V. Exercises I, II.
Sections VIII, IX, XIII.
Part III—Section XV, Exercises I, II.
Part IV.—Sections XXII, XXIII.
Part VI.—Section XXXIV.
Part VII.—Section XXXVII.

HONOUR COURSE.

Schuster and Lees ... Intermediate Course of Practical Physics. In addition to the portions prescribed for the Pass Course, the following:—
Part II.—Sections VI, X, XI, XIV.
Part III.—Section XVII.
Part V.—Section XXXII.

CHEMISTRY.

PASS COURSE.

Newth ...	... A Text-book of Inorganic Chemistry (latest edition).
Chapman Jones	... An Introduction to the Science and Practice of Qualitative Chemical Analysis:—Inorganic.

HONOUR COURSE.

Newth ...	... A Text-book of Inorganic Chemistry (latest edition).
Tilden ...	... Introduction to the Study of Chemical Philosophy (latest edition).
Perkin and Kipping	... Organic Chemistry (Part I).
Chapman Jones ...	... An Introduction to the Science and Practice of Qualitative Chemical Analysis:—Inorganic, *or*
Valentin ...	... Qualitative Chemical Analysis.

PHYSIOLOGY.

PASS COURSE.

Huxley ...	... Elementary Lessons in Physiology edited by Sir M. Foster.

(*For Practical Examination.*)

Stirling ... ... Outlines of Practical Physiology.
(*a*) *Chemical Physiology.*—Blood coagulation and Hæmoglobin; Gastric Digestion; Urine (normal).
(*b*) *Experimental Physiology.*—The Frog's Heart,—Beating of the Heart,—Effect of Heat and Cold—Section of the Heart, pages 220-224; Stannius's Experiment, page 228; The Laryngoscope—Vowels, pages 268-270; Reflex Action—Action of Poisons—Knee-jerk, pages 271-274; Eye—Formation of Image, pages 276-280; Touch, Smell, Taste, Hearing, pages 304-308.

Stirling ... ... Practical Histology,—Histology of the Kidneys, Liver, Spleen, Lungs, Endothelium, Blood, Muscle-fibre, Nerve-fibre.

HONOUR COURSE.

Kirke ... ... Hand-book of Physiology.

(*For Practical Examination.*)

Stirling ... ... Outlines of Practical Physiology.
(*a*) *Chemical Physiology.*—(i) The Proteids; (ii) Blood Hæmoglobin; (iii) Digestion—Salivary, Gastric, Pancreatic, Glycogen in the Liver; (iv) Urine—Volumetric Analysis for Urea; Sugar in Urine, Qualitative and Quantitave.
(*b*) *Experimental Physiology.*—(i) Nerve—Muscle Preparation—Stimulation of Nerve—Mechanical, Chemical and Thermal Stimuli, pages 164—167; (ii) The Frog's Heart—Stannius's Experiment, pages 220—229; (iii) The Laryngoscope—Vowels, pages 268—270; (iv) Reflex Action—Action of Poisons—Knee-jerk, pages 271—274; (v) Formation of an Image, &c., pages 276—283; (vi) The Ophthalmoscope, pages 302—304; (vii) Touch, Smell, Taste, Hearing, pages 304-308.

Stirling ... ... Practical Histology—Histology of the Liver, Spleen, Kidneys, Endothelium, Blood, Muscle-fibre, Nerve-fibre, Bone, Cartilage, Heart-muscle, Epithelium, Ovary.

BOTANY.

PASS COURSE.

Prantl and Vines ... Text-book of Botany.
Oliver ... ... First Book of Indian Botany.
Bower ... ... Practical Botany for Beginners (Macmillan & Co.), pages 1—51, 76—107, 125—133, 150—178, 223—235, 244, 245.

HONOUR COURSE.

Prantl and Vines ... Text-book of Botany.
Oliver ... ... First Book of Indian Botany.
Vines ... ... Lectures on the Physiology of Plants.
Bower ... ... Practical Botany for Beginners (Macmillan & Co.).

ZOOLOGY.

PASS COURSE.

Claus-Sedgwick ... Elementary Text-book of Zoology, Vol I, General Part and Special Part, Protozoa to Insecta; Vol. II, Special Part, Mollusca to Man.

Parker and Parker ... Practical Zoology (Macmillan & Co.), pages, 1—228, 346—402, substituting two or three Indian decapods for the Crayfish and using any common species of tank mussel in place of *Anodonta Cygnea*, pages 414—465, using any *Elasmobranch* of convenient size to be found in the market.

HONOUR COURSE.

Claus-Sedgwick ... ... Elementary Text-book of Zoology, Vol. I, General Part and Special Part, Protozoa to Insecta; Vol. II, Special Part, Mollusca to Man.

Parker and Parker ... Practical Zoology (Macmillan & Co.).

GEOLOGY.

PASS COURSE.

Geikie ... ... Text-book of Geology.

Cole ... ... Aids to Practical Geology.

Medlicott and Blandford ... Manual of the Geology of India (2nd edition) by Oldham.

HONOUR COUSE.

Geikie ... ... Text-book of Geology.

Cole ... ... Aids to Practical Geology.

Zittel ... ... Text-book of Palæontology, translated by C. R. Eastman, Ph. D., Vols. I and II.

Medlicott and Blandford ... Manual of the Geology of India (2nd Edition) by Oldham.

MINERALOGY.

(PASS COURSE).

Rutley ... ... Mineralogy.

Rutley ... ... Rock-forming Minerals.

Cole ... ... Aids to Practical Geology.

HONOUR COURSE.

Dana ... ... Text-book of Mineralogy.

Alfred Harker ... ... Petrology for Students, Cambridge, 1895. (Cambridge Natural Science Manuals.)

Cole ... ... Aids to Practical Geology.

B.Sc. EXAMINATION, 1903.

MATHEMATICS.

PASS COURSE.

Subject II.—Statics and Dynamics—

Loney ... ... Elements of Statics and Dynamics.

Subject X.—Hydrostatics and Astronomy—

Greaves ... ... Hydrostatics, Chapters I—VIII (omitting Articles 24—34, 37—39, 47, 57, 62—66, 72, 80, 90, 101, 106, 109-110, 114—120).

(or the corresponding portions of S. B. Mukerjee's Elementary Hydrostatics).

Parker ... ... Elements of Astronomy (omitting Chapter XIV).

HONOUR COURSE.

Subjects II and X—

Loney ... ... Elements of Statics and Dynamics.

Maxwell ... ... Matter and Motion, Chapter III, and Articles 96 and 97 only.

Greaves ... ... Hydrostatics, Chapters I—VIII (omitting Articles 32—34, 72, 101, 106, 109-110, 114—120).

(or the corresponding portions of S. B. Mukerjee's Elementary Hydrostatics).

Parker ... ... Elements of Astronomy, omitting Chapter XIV.

Salmon ... ... Conic Sections (6th edition), Chapters I—III, V—VIII, to the end of the Article 116, and Chapters X—XIII.

(or any other book covering the same ground).

Williamson ... ... Differential Calculus (8th edition), Chapters I—V, IX, XI—XVIII.

Edwards ... ... Integral Calculus for Beginners, Chapters I—X.

MATHEMATICAL AND EXPERIMENTAL PHYSICS.

(THEORETICAL PORTION.)

PASS COURSE.

Ganot ... ... Physics (15th edition, 1898).

General properties of Matter.—Omitting Books I, II, III, IV, *with the exception of* articles 88, 89, 90, 91, 98, 183 and 184.

Sound.—The whole book is to be read.

Heat.—Omitting articles 364, 395, 396, 409, 451, 483, 484, 485, 489, 494, 495, 496, 497 and 510.

Light.—Omitting articles 593, 604, 620, 621, 622, 623, 624, 626, 627, 631, 632, 634, 640, 641, 642, 645, 647, and Chapter VIII.

Magnetism.—Omitting Articles 716, 729, 736, 740, 741, 743.

Frictional and Voltaic Electricity.—Omitting Articles 783, 784, 803, 805, 816, 817, 854, 869, 870, 903; the latter half of Article 905 (after page 907); articles 909, 912, 913, 914, 915, 916, 919, 920, 932, 933, 936, 937, 938, 939, 941, 942, 943, 945, 946, 947, 948, 963, 964, Chapter VII; Articles 978, 979, 981, 985, 993, 994, 995, 998, 999, 1001, 1002, 1003, Chapter X, and subsequent pages.

HONOUR COURSE.

Ganot ... ... Physics (15th edition, 1898), omitting Chapter X of Book X and the Elementary Outlines of Meteorology and Climatology.

S. P. Thompson ... Elementary Lessons on Electricity and Magnetism (edition 1895).

Tait ... ... Heat.

Jevons ... ... Principles of Science (2nd edition, omitting Books I and II).

PRACTICAL EXAMINATION.

PASS COURSE.

Schuster and Lees ... Intermediate Course of Practical Physics.

Part II.—Section V. Exercises I, II.

MENTAL AND MORAL SCIENCE.

The following books are recommended to be used in studying the subject of Mental and Moral Science as defined by the Syllabus prescribed :—

GENERAL.

Ward ...	... "Psychology" (Encyclopædia Britannica).
Spencer ...	... Principles of Psychology.
Ladd ...	... Outlines of Physiological Psychology.
Mill ...	... System of Logic.
Venn ...	... Empirical Logic.
Sidgwick ...	... Methods of Ethics.
Martineau ...	... Types of Ethical Theory.
Caird ...	... Introduction to the Philosophy of Religion.
Martineau ...	... A Study of Religion, 2nd edition.
Green ...	... Prolegomena to Ethics.
Aristotle ...	... Politics (English Translation by Jowett or Welldon).
Ueberweg ...	... History of Philosophy.
Erdmann ...	... Ditto. Vols. I and II.
Madhavacharyya	... Sarva-darsana Sangraha, translated by Cowell and Gough (the Nyaya, Charvaka, Sankhya, and Bauddha systems).
Vyasa and Sankara	... Vedanta Sutras with Bhashya, as in Part I of George Thibaut's Translation, Introduction only, pages i—xxx.

SPECIAL.

Kant ...	... Transcendental Analytic, Book I (Analytic of Concept, as in Max Müller's translation of Kant's Critique of Pure Reason).

The examination in Mental and Moral Science shall be on the subject as defined by the Syallabus, and shall not necessarily be confined to the books recommended to be used in studying the subject.

MATHEMATICS.

GROUP A.

Hall and Knight	...	Higher Algebra ; Chapters XIX—XXXIV.
Todhunter ...	...	Trigonometry, edited by Hogg.
Casey ...	...	Spherical Trigonometry.
Burnside and Panton	...	Theory of Equations (3rd edition).
Salmon ...	...	Conic Sections.
Salmon ...	...	Geometry of Three Dimensions, the Course selected by Dr. Salmon for Junior Readers.
Williamson ...	...	Differential Calculus (8th edition).
Williamson ...	...	Integral Calculus (7th edition).
Murray ...	...	Introductory Course in Differential Equations.
Todhunter ...	...	Analytical Statics, Ed. Everett.
Williamson and Tarleton	...	Dynamics (2nd edition), Chapters I—VIII.
Minchin ...	...	Hydrostatics and Elementary Hydrokinetics, omitting Chapter VIII.
Godfray ...	...	Astronomy.
Newton ...	...	Principia, Sections I, II, III.

GROUP B.

Salmon or Smith	...	Conic Sections, Chapters I-XIII.
Smith ...	...	Solid Geometry, omitting Chapetrs VII and IX.
Williamson ...	...	Differential Calculus (8th edition).
Williamson ...	...	Integral Calculus (7th edition), omitting chapter XII.
Minchin ...	...	Statics (Vols. I and II), omitting Chapters XIV, XVI and XIX and also Articles 280—296, 349—354.
Routh ...	...	Dynamics of a Particle.
Routh ...	...	Elementary Rigid Dynamics, Chapters I—V.
Besant ...	...	Hydro-Mechanics, Part I (Hydrostatics).
Bassett ...	...	Elementary Treatise on Hydrodynamics and Sound, omitting Chapters VII—VIII.
Godfray ...	...	Astronomy.
Newton ...	...	Principia, Sections I, II, III, IX, XI.

NOTE.—Candidates are recommended to read Murray's Differential Equations (short course).

NATURAL AND PHYSICAL SCIENCE.

A.—CHEMISTRY.

Mendeleéff ...	...	Principles of Chemistry, Vols. I and II. Translated by George Kamensky and edited by A. J. Greenaway.
Richter ...	...	Organic Chemistry, translated by Smith. The portions in large type are considered of special importance, and the portions in small type of subsidiary importance, and of these latter portions only a general knowledge is required.
Valentin ...	...	Qualitative Chemical Analysis.
Clowes and Coleman	...	Quantitative Analysis (latest edition).
Ostwald ...	...	The Scientific Foundations of Analytical Chemistry (translated by G. McGowan).
Meyer ...	...	Outlines of Theoretical Chemistry.

B.—HEAT, ELECTRICITY AND MAGNETISM AS PRINCIPAL SUBJECTS, WITH LIGHT AND SOUND AS SUBSIDIARY SUBJECTS.

Principal Subjects.

Maxwell ...	...	Elementary Treatise on Electricity.
J. J. Thomson ...	...	Elements of Electricity and Magnetism.
Christiansen ...	...	Theoretical Physics, Chapters VII—XI.
Hertz ...	...	Electric Waves.
Faraday ...	...	Experimental Researches in Electricity, Volume 1.
Preston ...	...	Theory of Heat.
Maxwell ...	...	Theory of Heat (latest edition).
Fourier ...	...	Theory of Heat, Chapters I and II.
Stewart and Gee	...	Practical Physics, Volume II.
Glazebrook and Shaw	...	Practical Physics, Chapters VIII—XIII (omitting Section 31).

Subsidiary Subject.

Daniell ...	... Text-book of the Principles of Physics (3rd edition), Chapters V, XIV and XV.

C.—LIGHT AND SOUND AS PRINCIPAL SUBJECTS, WITH HEAT, ELECTRICITY AND MAGNETISM AS SUBSIDIARY SUBJECTS.

Principal Subjects.

Preston ...	... Theory of Light.
Heath ...	... Elementary Treatise on Geometrical Optics.
Helmholtz ...	... Sensations of Tone, Introduction, and Chapters I—VIII.
Everett ...	... Vibratory Motion and Sound.
Donkin ...	... Acoustics.
Glazebrook and Shaw	... Practical Physics, Chapters VIII—XX.
Poynting and Thompson	... A Text-book of Physics—Sound.

Subsidiary Subjects.

J. J. Thomson ...	... * Elements of Electricity and Magnetism.
Balfour Stewart ...	... Heat (latest edition).

M.A. EXAMINATION, 1903.

ENGLISH.

Chaucer ...	... Clarendon Press Series (small edition), Vol. II (omitting the Rime of Sir Thopas).
Shakespeare ...	... King Lear, Henry VIII, Twelfth Night, Hamlet.
Ben Jonson ...	... The Alchemist.
Milton ...	... Paradise Regained.
Pope ...	... Satires and Epistles
Tennyson ...	... In Memoriam.
Sir Thomas Browne	... Hydriotaphia or Urn Burial.
Bacon ...	... Advancement of Learning, Books I and II.
Emerson ...	... Representative Men.
Mathew Arnold ...	... Essays in Criticism (Series I and II).
Holmes ...	... Autocrat of the Breakfast Table.
George Eliot ...	.. Romola.

Permanent Subjects.

Morris ...	.. Historical Outlines of English Accidence.
Smith ...	... Students' Manual of the English Language.
Taine ...	... History of English Literature, translated by Van Laun.
Dowden ...	... Shakespeare: a Critical Study of his Mind and Art.
Sweet ...	... Anglo-Saxon Primer.
Sayce ...	... Introduction to the Science of Language.

GREEK.

Homer ...	... Iliad, Books I—XII.
Pindar ...	... The whole.
Æschylus ...	... Prometheus; Agamemnon; Eumenides.
Sophocles ...	... Œdipus Tyrannus; Ajax; Antigone.
Euripides ...	... Hecuba; Medea; Ion
Aristophanes ...	... Knights; Clouds; Frogs; Birds.
Herodotus ...	... Books II and III, to the end of Chap. LXVI.
Thucydides ...	... Books VI, VII, VIII.
Demosthenes ...	... Orations against Leptines and Meidias, De Falsa Legatione.
Plato ...	... Republic; Theætetus.
Aristotle ...	... Politics.

Permanent Subjects.

Sayce ...	... Introduction to the Science of Language.
Mahaffy ...	... History of Classical Greek Literature.

Also passages from authors not prescribed beforehand to be translated into English.

LATIN.

Virgil ...	... Bucolics (with the exception of II); Georgics; Æneid, Books I—VI.
Horace ...	... Odes; Epodes; Satires, I (with the exception of 2 and 8); Epistles, I; De Arte Poetica.
Juvenal ...	... Satires (except II, VI and IX).
Persius ...	... Satires.

* The questions on J. J. Thomson's work shall not be so difficult as those in Group B.

Lucretius	...	... Books I, V and VI.
Catullus	...	... 1, 2, 3, 4, 9, 12, 22, 30, 31, 46, 49, 51, 63, 64, 65, 68.
Plautus	...	... Aulularia; Trinummus.
Terence	...	... Andria; Heauton Timoroumenos.
Livy	...	... Books XXI—XXV.
Sallust	...	... Bellum Catilinarium; Bellum Jugurthinum.
Cicero	...	... Second Philippic; De Natura Deorum.
Tacitus	...	... Histories.

Permanent Subjects.

Sayce	...	... Introduction to the Science of Language.
Cruttwell	...	... History of Roman Literature.

Also passages from authors not prescribed beforehand to be translated into English.

HEBREW.

Isaiah.	Psalms.	Song of Solomon.
Jeremiah.	Proverbs.	Daniel.
Ezekiel.	Job.	Ezra.
The Minor Prophets.	Ecclesiastes.	Nehemiah.

Permanent Subjects.

Robertson Smith		... Old Testament in the Jewish Church.
Davidson	...	... Introduction to the Old Testament.
Ewald	...	... History and Antiquities of Israel.
Sayce	...	... Introduction to the Science of Language.

SANSKRIT.

GROUP A.

Sríharsha	...	... Naisadhacharita, Cantos I—III.
Kálidása	...	... Vikramorvasí.
Kálidása	...	... Meghadúta.
Bhavabhúti	...	... Mahávíracharita.
Súdraka	...	... Mrichchhakatika.
Visákhadatta	...	... Mudrá—Rákshasa.
Bánabhatta	...	... Kádambari, Purvabhága.
Vyása and Sánkara		... Vedánta—Sútra and Bháshya, first four Sútras of the 1st Adhyáya, and 1st and 2nd Pádas of the 2nd Adhyáya.
Gautama and Visvanátha		... Nyáya Sútra and Vritti, Chapters I—IV.
Váchaspati—Misra		... Tattva—Kaumudi.
Upanishad	...	... Katha, with Sankara Bháshya.
Rigveda	...	... Hymns from the Rigveda Sanhitá, as edited by P. Peterson.
Vyása	...	... Bhagavadgítá.
Pánini	...	... Vaidika Prakriyá, Káraka and Samása, as contained in Siddhánta—Kaumudi.
Manu	...	... Manu—1, 2, 3, 4, 7, 8, 12.
Mammata Bhatta		... Kávya—Prakása.

Permanent Subjects.

Max Müller	...	... Science of Language, Vols. I—II.
Muir	...	... Sanskrit Texts, Vol. V.

Students may take up the Inscriptions of Asoka instead of one of the following:—
(a) Nyáya—Sutrá and Vritti (limited as above).
(b) Tattva—Kaumudi and Vedánta—Sútra (limited as above).

GROUP B.

(a) Vedánta—Sútra, with Sankara Bháshya.
I Adhyáya—I Páda.
II Adhyáya—I and II Pádas.
IV Adhyáya—IV Páda.
Rámánuja Bháshya on the first four Sútras of Vedánta.
(b) Vedánta—Paribhásha by Dharma—Raja Adhvaríndra.
Advaita Siddhi by Madhusudan Saraswati.
(c) Sánkhya—Sútra, with Parbachana Bháshya by Vijnána Bikshu.
Yoga—Sútra, with Rájamártanda—Vritti by Bhoja Deb.
(d) Nyáya-Gautama Sútra with Vritti by Visvanátha.
Mímánsá—Darsana, with Sabara Bháshya, Adhyáyas I and II.
(e) Bhágabadgítá, with Commentary by Sridhara—Swamin.
Chhándogya—Upanishad with Sankara—Bháshya.
(f) Essay and Comparative Grammar.

One paper to be set on each of the above. Candidates will be at liberty to substitute Indian Epigraphy and Palæography for (b).

GROUP C.

(*a*) Gautama—Sútra, with Vritti by Visvanátha.
Vaiseshik—Sútra with Vritti by Jaynáráyan.
(*b*) Tattwa-Chintámani by Ganges (As. Soc. Edition), Pratyaksha, Upamána, and Sabda.
(*c*) Tattwa-Chintámani (As. Soc. Edition), Anumána.
(*d*) Sabda-Sakti-Prakáshika by Jagadis.
(*e*) Kusumánjali by Udayanácharyya with Vritti by Haridas.
(*f*) Essay and Comparative Grammar.

One paper to be set on each of the above. Candidates will be at liberty to substitute Indian Epigraphy and Palæography for (*b*).

PALI.

Anuruddhā ...	... Abhidhammatthasangaha.
Theragāthā ...	... The Ekanipāta, Dukanipāta and Tikanipāta.
Anguttara-nikāya	... The Bálavagga, Rathakáravagga, Pugalavagga and Devdūtavagga of the Tikanipāta.
Mahāvanisa ...	... The first five chapters (parichchhedas), Turnour's or Sumangala's Edition.
Jātakas ...	... Fausböll's Edition, Vol. II. Dalhavagga, Santhavagga, Kalyānadhammavagga.

SANITARY.

PLAGUE.

The 24th October 1900.

No. 2598.—Whereas the Governor-General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Tiruvannamalai in the South Arcot District of the Madras Presidency, if pilgrims or other persons from the Bombay Presidency (excluding Sind), Bengal, and the Mysore and Hyderabad States are permitted to assemble at that place on the occasion of the ensuing Karthigai festival:

In exercise of the powers conferred by section 2, sub-section (*1*), of the Epidemic Diseases Act (III of 1897), the Governor-General in Council is pleased to direct that no tickets to travel by railway to the stations of Polur, Agaram, Sibbandi, Tiruvannamalai, Tandarai and Tirukhoyilur on the South Indian Railway, shall be sold from the 17th November to the 8th December 1900 (both days inclusive) within the Bombay Presidency

(excluding Sind), Bengal and the Mysore and Hyderabad States to any pilgrim or other person intending or believed to be intending to proceed on pilgrimage to the Karthigai festival at Tiruvannamalai.

The 26th October 1900.

No. 2615.—In the Notification of the Government of India in the Home Department, No. 2936, dated the 20th October 1899, it was ordered, under the powers conferred by section 2, sub-section (1), of the Epidemic Diseases Act (III of 1897), that the pilgrimage to the Hedjaz during the season of 1900 might be permitted, except in the case of persons residing in the Bombay Presidency (including Sind), the Presidency of Madras, the Mysore and Hyderabad States, Coorg, Calcutta and the Saran District of Bihar, the Nagpur Division of the Central Provinces and the Hoshiarpur District of the Punjab, subject to certain precautions and restrictions which were imposed in view of the strong opinions of all European Governments, including Turkey, regarding the danger of plague being communicated to Europe, and in view of the danger of plague being spread by intending pilgrims from infected to non-infected portions of India.

Plague is unfortunately still widely prevalent in the Bombay Presidency and the Mysore State. The disease continues to exist in the Salem District of the Madras Presidency. Imported cases are of somewhat frequent occurrence in the districts of the Madras Presidency adjoining the Mysore State. Calcutta and a few districts in Bengal continue to be infected. The outbreak in the Jullundur and Hoshiarpur Districts of the Punjab ceased in June, but three suspicious cases of a very mild type have recently been reported from the former district. The remaining Provinces in British India are entirely free from plague. The Hyderabad State has also ceased to be infected, no cases having been reported, except from the Lingsagur District, since the month of May; while in this district itself no case is known to have occurred since the beginning of October.

The alarm experienced by European Governments, including Turkey, regarding the danger of plague being imported to Europe is in no measure abated, and during the past season Indian pilgrims were again subject, on and after arrival at Turkish ports, to much vexatious restriction and consequent hardship. The Government of India do not think it necessary to prohibit the pilgrimage from the uninfected portions of India during the ensuing season, but they consider it essential that careful precautions should be observed similar to those which were enforced during the past season. The port of Karachi is now no longer infected, and with a view to mitigating the inconvenience to pilgrims from parts of the north of India of the long journey to Chittagong, the Government of India have determined to permit embarkation this year at Karachi. Should, however, a serious outbreak occur there before, or during the course of, the ensuing season, it will probably be necessary to cancel this permission and to direct that pilgrims, who had proposed to go from Karachi, should go from some other port.

The Governor-General in Council is pleased to cancel the order contained in the Notification of the Government of India in the Home Department, No. 2936, dated the 20th October 1899.

The Governor-General in Council is further pleased to direct that, until further orders, no person resident permanently or temporarily in the Presidency of Bombay (excluding the whole of Sind), the Madras Presidency, the Mysore State, Coorg, the Jullundur District of the Punjab and Bengal, excepting the Chittagong Division, shall be permitted to embark from any port in India with the object of making a pilgrimage to Mecca.

The Governor-General in Council is further pleased to direct as follows:—

(1) That no person shall be permitted to embark with the object of making a pilgrimage to Mecca, except at the port of Karachi in Sind and Chittagong in the Lower Provinces of Bengal, and unless and until such person has been kept under observation in a place appointed for the purpose until such time as the Medical Officer in charge shall be satisfied that all risk of such person conveying the infection of plague has been completely abated and unless such person is conveyed from the place of observation to the place of embarkation under the charge of an officer appointed for the purpose.

(2) That no passage tickets for the Hedjaz shall be sold except at the places appointed for the detention of intending pilgrims under observation.

The Government of India think it necessary to repeat the warning given last year that, although they have decided that the pilgrimage to the Hedjaz may be permitted subject to the safeguards enumerated above, they are nevertheless convinced that intending pilgrims will be well advised in deferring their purpose until another season, in view specially of the stringent quarantine rules imposed by the Turkish Government, and of the inconvenience and harassment to which it is likely they will be subjected on arriving in Arabia.

DRAFT NOTIFICATION.

In exercise of the powers conferred by sections 25, 26 and 27 of the Cantonments Act, 1889 (XIII of 1889), and in supersession of all previous rules, regulations and notifications on the same subject so far as they apply to the Cantonment of Aden, the Governor-General in Council is pleased to direct that, on and with effect from the day of 1900, the rules and applied enactments known as the Cantonment Code, 1899, and published with the notification of the Government of India in the Military Department, No. 664, dated the 16th June 1899, as amended by notifications Nos. 1065, 115, 253, 706 and 895, dated the 29th September 1899, 2nd February, 9th March, 13th July and 31st August 1900, shall be in force in the said Cantonment.

On and with effect from the date aforesaid, the notification first above cited shall be read as though the words "other than Aden" were omitted.

SPECIAL.

No. 1075.—The following revised rules for the grant of shooting passes to British soldiers in India are published for the information and guidance of all concerned:—

PART I.

Rules for Shooting Parties.

1. No warrant officer, non-commissioned officer or private soldier shall carry fire-arms for sporting purposes without a shooting pass. Shooting passes will only be granted to warrant officers and non-commissioned officers and to private soldiers possessing at least one good-conduct badge.

2. No pass will be granted to any warrant officer, non-commissioned officer or private soldier unless his Squadron, Battery-Section or Company Officer certifies that he is competent to handle fire-arms.

3. Each pass will be granted to a party of three, one of whom shall be in charge of the party. The party must in all cases be accompanied by a native qualified to act as interpreter, whose name will be entered on the pass. The party of three shall not separate while shooting.

4. The member of the party who is placed in charge shall carry the pass. He shall produce it when reasonably required to do so, and he shall at once return it to the squadron, battery or company orderly sergeant when the party comes back to camp or lines. On returning the pass he shall report any breach of these rules, any affray with natives, or any mishap which may have occurred during the absence of the party. If any such event is reported, the non-commissioned officer to whom the pass is returned will at once inform the Commanding Officer; and the Commanding Officer will at once send to the District Magistrate the substance of the report, together with a copy of the complaint, if any.

5. If any member of a shooting party commits any act resulting in injury to person or property, or is involved in an affray with natives, the party shall return to camp or lines without delay, after reporting, if possible, to the nearest civil authority.

6. No person not named in the pass, except game coolies, shall accompany a shooting party.

7. There shall be no loading in the neighbourhood of camp or lines; and all fire-arms shall be unloaded before shooting parties return.

8. No shooting with bullets of any kind is permitted except in forest or close jungle, or in tracts of country where such shooting is not attended with danger. Shooting at night is forbidden, except in forest.

9. No member of a shooting party shall address or enter into conversation with any native woman.

10. No member of a shooting party shall enter any village, house, temple, mosque or enclosure, or shall shoot within 500 yards of such. If supplies are to be obtained from a village, the interpreter may be employed for the purpose.

11. Members of shooting parties are forbidden to trespass upon or shoot over crops.

12. No member of a shooting party shall shoot at any animal or bird, or in any locality, included in the prohibited list shown on the pass.

13. Shooting at peafowl is prohibited, unless by special permission endorsed on the pass. No shooting at hinds, does, monkeys or dogs is permitted.

14 These rules apply to troops on the march or in moving camps, as well as to troops in cantonments or standing camps.

PART II.

Rules for fire-arms and ammunition.

15. The fire-arms carried by a shooting party shall be specified on the pass, and no fire-arms not so specified shall be used.

16. No rifle or carbine shall be used which carries Government ammunition, or is under ·450 bore, or is sighted over 150 yards. All bullets used with rifles or carbines for sporting purposes shall be hollow.

17. No private soldier, not qualified to be a member of a shooting party, shall be allowed to possess a rifle, carbine or gun of his own.

18. Fire-arms and ammunition used for sporting purposes, whether private property or issued by Government, shall be kept in the squadron, battery or company store-chest in charge of the squadron sergeant-majors, quartermaster-sergeants or colour sergeants. They will be issued by the abovenamed non-commissioned officers on production of a pass in which they are specified, and this duty shall not be delegated to any other persons. The armourer-sergeant (or, in the case of a battery, the Section Officer) will sign the specification of fire-arms on the pass, and no arms shall be issued unless he certifies that they are in good condition and not contrary to rule 16.

19. All fire-arms issued from the store-chest and unused ammunition shall be returned to the sergeant in charge who will sign to their receipt on the shooting pass when the party comes back to camp or lines. All arms kept for sporting purposes shall be entered on the "daily state" of the Corps or Detachment; and shall be shown as "present," "on pass" or "absent."

20. These rules apply to troops on the march or in moving camps, as well as to troops in cantonments or standing camps.

PART III.

Rules for Officers granting Shooting passes.

21. Shooting-passes are to be granted by the Officer Commanding the Corps of Detachment to which the men belong, or to which they are attached for the time being.

22. Passes are to be granted only on the printed forms supplied for the purpose, and the certificate on the face of the pass is to be signed by a Squadron, Battery-Section or Company Officer and countersigned by the Commanding Officer.

23. When men are permitted to shoot in the vicinity of a military station at a distance from their quarters, the following procedure shall be observed: —

(1) A furlough pass will be granted to them to the military station nearest to the country in which they intend to shoot. On the furlough pass will be an endorsement by the Officer Commanding the Corps or Detachment in red ink to the effect that the men are permitted to carry fire-arms and ammunition, and are eligible for a shooting pass. The furlough pass so endorsed shall be an authority to the sergeant in charge to issue arms and ammunition to the party, after the armourer sergeant has signed the specification that the arms are in good condition and not contrary to rule 16.

(2) A shooting pass will at the same time be given to them in the usual form with the omission of (*a*) the name of the interpreter, (*b*) the dates indicating the duration of the pass, (*c*) the list of prohibited localities, animals and birds, and (*d*) the countersignature of the Commanding Officer.

(3) On arrival at the military station to which they are granted furlough, they shall report themselves to the military authorities at that station who will attach them to a military unit.

(4) The Officer Commanding the Corps or Detachment to which they are attached will, unless there are valid reasons to the contrary, complete the shooting pass by entering (*a*) the name of a qualified interpreter, (*b*) the dates indicating the duration of the pass, and (*c*) the list of prohibited localities, animals and birds for the tracts of country where the members of the party intend to shoot; and will then add (*d*) his countersignature. He will also give the notice to the civil authorities required by rule 26.

The possession of fire-arms and ammunition by members of the party is only allowed during the currency of the completed shooting pass, otherwise rules 18 and 19 apply at the station to which the men are granted furlough.

24. Shooting passes, if granted to regimental warrant officers and sergeants, shall not extend to more than 14 days; and, if granted to rank and file, shall not extend to more than 7 days.

25. Officers Commanding Stations, and Officers Commanding Troops about to march, will communicate with the Civil District Officer in order to ascertain—

(*a*) in what localities shooting ought to be forbidden;

(*b*) what animals or birds are regarded by the inhabitants as sacred, or are protected by rules relating to the establishment of a close season.

26. Prior to the issue of a shooting pass which is to extend over three days, the Commanding Officer by whom it is to be granted shall send notice thereof to the District Officer of any civil district in which the members of the party are to be permitted to shoot. This notice shall be despatched at least three days before the commencement of the currency of the shooting pass. The notice shall state the names and rank of the members of the party, the place or places which they are to visit and the dates indicating the duration of the pass.

27. For a Native State, the Political Officer in charge shall be deemed to be the District Officer for the purposes of rules 25 and 26. The notice furnished to the Political Officer under the latter rule shall be despatched at least three days beforehand; but such longer notice shall be given as is possible. Soldiers marching through a Native State are in no case to be permitted to shoot unless within 10 miles of camp.

PART IV.

Rules for dealing with offences.

28. When any serious breach of these rules occurs the Officer Commanding the Corps or Detachment will at once report the date and all the facts of the incident, so far as known, by telegram direct to the Adjutant-General in India, repeating the message to the General Officer Commanding the District, to the Deputy Adjutant-General of the Command and to the Military Department. Detailed reports will be submitted subsequently by letter through the usual channel for the information of the Commander-in-Chief and the Government of India.

29. In every such case the Officer Commanding the Corps or Detachment will immediately commence a thorough and searching investigation in view to securing the best possible narrative while the event is still fresh; and he will communicate with the District Magistrate as freely as required. When the civil authorities also take up the case, every assistance possible will be rendered to them in their investigation. The Medical Officer, who first attends to any person (whether soldier or civilian) wounded in any such case, will, without delay, bring to the notice of both the civil and military authorities the nature and extent of the injuries received and their probable ultimate result.

30. Any warrant officer, non-commissioned officer or private soldier shooting without a pass shall be tried by court-martial, and shall on conviction be deprived of the privilege of shooting during the remainder of his Indian service. Also any member of a shooting party, who commits any breach of these rules resulting in material injury to person or property, shall be tried by court-martial. Cases of all other breaches of the rules shall be reported to the General Officer Commanding the District for orders.

31. When a court-martial is to be held under rule 30 the case shall be sent to the Deputy Judge Advocate-General, or Assistant Judge Advocate-General, who shall frame the charges and prepare the brief for the prosecution, and the proceedings of the court-martial shall be sent to the same officer for report before confirmation. If a civil enquiry has been held on any case, proceedings of enquiry should accompany application for trial in view of all possible evidence being made available.

32. When a court-martial is held under these rules, the result will be reported for the information of the Commander-in-Chief and the Government of India.

33. If any breach of these rules, or any act committed by a member of a shooting party, results in an affray with natives, or in material injury to person or property, and the offender or offenders cannot be identified, all shooting passes will be prohibited in the corps or detachment, or in the district, for a period not exceeding two years, at the discretion of the Lieutenant-General Commanding. Every such prohibition shall be published in Command Orders and reported for the information of the Commander-in-Chief and the Government of India.

PART V.

Special Rules for Warrant and Non-Commissioned Officers of Departments.

34. Shooting passes will be granted to warrant and non-commissioned officers of departments by the local Departmental Senior Commissioned Officer, in accordance with these rules so far as they may be applicable: Provided that any such warrant or non-commissioned officer may be granted a pass to shoot alone if the officer granting it is satisfied that his knowledge of the language is sufficient to enable him to converse with the inhabitants. Standing passes for a maximum period of six months, but subject to the rules relating to prohibited localities, animals and birds and to the other restrictions referred to above, may be granted to subordinates of the Military Works Department who are not employed in cantonments. In every case the officer granting the pass is responsible for seeing that the list of prohibited localities, animals and birds is duly entered on the pass.

PART VI.

Publication of these Rules.

35. A copy of these rules and of the list of prohibited localities, animals and birds shall be hung up in a conspicuous place in every barrack room.

36. Twice a year (in April and October, on such day as the Officer Commanding directs) the rules included in Parts I and II and Rules 30 and 33 shall be read on parade at the head of all British squadrons, batteries and companies (including convalescent depôts and standing camps).

37. When troops disembark in India, no shooting passes shall be granted until they arrive at their destination. On their arrival, and before any passes are granted, the rules in Parts I and II and Rules 30 and 33 shall be read on parade. An order calling attention to this rule shall be issued to the Commanding Officer of each Corps or Detachment before the troops disembark.

38. A copy of the rules in Part II shall be hung up in every squadron, battery or company store.

NOTE.

The following orders and rules of law apply to the civil inhabitants of localities in which soldiers are permitted to shoot.

The civil authorities will explain the substance of the rules and orders in simple language in all villages and tracts where soldiers are in the habit of shooting, so that the inhabitants will have no excuse for interfering unwarrantably with members of a shooting party.

2. Landlords, headmen and village police will be warned that they are expected to give their assistance in avoiding disputes between villagers and soldiers out shooting.

3. The rules for soldiers provide for punishment of a corps or detachment, or district, in the event of the offenders not being discovered. A similar responsibility may be enforced upon villages where affrays with British soldiers have occurred, if the villagers generally, or a considerable number of them, have made an unwarranted attack upon a shooting party, but the actual offenders have not been brought to justice. The villagers will be warned that in such cases they are liable by law to have extra police quartered upon them at their own expense.

4. The villagers will also be warned that they are not in any circumstances to take the law into their own hands, but are to lodge any complaint they have to make in a legal manner.

5. In cases which are not cognizable by the police, or where the prosecution is not undertaken by the civil authorities, the Civil District Officer will inform the Commanding Officer to that effect, for such action as the latter may consider fit to take.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned bahal and bajiafti lands situate in the district of Balasore as escheated to Government being left by Taramoni Dassi of Balikuti, pargana Satmolang, who died intestate and without heirs, will be put up to sale at the Balasore Collectorate on the 8th November 1900, corresponding to 24th Kartik 1308 B.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The lands to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of the lands will be considered as the proprietor of the lands, and the entire proprietary right of Government in such lands will be transferred to him free of revenue in respect of bahal and with the settlement rent in respect of bajiafti lands.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the lands to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Stolen in 1898.

THE Government Promissory Note, No. 010397, of the reduced 3½ per cent of 1854-55 for Rs. 500, originally standing in the name of Mr. G. K. Sinclair, proprietor, by whom it was never endorsed to any other person. Payment of the above note and interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, Calcutta, since the year 1898, and application is about to be made for the issue of a duplicate in favour of the undersigned.

G. K. SINCLAIR, Proprietor and Government Pensioner.

MISS SHOILABALA HAZRA IS THE daughter of the late Mrs. Hazra, who was my late wife's God-daughter. After her mother's death I took over Shoilabala with the consent of her father Mr. A. C. Hazra, and since then she has lived all these years under my protection and guardianship. During this period she has been educated by me and enjoyed the position and rights of daughter in my house. With a view to void any mistake after my death about her position and rights it is my wish that she should adopt my family name Das.

M. S. DAS.

Cuttack, 9th October 1900.

I have hitherto been brought up and educated, and am being still educated, by Hon. M. S. Das. It is my wish as much as his that I should change my family name into Das. I request my friends and the public to address me henceforth as Miss Shoilabala Das.

S. B. HAZRA.

Cuttack, 9th October 1900.

Sahebganj Stone Quarries.

SAHEBGANJ Stone Quarries, Blocks I, III and IV, and other unleased blocks in the Rajmahal subdivision will be put up to auction at Sahebganj at 11 A.M. on the 15th November 1900.

The right to remove stone from these blocks will be leased to the highest bidder (subject to confirmation by the Conservator of Forests) on an annual rent payable in advance, 10 per cent. of which must be deposited at the time of auction, subject to the usual conditions, and to a royalty of 4 annas per 100 cubic feet on fashioned stone and 2 annas per 100 cubic feet on unfashioned stone, or metal quarried, to be paid before removal for a period of three years, from the 1st January 1901.

Further particulars may be obtained on application to the Deputy Conservator of Forests, Sonthal Parganas Division, Dumka.

H. D. D. FRENCH, Deputy Conservator of Forests,
Sonthal Parganas Division.

The 18th October 1900.
